

MEDIA RELEASE

JULY 2012

FOR RECREATIONAL USE ONLY

Liverpool ONE instructed international Interior Design Company Kingston Shaw to redesign their Team Base Area at Europe's largest Outdoor Shopping Mall.

The area was designed as a rest and recreational space for employees who work at Liverpool ONE for use during their breaks.

Chris Bliss, Estate Director of Liverpool ONE said "It was important that the space was both functional and flexible and offered our staff a genuine break during their busy day. Kingston Shaw's design was presented to our staff, who loved it and so it was implemented"

Word searches on the wall, grass inside and tree vinyl's on the wall, made this project extremely enjoyable to design. It is rare that a client lets a designer run with their imagination notes Kate Kingston, MD of Kingston Shaw. However, the best thing about this project is that Liverpool ONE's team has a fabulous new area to rest their weary feet.
