Blue Wave Trading Precision Indicators and MTS Software Now Offered On NinjaTrader™ Platform

MAUI, Hawaii – July 31, 2007 – Blue Wave Trading Research and Development Inc. Precision Indicators and MTS (Manual Trading System) software is now available as an add on to the industry leading and state of the art NinjaTrader™ end to end trading platform. This will allow traders to integrate the exceptional clarity of trade signals from the BWT Precision Indicators along with of all the robust features of the NinjaTrader™ platform including advanced charting, market analytics, system development and superior order entry and management. This will allow more private and institutional traders to take advantage of BWT's unique software.

Clear, Clean and Precise Graphics

The Blue Wave Trading Precision Indicators provide traders with clean, uncomplicated and visually pleasing color keyed graphics of trend and price movement in any market or time frame. Trade opportunities and signals are clearly displayed in real time along with entry price and an alert that plots directly on the bar. NinjaTrader's facilitation of order entry and trade management together with an indicator that provides accurate signals makes this a winning combination.

Multiple Datafeeds

NinjaTrader's advanced charts can be powered by datafeeds from leading firms including eSignal, DTN.iQ, TrackData, OpenTick, Interactive Brokers and many others. This significantly increases the accessibility for those who wish to improve their trading with BWT Precision Indicators.

Pricing and Availability

BWT Precision Indicators for NinjaTrader will be available for 20% off the regular price as an introductory offer through August 31, 2007. A onetime license is regularly priced at \$1,995.00 USD. NinjaTrader is free for advanced charting, market analytics, system development and trade simulation. More information and online ordering is available at www.bluewavetrading.com.
