

Roscoe, IL – January 6th, 2015

3DP Unlimited™ to Showcase Industrial Strength Large Format 3D Printer at 2015 International CES

Public invited to visit 3DP Unlimited at Sands Expo, Booth 71625

Roscoe, IL — January 6th, 2015 — 3DP Unlimited will bring its industrial strength large format 3D printer, the 3DP1000™, to the 2015 International CES in Las Vegas, Nevada, from January 5th to January 9th, in Sands Expo, Booth 71625. 3DP Unlimited's booth will feature an on-going live demonstration of large format 3D printing, together with a collection of never-before-seen large 3D printed samples.

3DP Unlimited is the manufacturer of the 3DP1000, an industrial strength large format 3D printer. With the 1 meter x 1 meter x 0.5 meter build area, and an affordable price, the 3DP1000 enables engineers, architectural firms, and product development teams to print precise and accurate real parts and prototypes without making a large capital investment.

Special features of the 3DP1000 large format 3D printer include:

- **Big:** The 3DP1000 is a truly large format 3D printer with a gigantic print area of 1 meter x 1 meter x 0.5 meter (39" x 39" x 19"). With a 74x greater build area than the ordinary desktop 3D printer, the 3DP1000 will take your prints from ordinary to extraordinary.
- **Economical:** With base platforms less than \$20,000, the 3DP1000 is lowering the cost barrier for entry into large format 3D printing.
- **Accurate:** The 3DP1000 is tested to consistently produce high quality Fused Filament Fabrication (FFF) output with layer resolutions down to 70 microns.
- **Robust:** The 3DP1000 is enabled by robust, industrial strength mechatronics from PBC Linear®, providing the ability to print large parts, as well as precision grade pieces.

Press Release

Roscoe, IL – January 6th, 2015

“3DP Unlimited is a company that has put mechatronic advances to work in building its robust large format 3D printers,” said Mark Huebner, Market Development Manager of 3DP Unlimited. “With a build area of 1 m x 1 m x 0.5 m, it is critical that 3DP use mechatronic advantages, such as robust linear actuators and controls from PBC Linear, to maintain high performance.”

Designed by engineers and built for engineers, the 3DP1000 is the ideal solution for a wide range of applications in industrial design, rapid prototyping, product development, automotive design, architecture, stage sets, artistic development, and much, much more.

3DP Unlimited invites you to come and see the large format 3D printer, the 3DP1000 in action, at the 2015 International CES in Las Vegas, January 5th – January 9th, Sands Expo Booth 71625.

About 3DP Unlimited

3DP Unlimited™ is a manufacturer of large format, industrial class 3D printers. Based in Roscoe, Illinois, 3DP Unlimited’s world-class engineers utilize their expertise in mechatronics and linear motion to design and construct the highest quality large format 3D printers in the world. More information about 3DP Unlimited is available at www.3dpunlimited.com/media-resources.
