# Attention to detail

We already have the perfect fabric for Corporate tailoring; the existing Wash & Wear fabric has sold wonderfully, and with virtually no complaints, for the last 5 years.

The choice to continue to use this durable, comfortable, trouble free, brilliant fabric was easy.

We asked a brilliant garment technician to produce jacket patterns for men & women concentrating on fit and ease of movement and to produce trousers that fit but are great to work in.

We used a higher grade of trim (Lining, Buttons, Internal canvas, chest piece and shoulder pads) than would normally be used in corporate clothing. We even made sure we put the internal pockets onto fabric inserts rather than directly onto the lining, because it is better and stronger and we believe it is attention to detail that sets the best apart.

**Fabric:** 64% Polyester, 34% Wool, 2% Lycra Weft stretch  
Wool & Lycra give shape retention and the polyester is durable

**Weight:** 315 Grams per linear metre  
Mid-Weight & Machine washable

**Durable:** 50,000+ on a Martindale test, Grade 4/5 pilling  
Will look good after days and months of wear

**Aftercare:** Machine Washable or Dry Clean  
Convenient & cost effective

**Proven:** 1000's of sales with no complaints  
Peace of mind; you are buying clothing with a great track record from a company with experience

**Fabric meets Oeko-Tex Standard 100**
