New Tool

REACT Travel is a web-based flight and car booking platform integrated into our registration and accommodation tool.

The entire speaker and delegate management process in one place only.

REACT *Travel*

REACT Travel Advantages for Speakers:

- easy and comfortable all-in-one overview and booking option for registration, abstract, flight, car, and hotel reservations

- set financial reimbursement guidelines for speaker flight bookings and save money for your organisation

- speakers can self-pay any amount over the guideline by credit card

- avoid time-consuming reimbursement procedures for speakers and your organisation

- easily generate reports for meet & greet services

REACT Travel Advantages for Delegates:

- easy and comfortable all-in-one overview and booking option for registration, flight, car, and hotel reservations

- automatically take advantage of negotiated prices with the main airlines according to the event venue

- delegates can check their flight details anytime

- possible money savings with earlier flight bookings
