

VISION PROGRAMME

Focus. Clarity. VISION.

Think about what would be your dream work schedule.

On the reverse of this page is a blank 'Perfect your year plan' for you to fill out.

I suggest you print a few out, because when you get started in thinking about where you want to be in the future, your mind will run into overdrive. Mine did.

To the right is my dream year. I thought I would share it with you. I started at a point where I didn't work Fridays, bonus. Obviously no one wants to work the weekend, so they are already blanked out. I have children, who ideally I'd like to see more of, so I blanked out the school holidays. I'd also like some time to be creative outside of my business. So, I added Mondays.

This left me with only 117 days of the year to work. When I drilled deeper, I realised if I really focused my attention on the 3 days a week at work, I could actually triple what I earned, for less than half of the year.

It seems crazy, but it's possible.

Now it's your turn. Turn over the sheet and fill out your dream year.

Take your dream income and divide by the days. This will give you the formula you need: $VISION = £ \div \text{days}$.

For example: $£120k \text{ pa} \div 120 \text{ days} = £1k \text{ per day}$.

Next step? Get on the VISION Programme and find out how to make this a reality.

Perfect your year plan 2020
