Commercial Bins

1100ltr Recycling bins

We can provide you with 1100ltr bins for your recyclables, these can be emptied on demand or on a schedule that suits your needs, these bins can be used for your commercial recyclables such as Paper, Cardboard and Soft Plastics. The 1100ltr bin is the industry standard for SME's, and with our scheduled or on-demand collections this service is an ideal way to manage your recyclable waste and do your bit to help reduce recyclables going to landfill and will save you money over the cost of landfill bins. Call us today to enquire about our 1100ltr bin service.

Bale Collections

Managing your Baled Material

At Paper Mountain we collect baled material from our customers all over the south coast, material including Cardboard, Plastic Film and Paper, unlike many of our competitors we do not insist you accumulate a large volume before we will collect, our collections can be for as little as 4 bales, we then stock build the volumes at our plant, saving you valuable space on your site.

Visit www.paper-mountain.net for more information.

Confidential Shredding

Secure shredding for you

Paper Mountain have many years experience in Document and Data Destruction and as such can offer a service that is not only highly confidential and secure but at a cost that is industry competitive. With our knowledge and understanding of our client's confidential document destruction concerns we have created and maintained a high security certified destruction service which is second to none.

Our paper shredding services cater for large, small, one off and contract destructions, each of our schedules are tailored to your specific request. Our destruction service meets with MOD approval and is complimented with the following :-

- Collections all over the South Coast and London.
- One of the UK's most secure destruction depots.
- Security checked collection teams.
- Live vehicle tracking.
- Fully registered with the Environment Agency.
- 'Free' supply of document shredding holding sacks & seals.

All shredded paper is baled, pulped and recycled making our service 100% landfill free. Corporate accounts available. Weekly collections all over the UK & London.

The Data Protection Acts of 1984 and 1998 impose duties on businesses to ensure that all information is kept confidential or destroyed securely. All of our services are fully compliant with this act and GDPR.

Compactors & Balers

Recycling Machinery for you

Paper Mountain can not only manage all of your commercial recycling but we are also experts on the supply, installation and maintenance of your compaction machinery.

From Small hand fed balers to fully automatic conveyor fed machines **Paper Mountain** Supply and Install only the very best at a specification that suits your needs .
