event recap **SAP northern user forum**

26 April 2018
Oulton Hall, Leeds

Events such as the Northern User Forum (NUF) are ideal opportunities for G3G to engage with clients and prospects, and demonstrate how we can help drive their SAP journeys.

The ever-increasing diversity and versatility of cloud platforms can be overwhelming for many users and often present quite complex business decisions. Taking its lead from SAP's recent announcement that their HANA Cloud Platform will be the common foundation for all its cloud-services, the focus of this year's NUF was to help users understand how this consolidation could reduce implementation times and increase productivity on a scalable,

The audience and format
The forum was attended by around 50 SAP customers based in the 'North of England', which at the event ranged from Birmingham to Northumbria. After a short introduction by Richard Martin, the SAP/NUF Chairman and CIO at Arco, attendees were grouped into five tables.

G3G hosted one of those five tables with our Client Directors, Paul Funnell and Ian Rutherford facilitating the sessions. Each table had thirty minutes to tell their tale. Once the thirty minutes were up, the bell rang and the attendees moved to the next table - in a 'speed dating for business' style.

Sometimes it's the strongest among us that need the most help
G3G demonstrated how the innovative use of SAP HANA, Leonardo, Fiori and Business Objects technology had been used to integrate drone footage and GPS data to keep endangered wild-life safe, preserving the world's ecosystem for future generations. Paul and Ian explained our involvement with groupelephant.com and then went on to explain how G3G are helping a strong FTSE100 company build the value case for moving to SAP HANA.

Most of the other companies gave quite simple presentations to their table guests and then just waited for questions but we played the short groupelephant.com video case study, which seemed to be enjoyed by all, and started some lively discussions. The only other table who did anything innovative to interact with the audience was Birchman who did a HANA to Amazon Echo demo using voice recognition, i.e. they would ask Alexa, how many employees do we have and how

A Breath of Fresh Air.

With a long and proven tradition of understanding the specific needs of the asbestos market, 3M has developed a range of solutions to allow users to concentrate on their work, not their equipment. The 3M range of powered air respirators offer users ease of use, comfort and easy decontamination.

Powered Air Respirators
www.3Mscott.com

A Global Partner with a local presence

3M is proud to work with a European network of dedicated partners for the asbestos industry.

SELECT ASBESTOS DISTRIBUTOR

3M partners with a group of partners within the Select Asbestos Distributors to provide direct industry leading equipment and help from industry leading 3M safety equipment, ensuring the safety of all colleagues at all times.

By utilising local knowledge and technical know-how, the Select Asbestos Distributors provide our local users with superior customer experience and ensure the highest level of safety and equipment performance.

Select Asbestos Distributors can also assist in the planning and servicing of 3M products, ensuring minimal downtime and cost.

Please note, only authorised 3Mscott users will have access to our products and services. For more information, contact your local distributor.

The service element is well supported by established levels of 3M local service engineers, ensuring a direct supply of replacement and operational equipment. Local distribution equipment work and critical equipment is made available, and inventory are optimised to help in getting business up.

For more information, contact the Select Asbestos Distributor nearest to you. For your local distributor, visit www.3Mscott.com

Services from our Select Asbestos Distributors include:

- Advice and consultation about products
- Training, Servicing and Calibration of 3M Equipment
- Use of Personal Protective Equipment
- Field of Service
- Equipment Maintenance and Repairs

To find your nearest Select Asbestos Distributor, scan the QR code or visit www.3Mscott.com
