

Georgian Stately Home Case Study

STATELY HOME, LONDON, UK

Core Lighting's work at a magnificent Georgian Stately Home near London consisted of lighting both the interior and exterior of the private stately home for the delight of 100 guests at a corporate function.

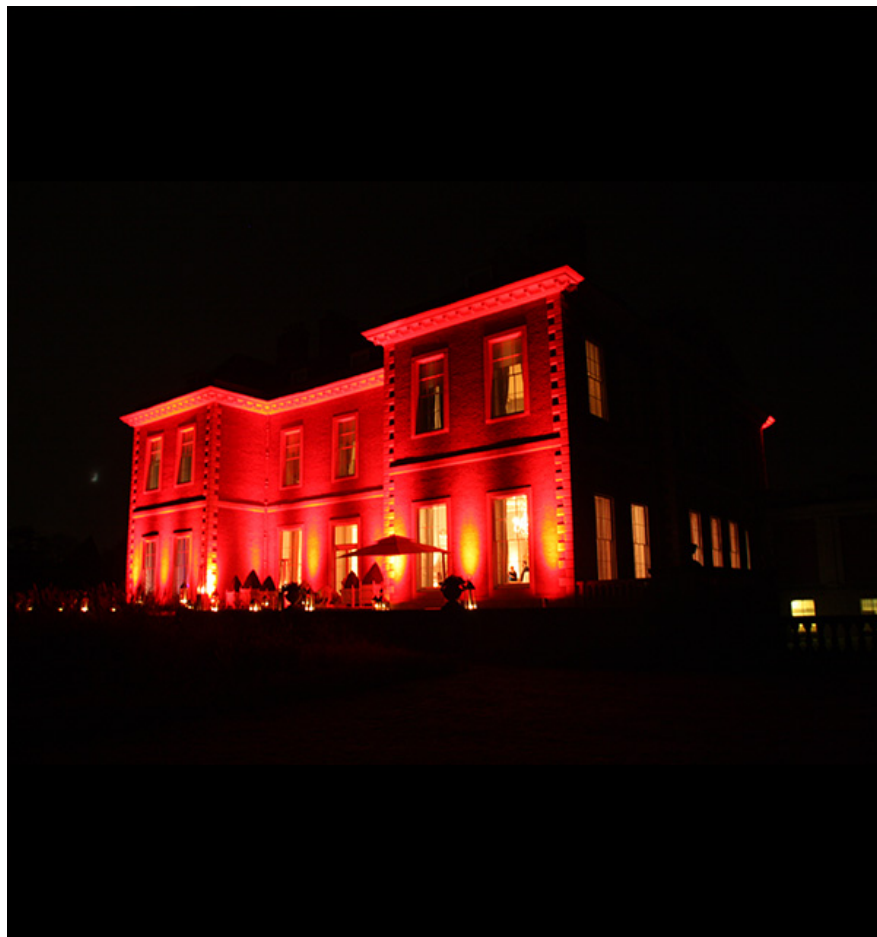

- ✓ All the lighting was wireless and battery powered and controlled using 6 wireless networks
- ✓ The set up took less than 2 hours
- ✓ Read on to explore the wonderful results

(Note for privacy reasons all artworks have been edited)

Building exterior

The front elevation, including canopy walls, were illuminated using Point30 Rugged.

External lighting

Wall uplighting and Point20 were used outside to illuminate the impressive residence.

Creating a welcoming ambience

The use of ColourPoint in the lobby & entrance halls created a welcoming ambience for guests.

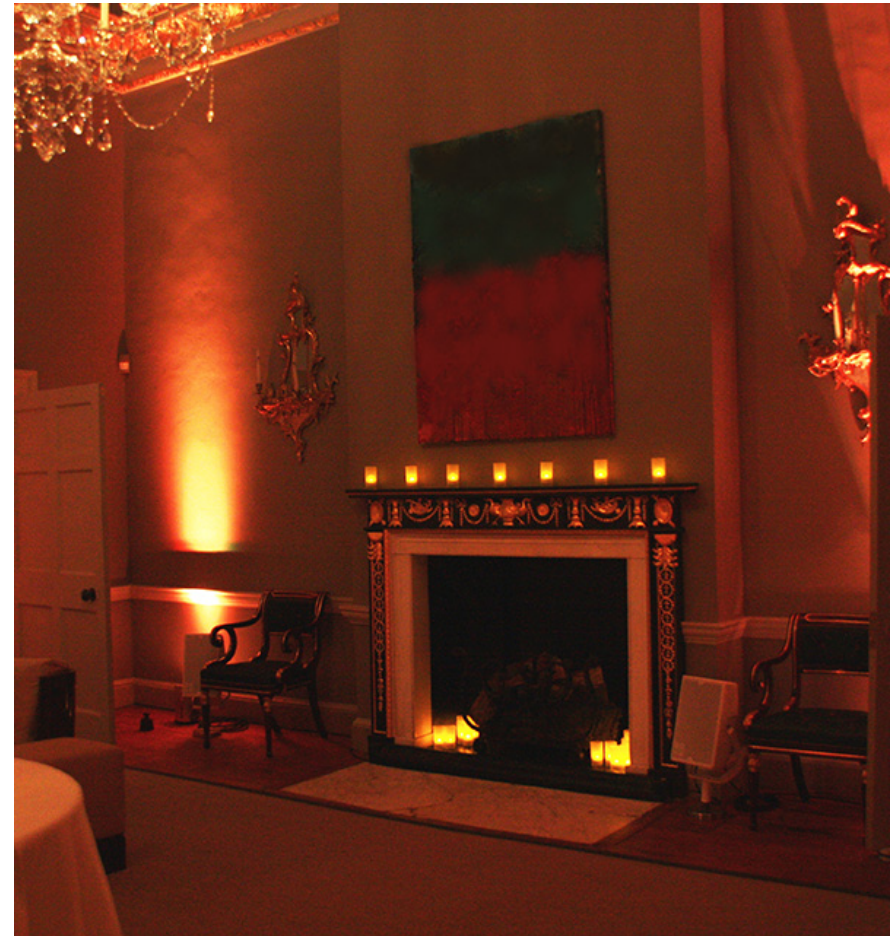

Dining halls

The soaring dining hall ceilings were illuminated using ColourPoint with Wireless DMX control.

Interior lighting

ColourPoint mood lighting was used in the grand reception rooms to evoke a sumptuous atmosphere.

ANY VENUE, ANY OCCASION

Bright, colourful and robust, CORE Lighting products are innovative in design and rugged in construction.

Fully weatherproof and battery powered, our comprehensive range of wireless LED lighting products are quick and easy to set up and do not require power or data cables.

Featuring lightweight but powerful rechargeable lithium ion battery technology, they are suitable for professional, continual usage.
