

About SFIACC

The South Florida Irish American Chamber of Commerce is the premier Irish-American business organization in South Florida. We are an innovative and inclusive organization that is dedicated to fostering the economic and cultural prosperity of its members by encouraging trade between the Irish-American community of the tri-county area of Miami-Dade, Broward and Palm Beach. Additionally, the SFIACC seeks to promote opportunities for reciprocal investment between the South Florida region and the island of Ireland. Our three-chapter chamber comprises a diverse membership base, spanning across a wide array of industry sectors and provides the easiest means to engage with Irish-American business community in our region. We are an independent, nonsectarian and apolitical organization.

What We Do

The fundamental purposes of the SFIACC are twofold – to promote the economic well-being of its members and to strengthen our region's ties with the island of Ireland. We continually strive to be a credible forum for raising matters of mutual interest, business-related or otherwise, to the South Florida Irish-American community and to those who wish to do business with our community. We accomplish this by:

- Hosting regular business networking events
- Organizing guest speaker events and seminars on contemporary topics of business and cultural interest to the Irish-American community
- Raising awareness of economic, cultural, educational and societal developments in the island of Ireland by regular publication of news articles on our website and through other social media.

Longer term initiatives that are currently in development include a mentoring program to foster inter-generational links within our community and the creation of internship programs with colleges and universities in both the Republic of Ireland and Northern Ireland.
