

# Positive Eye

## Facial expression game

### You will need:

1 Lazy Sue from IKEA £5.50

<http://www.ikea.com/gb/en/catalog/products/90074483/>

1 set of facial expression cards (Positive Eye) laminated and cut to shape

1 set of matching word cards

1 buzzer

1 set of recordable pegs (£36.00, TTS Educational Suppliers) with different voice tones recorded on each. <http://www.tts-group.co.uk/shops/tts/products/pd1838921/>

1 dice

## How to play

- Throw a 6 to start, press the buzzer
- Spin the Lazy Sue
- When it stops, look or feel the facial expression that stops in front of the player
- Choose the word label that matches the facial expression
- Child to make the facial expression
- Child to identify the voice tone that matches the emotion being conveyed in the facial expression (using the recordable pegs) Peg over the edge of the Lazy Sue
- Game continues with players throwing a 6 to take a turn, pressing the buzzer, spinning the Lazy Sue until all the cards, pegs and facial expressions are matched
- Winner is the person who matches the most expressions
