PULLEYS & BEARINGS

Urethane, ceramic, carbide, plastic rollers and a range of precision stainless steel bearings available from stock for all leading EDM machine types.

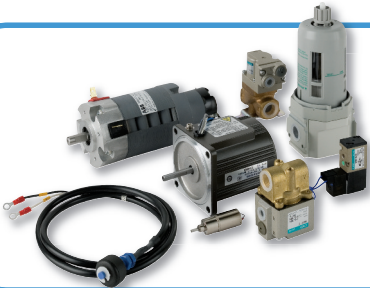

INSULATOR PLATES

Sheer and insulator plates available for all EDM machine types all from stock for next day delivery.

GUIDES

Ceramic sub guides and diamond wire guides available for standard and auto wire feed machines all sizes in stock for next day delivery, available for all machines used in the UK.

MOTORS

Various axis, wire drive, tension, cutter and feed motors available for several machine types.

POWER FEED CONTACTS

Our superior quality power feed contacts are designed to keep your wire EDM equipment operating at peak performance. Made from only high quality tungsten carbide, each power feed contact is manufactured to achieve maximum conductivity and extended wear life.

FLUSHING NOZZLES

Full range of flushing nozzles with various hole sizes, manufactured in ceramic, plastic and brass available ex-stock for all wire EDM machines.
