## About Salmon Solutions

**Salmon Solutions are proud to be a leading provider of specialist metal roofing, cladding and single ply services across the UK. Our experience in the industry, combined with our commitment to delivering superior workmanship during every project, allows us to handle roofing installations of all sizes, scales and complexity with complete confidence.**

Formed over 25 years ago by an ambitious father and son duo in Hillingdon, London, Salmon Solutions

has grown to become one of the nation's leading metal and single ply roofing contractors.

It is our dedication to the customer which has allowed us to go from strength to strength; we always deliver a tailored, personable approach to every customer, and we work hard to maintain a healthy, communicative relationship with all clients and suppliers.

At Salmon Solutions, we pride ourselves on achieving quality results, every time.

### Why Choose us?

- Quality workmanship
- Professional service
- High quality materials
- Industry accreditations
- CSCS certified staff & management

### Our Accreditations

## Zinc Roofing & Cladding

For build-up requirements  
please visit our website:

[www.salmonsolutions.co.uk](http://www.salmonsolutions.co.uk)

**Zinc is an exceptionally long lasting, maintenance free roofing material.**

The timeless style and durability of zinc make this a popular, premium material.

### Lifespan

60 - 100 years

### Maintenance

Little to none

### Texture

Comes in several different colours

### Other benefits include:

- Natural resistance to corrosion
- Attractive finish
- Can be shaped easily
- Highly durable

### Materials & Systems used

## Copper Roofing & Cladding

Thanks to its distinctive finish, copper is an attractive and instantly recognisable material. Used effectively on many types of building, copper is a high quality, enduring and sturdy roofing choice.

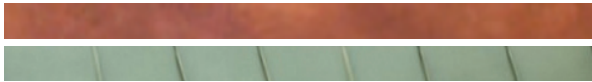

### Lifespan

100+ years

### Maintenance

Low

### Texture

For build-up requirements please visit our website:

[www.salmonsolutions.co.uk](http://www.salmonsolutions.co.uk)

### Other benefits include:

- Distinctive aesthetic
- Flexible
- Lightweight
- Durable
- Long lasting
- Low maintenance
- Corrosion resistant

### Materials & Systems used

## Single Ply Roofing

Single ply membrane roofing is a synthetic, waterproof material suitable for many types and shapes of roof. The material is lightweight and can be installed quickly but is still durable and copes well under a wide range of climatic conditions.

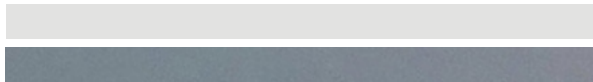

### Lifespan

25 - 40 years

### Maintenance

Little to none

### Texture

For build-up requirements please visit our website:

[www.salmonsolutions.co.uk](http://www.salmonsolutions.co.uk)

### Other benefits include:

- Suitable for roofs of any shape
- Quick installation
- Easily repaired
- Cost effective
- Lightweight
- Flexible
- Durable

### Materials & Systems used

## Sika Sarnafil Roofing

**Sika Sarnafil are the number one suppliers of single ply membrane roofing in the industry. Our partnership as a fully accredited installer allows us to supply and install Sarnafil products.**

Offering both adhered and mechanically fastened roofs, Sarnafil products have the flexibility to meet the needs of any project, whether a new build or a refurbishment.

*With a 25-year insurance-backed product guarantee included, along with Salmon's full Single Ply Roofing Association membership, you can enjoy maximum peace of mind when it comes to our Sarnafil installation services.*

## Renolit Roofing

**Having supplied single ply roofing membranes across Europe for over 40 years, it's no surprise that Renolit have built up a reputation for quality.**

Renolit offer a wide range of flexible synthetic roof systems including solutions especially designed for green roofs and solar modules.

Our Renolit roofing project in North London was awarded the Renolit National Installer of the Year award for a bespoke project involving Renolit Alkorsolar bars, demonstrating the quality of our approach.

*For build-up requirements please visit our website:*

[www.salmonsolutions.co.uk](http://www.salmonsolutions.co.uk)

### Other benefits include:

- Waterproof & fire retardant
- Improved energy efficiency
- Wide variety of systems and options
- High vapour permeability
- Unique laquered top coating, to provide a better resistance to industrial/biological waste and air pollution

### Other benefits include:

- Self-extinguishing roofing systems
- Waterproof
- High vapour permeability and flexibility
- Wide range of styles and colours
- The range includes systems specifically designed for green roofs and solar modules

**WE OFFER 25-YEARS INSURANCE-BACKED GUARANTEE ON ALL SARNAFIL & RENOLIT PRODUCTS**

# Aluminium Roofing & Cladding

For build-up requirements  
please visit our website:

[www.salmonsolutions.co.uk](http://www.salmonsolutions.co.uk)

Aluminium roofs are versatile, long-lasting and sleekly attractive, perfectly suited to a wide range of construction, commercial and domestic roofing projects. Our aluminium roofing and cladding will enhance both the aesthetic and function of your property for years to come.

## Lifespan

20+ years

## Maintenance

Low

## Texture

Comes in several different colours

## Other benefits include:

- Corrosion resistant
- Hard-wearing
- Malleable
- Sleek, smooth aesthetic

## Materials & Systems used

## Lead Roofing

For build-up requirements  
please visit our website:

[www.salmonsolutions.co.uk](http://www.salmonsolutions.co.uk)

Lead is a classic roofing material which has been used for hundreds of years. Its perennial popularity can be attributed to its long life, flexibility and sealant properties.

### Lifespan

60+ years

### Maintenance

Low

### Texture

### Other benefits include:

- Flexible
- Good sealing properties
- Resilient
- Corrosion resistant
- Recyclable

## Stainless Steel Roofing & Cladding

A stainless steel roof is truly a roof that will stand the test of time. A popular and lightweight material, stainless steel roofing is low maintenance and more cost-effective than other materials. With stainless steel cladding to match, your new build or renovated roof will provide reliable protection from the elements at all times.

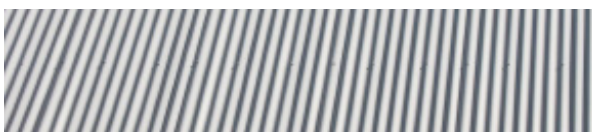

### Lifespan

80 - 100 years

### Maintenance

Low

### Texture

### Other benefits include:

- Lightweight
- Low maintenance
- Long-lasting
- Cost-effective
- Environmentally friendly

# Bespoke Aluminium

## Fascia & Soffits

For the perfect finishing touch to your metal roofline, our aluminium fascia and soffit selection is tailor-made to your requirements. We have a range of colours and finishes to choose from, and our superior workmanship means safe and reliable installation to maximise roof protection in all weathers.

## Rainwater Goods

Channel excess rainwater away from your property with sturdy, high performance and attractive aluminium rainwater goods - including guttering, downpipes and more. Our rainwater goods come bespoke to your needs, and are installed by experienced personnel for complete peace of mind.

## Copings

Aluminium coping systems bring a sleek, modern aesthetic to roofline weather protection. We provide bespoke coping for your roof, tailored to your size and style requirements to provide excellent protection and reliable rainwater runoff.

## Solar Shading

Maintain a comfortable internal environment for your commercial property with bespoke aluminium solar shading systems from Salmon Solutions. Aluminium is the environmentally friendly choice, and our shading systems are designed around your building's demands and installed with precision by fully qualified professionals.
