IRISBOND

Simple to setup, calibrate and operate, Irisbond Duo is the perfect eye tracker starter solution for the classroom. Designed specifically for entry level users, Irisbond Duo enables users of any level of technical ability to get up and running with eye gaze to play games, learn and participate in classroom activities quickly and easily with minimal setup.

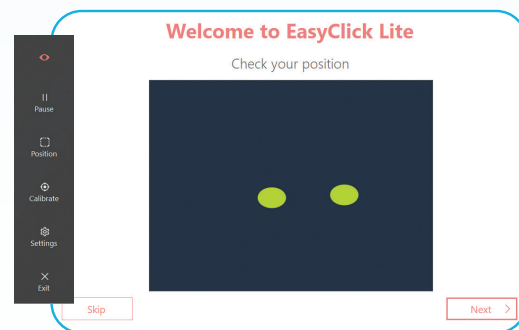

INCLUDES...

Irisbond Duo Eye Tracker

Irisbond Duo is a mobile, lightweight eye tracker that connects to your Windows PC, laptop or tablet to give you eye gaze access. It is compatible with any mouse driven software and offers simple access.

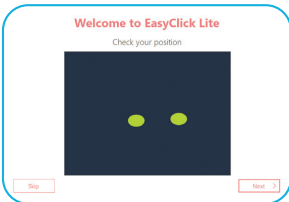

- Robust, easy to use, and intuitive.
- Maximum accuracy and complete control even with head movement.
- Adapts well to most lighting conditions empowering you to go anywhere.
- Can be used on any Windows device with a 10-24" screen.
- Small and portable – easily transported between computers at home or school.

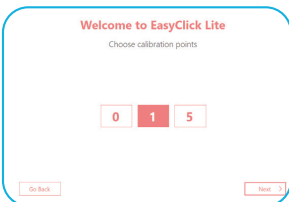

EasyClick Lite Software

This simple to use software includes a friendly setup wizard that guides the user through a simple two step setup process – just position and calibrate – that's it!

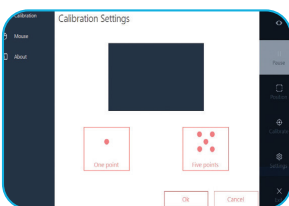

- Minimal configuration available to keep things simple.
- Intuitive positioning guide.
- For use with simple activities and games.
- Features 0, 1 and 5-point calibration.
- Dwell to Click or Blink to Click modes.

Position - use the intuitive guide to quickly gain optimum positioning for eye gaze.

Calibrate - an immediate one point calibration gives great functional accuracy for most users.

Go - Choose the cursor function and dwell settings you want and you are ready to eye gaze!

Designed for simplicity and ease of use, suited for those new to eye gaze and for use with all levels of ability.

It's licensed for an unlimited number of devices and users allowing you to swap connection from a standard desktop PC to a more mobile solution such as a laptop or tablet at any time.

You no longer need specialist support and training to get started. Launch the EasyClick software and follow the two-step setup process to be eye gazing in seconds.

- No screen measuring or training required to use; designed to be intelligent and intuitive.
- A simple 2 step guide to position and calibrate enables you to get set up and start using in seconds.
- 0-point or an easy 1-point calibration gives great functional accuracy for users with limited attention skills.

Who is it for?

Irisbond Duo can be used with many children and adults with conditions such as:

- Physical Difficulties.
- Communication Difficulties.
- Intellectual Disabilities.
- ALS and Multiple Sclerosis.
- Cerebral Palsy and Rett Syndrome.
- Autistic Spectrum Disorder.

What can you do with it?

Everything you can do with a mouse! Irisbond Duo will follow your gaze on the screen and let you move the cursor and issue mouse commands through input methods such as "dwell" and "blink".
