MARKET LEADER BASED IN EDAM

Our manufacturing plant is based in Edam. We are Europe's biggest and most efficient manufacturer of creamhorns and puff pastry shells, but part of our strength is that we also offer flexible tailor made and private label solutions for many of our customers and distributors. We are market leader in the Netherlands, but we also have distributors worldwide, serving foodservice and retail in Europe, the US, Brazil and EMEA- continuously expanding our global scale. Our customers value Pruvé for our expertise, our undisputable reliability, cost efficiency and our efforts to translate specific customer requests into a great tasting product that meets their consumers' expectations. Examples include clean label snacks for a retailer, snacks with local origin meat for a food service chain and a meringue product for a large QSR customer. Smilde Bakery invests in marketing and R&D to better understand consumers' needs, stay ahead of trends and adapt to the rapidly changing market. As a result, Pruvé recently launched the Vegetarian Sausage roll, an instantly successful co-production with the Dutch rising star; the Vegetarian butcher.

HOMEMADE

HomeMade is also a Smilde Bakery Brand. HomeMade offers a versatile range of home baking concepts in retail and foodservice. Dutch consumers love the HomeMade brand for its easy and yummy home baking products. The manufacturing plant in Roden does not only produce the HomeMade products, but also offers private label solutions for most Dutch retailers.
