

# EXPLOSIVE WASH RESULTS

# HOW THE SYSTEM WORKS

## 200L GUN POWDER DRUM

The centre of the GUN POWDER System is the Blending Tank which quickly mixes 200L of stock solution to be added into all car wash cleaning programs. There is no "License Fee" and we install Free On Loan for the duration of supply.

## ADD POWDER KEG ALKALINE POWDER

POWDER KEG is 100% active powder that is Phosphate Free. One 20kg keg produces 100L of stock alkaline solution. This powder system reduces the overall cost of transportation, takes up less plant room space and reduces overall wash costs.

## GUN POWDER SURFACTANTS, WAXES & PROTECTANTS

GUN POWDER surfactants cover every part of the wash process in a Self Serve, Friction or Touchfree car or truck wash. Their super concentrate, phosphate free formulations provide explosive wash results with all the colours and scents customers will love. All surfactants are packed in our 22L Value Pack; you get 22L for the price of 20L.

All products are Australian Made to achieve the lowest wash cost available.

# PHOSPHATE FREE, BETTER FOR THE ENVIRONMENT

---

The GUN POWDER Car Wash System combines a Phosphate Free alkaline powder with super concentrated surfactants for each step of the wash process.

By utilizing a separate alkaline component and a liquid surfactant, GUN POWDER provides a flexible washing system that is infinitely adjustable to produce incredible wash results. This combined with a show of colours and fresh scents guarantees customer satisfaction and maximises revenue.

All surfactants are packed in our 22L Value Pack; you get 22L for the price of 20L.

## POWDER KEG

ALKALINE BASE POWDER

---

The "detonator" of the GUN POWDER System, POWDER KEG is a complex blend of Phosphate Free alkalis, chelating agents, and powerful cleaning components. Utilising the GUN POWDER Mixing System on site, POWDER KEG dissolves completely and quickly and creates a highly concentrated base solution to combine with the various GUN POWDER Surfactants.

## SHOTGUN

PRESOAK SURFACTANT

---

SHOTGUN Presoak, combined with POWDER KEG, will blast road grime away in a self serve or automatic car wash system. The combination can be tailored for cost and performance. SHOTGUN incorporates the latest surfactants to penetrate, lift and suspend the heaviest dirt, bug splatter and road film. Phosphate Free to protect the environment.

## RIFLE

### FOAM BRUSH SURFACTANT

---

RIFLE is a Super Concentrated Foaming Surfactant for the foam brush application. RIFLE produces a rich, slow diminishing foam blanket that will impress the most fastidious customer. Colour your bay by utilizing RIFLE's Coloured Foam versions. Imparts a fresh citrus fragrance to maximise customer satisfaction.

## REVOLVER

### ENGINE & TYRE SURFACTANT

---

REVOLVER Engine & Tyre Surfactant has unique components to rapidly dissolve brake dust, oils and greases. Combined with a Green, Citrus Scented Foam structure REVOLVER really delivers on cleaning power and customer satisfaction.

## MISSILE

### LOW PH PRESOAK

---

MISSILE is the low pH Presoak step of the favoured Acid/Alkali cleaning process adopted in many Touchfree Wash Systems. MISSILE attacks the acid soluble soils and assists the Alkaline phase to penetrate, lift and suspend tenacious road grime and film. It also provides better clarity on glass.

## BULLET

### HIGH PRESSURE SURFACTANT

---

BULLET High Pressure Soap surfactant is a superior detergent to provide your customers with a highly active foaming solution for rapid soil penetration. Combine with POWDER KEG to optimize the potential fire power of BULLET.

## SNIPER

### CLEARCOAT PROTECTANT

---

SNIPER is a highly concentrated Clear Coat Protectant containing Synthetic Waxes and agents to assist the drying process. SNIPER can be used in Self Serve or automatic car wash systems where the customer will experience a real show of water beading and shine for a streak free finish. This combined with a glorious scent makes your customers keep coming back.

## PISTOL

### GUN CARNAUBA WAX

---

PISTOL is the “gun” of Conditioning Foams with the added protection and durability of Carnauba Wax. Customers will love the colours, smell and gloss produced from the splatter gun. PISTOL lowers the pH of the surface of the vehicle perfectly to ensure maximum performance from SNIPER Clear Coat Protectant.

Made in Australia, by Australians  
for Australian conditions, GUN POWDER  
will save money and help the environment  
with its Phosphate Free technology.

Explosive Wash Results.
