CRANE

NEWTON's low weight enables less counterweights, making the crane easier to handle and faster to maneuver.

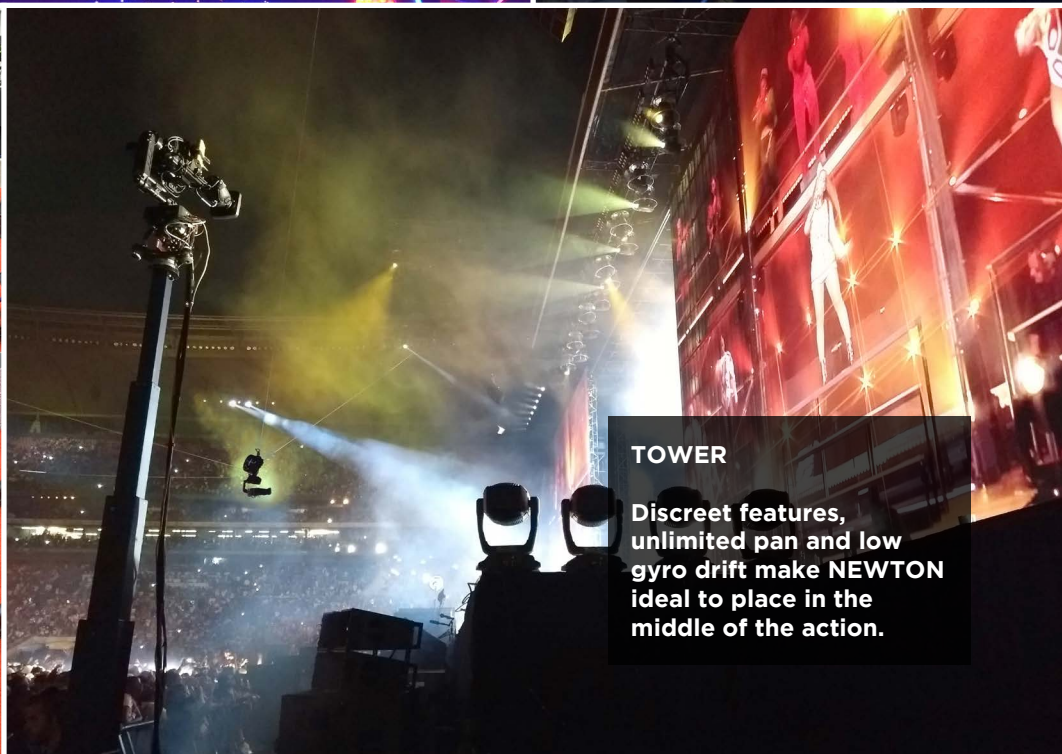

RAIL

Reliable stabilization and compact size have made NEWTON popular on rail systems, moving between performances and audiences.

NEWTON-HEAD.COM

TOWER

Discreet features, unlimited pan and low gyro drift make NEWTON ideal to place in the middle of the action.

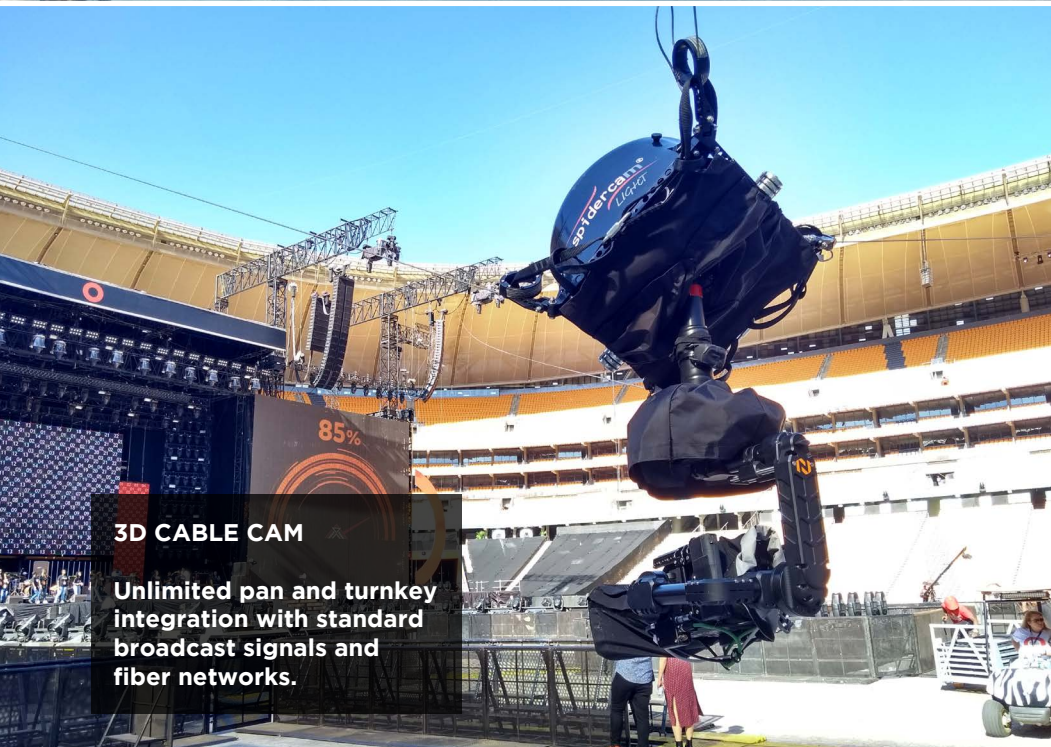

NEWTON

BY INTUITIVE AERIAL

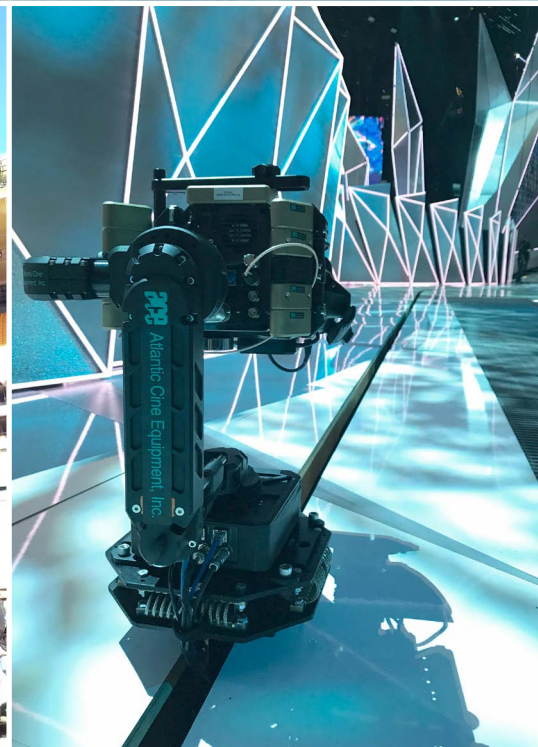

1D CABLE CAM

3-axis stabilization in all angles, weather resistant design and instant integration with external wireless links.

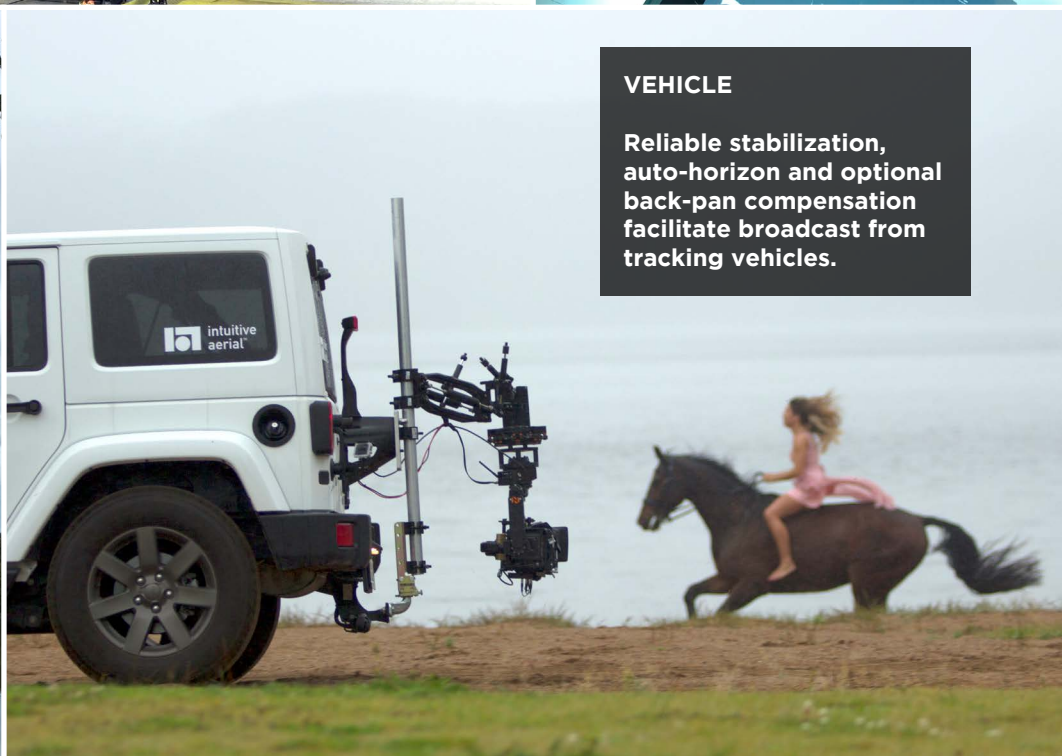

3D CABLE CAM

Unlimited pan and turnkey integration with standard broadcast signals and fiber networks.
