At OpeMed we understand that case managers have an important and delicate role liaising between builders, architects, lawyers and the family themselves. Providing critical help and support for families and friends who rely on specialist equipment to maintain their quality of life means many case managers are often a much needed resource to those in need.

Simplifying your projects, OpeMed are the only manufacturer offering a **complete range of specialist installed transfer and care equipment**. Allowing you to enjoy a straightforward and seamless experience through working alongside one specialist supplier.

In addition, with more than 20 years industry experience, we pride ourselves on our support with design and layout, offering advice on function, problem-free installation and training.

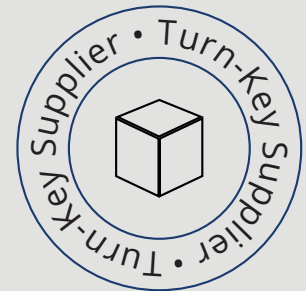

Example of a Case Management Project in Shropshire
