

# Process Safety & Risk Management Consultants

*All levels considered*

## ***The Company:***

Hazard Research & Risk Consultants Ltd (HazRes) is a rapidly growing and technologically advanced process safety and risk management consultancy company. HazRes works closely with international clients in the major industrial and commercial sectors to help them recognize, quantify and manage situations where safety, environmental asset and energy problems are encountered.

## ***The Opportunity:***

HazRes' philosophy is to use radical and novel thinking in providing solutions to business and process problems. We wish to recruit people who not only believe in our philosophy, but strive to be the best in their chosen field.

We are seeking highly motivated, dynamic and influential individuals with a strong background in process safety and risk management to join our UK operations who can further the development and growth of our businesses.

We require dynamic thinkers who can rise to challenges and strive for excellence with engineering and scientific expertise, commercial awareness and technical insight.

You should have a good understanding of the technical, environmental and management issues fundamental to process safety & risk management in industries where flammable, toxic or explosive materials (including dust) are found.

You should be able to build up technical solutions from scientific first principles.

***About You:***

- A good bachelor's degree or higher, in a relevant engineering or scientific discipline.
- Proven experience of working in one or more of our present fields, but specifically Chemical, Defence, Food, Energy, Metals, Minerals, Oil & Gas, Petrochemical, Pharmaceutical as an internal specialist or an external process safety and risk management consultant for at least three (3) years.
- Clean UK driving licence and be able to pass project security clearance, when & if required.
- Working Knowledge of HAC, PHAST, ATEX.
- Ability to conduct HAZID, HAZOP, PHA, SIL, LOPA, QRA design and reviews.
- Unrestricted eligibility to work in the UK.
- Fluent written and spoken English.

***Expectations:***

- You will conduct & manage projects and be responsible for ensuring delivery of high quality technical consultancy services to clients, within time and on budget.
- You will be expected to exploit leads and produce high quality proposals, the majority of which lead to a contract award.
- Later you should be able to identify and win new business opportunities, both domestically and internationally.
- You will advise to the Managing Director relating to new business opportunities and have the ability to be technically innovative.
- You will be able to travel internationally and work on-site when required.

***We offer:***

- Attractive salary based on qualifications and experience
- Pension, Profit & Performance Related Bonus
- Health Care, Life Insurance, Car Scheme
- Benefit levels dependent on grade, qualifications and experience.
