

for the good life onboard...

# Vestnes Ocean

Vestnes Ocean is a family owned company with many years of experience in both domestic and international business. The new and modern Vestnes Ocean headquarters is located in Florø, a small fishing town in Western Norway surrounded by beautiful mountains and the deep blue North Sea.

By listening to our clients, Vestnes Ocean are able to effectively communicate with designers, material experts, suppliers, and ship staff to create the best interior that accommodates and meets the client's desires. By producing the best interior possible, it allows for a feeling of home on the beautiful ocean water.

## "For the good life onboard"

At Vestnes Ocean it is important that we listen to the people that use and enjoy our interior and accommodations every day. This way we can produce the very best interiors to create a feeling of being at home away from home. At Vestnes Ocean we take pride in cooperating and communicating with designers, material experts, suppliers and ship staff. We believe this is one of our many strengths.

## Vestnes Ocean's exciting history

Mr. Jostein Bjørnset had worked at a factory in Florø since 1963. The factory manufactured electrical household heaters as well as workshop cabinets. Mr. Jostein gained experience as a foreman and production leader while working at the company.

His wife, Mrs. Eirin Bjørnset, and one of their sons, Odd Bjørnset, also worked at the factory and gained experience as production workers.

In 1987 Mr. and Mrs. Bjørnset and their son Odd decided to take over the factory and continued production. Still today, Vestnes

continue to manufacture workshop cabinets. In 1989 Vestnes Produkt established a new department for outfitting of interiors on ships as Kleven Yard decided to start up building ships in Florø. Jonny Bjørnset, son of Mr. and Mrs. Bjørnset, decided to join the company in 1994.

In 1998, Vestnes Innredning, also based out of Florø, was established to focus on interior design. Jonny Bjørnset has managed it since its establishment.

Company stocks were taken over by Mr. and Mrs. Bjørnset's three sons; Odd, Jonny, and Roger Bjørnset, when they decided to leave the company in 2007.

In 2009, the Bjørnset brothers sold the factory at Vestnesvegen 33 and moved all production to Vestnes Innredning, where the new headquarters is now located.

Vestnes Innredning was renamed Vestnes Ocean on January 1st, 2011.

The Vestnes Ocean team invites you to experience their modern installed solutions showcase at their new headquarters at Leirvåggata 1 in Florø, Norway. You may also experience the showcase virtually at [www.vestnesnorway.com](http://www.vestnesnorway.com).

Unique 3D views of your interior

## Personalized interior

You may personalize your cabin experience by choosing between three interior designs; Pacific Willy, Atlantic Willy, or Indian Willy. If one day you desire to change the color of your Willy cabin, Vestnes Ocean can easily accommodate those changes. You can create a whole new look in your Willy cabin whenever you desire. The Velcro upholstered doors and zipped sofa covers can easily be changed without the use of any tools.

### Personalized interior in 3d views

A unique 3D view of the room you designed with the Vestnes Ocean design team is created based on 2D CAD drawings. The 3D illustration of your dream room allows you to explore different color combinations and designs. The 3D illustration is created before work begins on your interior. This is called high quality service!

# The Willy Furniture Collection

It is important for a sailor to come “home” after a long, action filled day at sea. Stepping into a Willy furnished cabin it is like stepping into your very own comfortable living room.

Designed by Ralston and Bau design studio, Willy’s unique furniture design was inspired by the shape of killer whales. The shapes and corners of the furniture allow for more floor space and a modern look. The furniture is not only functional, but additional storage can be found in the least expected places. The Willy collection allows for space in the cabin to be utilized in the best and most functional way.

The Textiles used to create the furniture is made of water repellent fabrics and is built to last, even in the worst conditions. The textiles also reflect far less sound than hard surfaces which

makes for a more quiet environment. The Willy furniture collection was designed and developed exclusively for the modern offshore ship and is perfect for both the captain’s cabin and the berth of the rookie sailor. The Willy collection provides bunks, wardrobes, sofas, tables, chairs, and computer desks. Cabin accessories include colorful lift curtains, bed curtains, night tables, binocular boxes, chart tables, wardrobe lockers, television, music systems, and more. “A home away from home” is easily created with The Willy Collection.

# Some references

## MT Stolt Island

Vestnes Ocean delivered the complete interior outfitting and accommodations to the Stolt Island Ship in 2009. This ship was built in both Ukraine and in Florø, Norway.

## MS Makalu

Vestnes Ocean was responsible for the completion of the interior for Makalu, the largest ship honored with a naming ceremony in Fosnavåg. The ship launched August 24th, 2013 in Norway and can accommodate 26 staff. Makalu is owned by Global Offshore, an Indian Company.

## MS Deep Energy

The large vessel Deep Energy arrived in the fall of 2011 to Florø from China. Vestnes Ocean transformed Deep Energy into a modern ship shortly after its arrival.

Vestnes made it possible for 140 staff members to enjoy their very own exclusive sleeping spaces furnished with the Willy Collection. Vestnes Ocean also installed insulation to all technical areas and pipes.
