Packaging solutions that add value to your business

At Network Packaging we understand that stock packaging doesn't suit every business. That's why we work in partnership with our customers to supply tailored packaging solutions that add value.

Whether you're looking to save time, reduce costs or enhance your reputation, Network Packaging can help. As we're a distributor, we're in the position to provide you with all of the materials, accessories and services you might need.

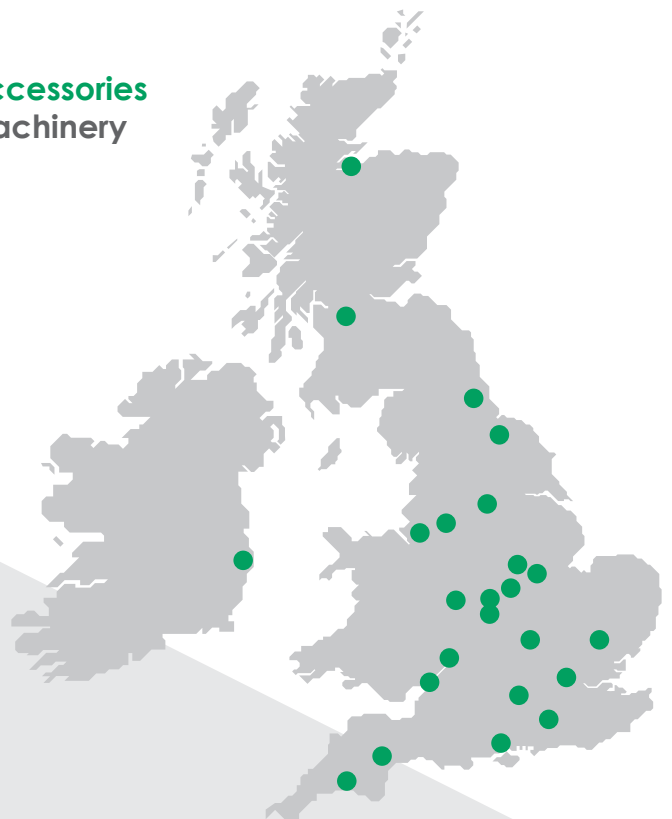

A wide range of products

- Boxes
- Bags
- Tapes and Labels
- Protective Packaging
- Paper Packaging
- Postal Packaging
- Stretch
- Strapping
- Packaging Accessories
- Packaging Machinery

Network Packaging is part of the UK's largest packaging group, Macfarlane Packaging. With a national distribution network, over 750 staff and industry leading innovation centres, we're confident we can support you with a complete packaging solution.

Bespoke packaging specialists

Network Packaging works as a one-stop packaging supplier, so we're able to offer a fully flexible service that will completely meet your needs. This includes designing packaging that's custom made to your requirements...

- **Bespoke product specifications** - if you're experiencing a particular challenge, we can help you re-specify your packaging materials
- **Printed boxes** – brand your cartons so customers can easily identify your packaging and pick it out from the crowd
- **Colourful consumables** – metallic bubble envelopes, printed poly bags and tape – the sky's the limit
- **Something a bit different** – temperature retention packs, eco-friendly packaging, inflatable Airsacs – we'll suggest new innovations

airsac[®]

Inflation innovation

Airsac is an innovative, inflatable packaging system that's been designed to protect fragile and breakable goods. Composed of just 2% film and 98% air, Airsac will save you time, save you money and save your goods from damage...

- **Save up to 90% of storage space** – Airsacs are supplied flat before use
- **Green credentials** – Airsacs are 100% recyclable and can be reused
- **Reduces damages and returns** – Airsac provides advanced protection
- **Quick and easy to use** – Airsacs inflate in seconds, using a small compressor
- **Drives cost efficiencies** – a lighter solution that reduces costs

Airsac is already being used to protect goods such as wine, IT equipment and pharmaceuticals. You can see the full range at www.airsac.co.uk. If a stock Airsac design doesn't suit your requirements, we can also make custom Airsacs, just for you.

Geami WrapPak[®]

Fast packing and perfect presentation

Geami WrapPak[®] is an eco-friendly replacement for the likes of bubble wrap and foam sheets. Made from expanding die cut paper lined with tissue, Geami WrapPak[®] is ideal for protecting surface finishes and securing breakable goods!

Geami is great for packing:

- Ceramics
- Glassware
- Pharmaceuticals
- Kitchenware
- Electricals
- Cosmetics

TIME SAVINGS

Improve your wrapping speed and packing throughput

COST EFFICIENT

You'll use less material, plus there's no need to use tape - saving you money

PERFECT PRESENTATION

Attractive in-the-box packaging, enhancing the customer experience

Packaging sustainable for the future

Geami WrapPak is also 100% recyclable and as it's made of paper, a renewable resource, it's sustainable for the future.

Protective packaging, packaging accessories & machinery

If you need to protect your goods, we can supply you with everything from protective consumables such as foam sheets and bubble wrap through to fully automated packaging systems.

The Network Packaging team can also help you solve any challenges you're facing such as blocking and bracing, cushioning, surface finish protection, product migration in transit, material yield and system efficiency.

- Paper systems
- Inflatable void fill
- Foam
- Bubble wrap
- Polystyrene
- On demand systems
- Full automation & integration

Packaging accessories & machinery

From basic accessories like tape guns, through to complex multi-use packing stations, Network Packaging can provide you with the relevant packaging machinery and accessories to set up your packing operation.

Some of the tools we can provide you with include:

- Tape guns & automated dispensers
- Strapping tensioners, cutters and machines
- Packing benches and systems
- Heat sealers
- Cutters and guillotines
- Stretch wrap dispensers
- Conveyor systems
- Box and carton making machinery

We work with a number of accomplished strategic partners to provide you with the best protective packaging solutions, accessories and machinery. Our strategic partners include:

OUR SERVICES

Warehousing & Stock Management

Utilise our warehouse space with our stock holding service. We'll carefully manage your packaging materials to ensure continuity of supply throughout the year, drip feeding in stock in line with demand.

- Release your storage space
- Minimise packaging materials kept on site
- Improve cash flow

Just-in-time Supply & Logistics

Centrally based, our Wolverhampton distribution centre has transport links to all major motorways and our fleet makes daily deliveries up and down the UK. You'll receive your packaging on a schedule to suit your needs, be that daily or just-in-time.

- Robust inventory control
- Flexible and agile
- Tailored to you

ISO Accredited Quality

Network Packaging is an ISO 9001:2015 accredited business. All of our systems and processes are consistent, reliable and fit for purpose.

We listen to customer feedback and respond proactively, so you can rest assured you're in safe hands.

Account Management

We offer full-service account management including on site and in-house support to ensure your needs are met throughout the supply chain.

- Personal, face to face visits to your site from your account manager
- In-house contacts, managing product sourcing and order processing
- Continual innovation and process improvement
