Royal Genware Fine China Tableware

Royal Genware Fine China provides contemporary designs and shapes combined with stunning pure white colour. Products are designed with the tough foodservice environment in mind, with rolled edges on selected lines to improve chip resistance.

Ranges are fully vitrified and conforms to BS4034 for low water absorption, improved hygiene, protection against thermo shock, increased strength and better heat retention with selective products available with a five year edge chip guarantee*.

This range is perfectly suited to banqueting, hotel, restaurant and gastropub use, giving an enhanced dining experience.

*Stunning, durable range, with innovative
shapes and fantastic colour*

- **Pure White Fine China Colour**

Brilliant white colour for an attractive appearance is complimented by a lighter body, making these items both stunningly attractive and finely elegant

- **Conforms to BS4034 Quality Standard**

Royal Genware Fine China conforms to the quality standard measurement set by the British Standards Institute

- **5 Year Edge Chip Warranty**

For quality assurance and peace of mind on selected lines

- **Fully Vitrified**

Low water absorption, protection against bacterial growth and improved heat retention

- **Oven and Freezer Safe**

For protection against damage caused by thermo shock and temperature fluctuation

- **Microwave and Dishwasher Safe**

Perfect for time efficient heating and cleaning requirements

- **Durable Glaze**

The hardness of the glaze lasts longer prolonging the lifeline of the product whilst also improving stain resistance for an enhanced appearance

- **Rolled Edges**

For added chip resistance in busy kitchen environments

16 Fine China Tableware

Classic Plates & Pasta Bowls

Simple and elegant, this range is ideal for the top level service in restaurants, hotels and corporate dining. Classic Plates provide a graceful and traditional service option whereas the Deep Winged Plate and the Pasta Bowls are ideal for a range of alternative cuisine and stacked food presentation.

Royal Genware Porcelain Tableware

Royal Genware Porcelain Tableware offers a great quality range of durable and practical hotelware. The extensive collection covers multiple plate, bowl and beverage lines, with complementary service items to make your place setting complete.

The range is fully vitrified and conforms to BS4034, for low water absorption, improved hygiene, protection against thermo shock, increased strength and better heat retention. They are also microwave, oven, dishwasher and freezer safe.

The products are designed to withstand the tough foodservice environment, with rolled edges and rims on products to improve edge chip resistance, with selective products available with a five year edge chip guarantee*. Royal Genware Porcelain Tableware is suitable for most hotel, restaurant and foodservice applications.

*Comprehensive range of strong, elegant
and durable tableware*

- **Microwave and Dishwasher Safe**

Perfect for time efficient heating and cleaning requirements

- **Conforms to BS4034 Quality Standard**

Royal Genware Porcelain conforms to the quality standard measurement set by the British Standards Institute

- **5 Year Edge Chip Warranty**

For quality assurance and peace of mind on selected lines

- **Durable Glaze**

The hardness of the glaze lasts longer prolonging the lifeline of the product whilst also improving stain resistance for an enhanced appearance

- **Fully Vitrified**

Low water absorption, protection against bacterial growth and improved heat retention

- **Oven and Freezer Safe**

For protection against damage caused by thermo shock and temperature fluctuation

- **Rolled Edges**

For added chip resistance in busy kitchen environments

Classic Plates

Versatile and complete collection of plates with rolled rims for edge chip resistance.

"The Ellipse collection, with its soft round corners and smooth lines, is based on an organic trend I developed whilst visiting Scandinavia and suggests a contemporary, tranquil dining style."

Yvonne van Oordorp-de Wit

All items are priced individually and sold in packs

Miniatures

The Miniature Porcelain range is a great new concept for food presentation enhancement. Miniatures work great alongside various materials from classic porcelain to rustic slate.

From sauces to tapas style cuisine, these small additions can make a big impact on presentation.

Oven-to-Tableware

Royal Genware Oven-to-Tableware perfectly complements our range of Porcelain Tableware. Oven, microwave, freezer and dishwasher safe, fully vitrified to BS4034, these ranges perform in all catering applications, adding to the foodservice presentation.

Individual service items, like Mini-Casserole Dishes and Contemporary Smooth Ramekins give a new twist to food presentation.

Hot counter service presentation can be improved with our range of roasters and gastronorm dishes, maximising fully hot counter space and minimising heat loss and cost.

A stylish, practical and durable range of food presentation and counter service products

- **Conforms to BS4034 Quality Standard**
Royal Genware Oven-to-Tableware conforms to the quality standard measurement set by the British Standards Institute

- **Rolled Edges**
For added strength, durability and chip resistance in busy kitchen environments

- **Durable Glaze**
The hardness of the glaze lasts longer prolonging the lifeline of the product whilst also improving stain resistance for an enhanced appearance

- **Fully Vitrified**
Low water absorption, protection against bacterial growth and improved heat retention

- **Microwave and Dishwasher Safe**
Perfect for time efficient heating and cleaning requirements

- **Oven and Freezer Safe**
The Oven-to-Tableware range benefits from a high level of thermo shock resistance

- **Heat Retention**
The Oven-to-Tableware products benefit from superior heat retention properties

RG Tableware

RG Tableware is an entry level range of fully vitrified porcelain, providing a good balance of price and performance. The range consists of a selection of the key tableware pieces suitable for use in a wide choice of establishments.

Products are fully vitrified and conform to BS4034 for resistance to water absorption, and is fully microwave, oven, freezer and dishwasher safe. Features such as rolled edges give this range durability in use, and offers excellent value for money.

Entry level tableware, perfect for the cost-conscious operator

- **Conforms to BS4034 Quality Standard**
RG Tableware conforms to the quality standard measurement set by the British Standards Institute

- **Fully Vitrified**
Low water absorption, protection against bacterial growth and improved heat retention

- **Oven and Freezer Safe**
For protection against damage caused by thermo shock and temperature fluctuation

- **Rolled Edges**
For added chip resistance in busy kitchen environments

- **Microwave and Dishwasher Safe**
Perfect for time efficient heating and cleaning requirements

Glassware

Genware Glassware is an exciting, concise and durable range of quality glassware, designed to fulfil the key needs of the foodservice industry. Stemware, Tumblers, Beer glasses, Shots & Cocktail glasses, Hot Beverage and Dessert glassware are included, covering a large number of applications and establishment needs.

We offer a rim and foot chip guarantee on all stemware. In order to prolong the life and quality of your glassware in use, we recommend following our product care and guidance information at www.genware.co.uk

New for this brochure, our range of Resital Wine Glasses evokes a stylish, retro feel whilst our new Tiki Glass offers a fun means to present tropical cocktails.

*A concise range of elegant,
durable glassware*

- **Extended Upper Rim Thickness**

Providing improved strength and durability of the glass, lengthening its lifespan

- **Perfectly polished**

From bowl to stem, the transition is perfect

- **Rim and Foot Chip Guarantee**

Available on all Gusto Stemware, this guarantee offers assurances of quality and peace of mind

- **Dishwasher safe**

Perfect for time efficient cleaning of glasses in busy restaurants and bars

- **Sophisticated Crystalline Material**

All Gusto Glassware is made from Crystalline material especially developed for the Food Service Industry

Craft Beer Glasses

Craft Beer has become increasingly popular and requires a different glass, each with its own unique attributes, to help unfold the flavours and aromas found within the many different types of beer, stouts and ales that form this category.

Tulip Stemmed Beer Glass

- Popular tulip shape
- Subtle aromas are preserved in the bowl of the glass
- Open mouth allows intense flavours to be released
- Ideal for Belgian style Abbey Ales, Pilsners and Powerful Stouts

Code	Size (H x Ø)	Pack	£ each	€ each
ANG587	57cl/20oz 180 x 74mm	6	1.82	2.18

Drinkware

The Genware range of Drinkware covers a selection of stylish and innovative vessels, mugs, pots, cones and cups that work perfectly as alternatives to traditional glassware for the presentation of cocktails and cold beverages.

Copper and Stainless Steel Martini Glasses are perfect modern substitutes to the classic martini when serving stylish cocktails. Whilst our designs of Copper Mug provide a seriously cool way to serve popular cocktails such as a Moscow Mule or a Paloma.

New for this brochure, we have added a range of Mugs in our new Gun Metal Black design, perfect for serving modern cocktails such as a Bramble or a Mint Julep. Elsewhere, our new Stainless Steel Beer Tankard evokes a retro cool look and is perfect for serving on-trend beer based cocktails.

*A contemporary collection
of stylish drinkware*

“Genware have been working with ourselves and other top industry bar consultants to craft and create a superior and stylish barware collection that balances quality and value.”

Tom Soden

Professional Mixologist and
Consultant Director, Sweet Chilli

Table Presentation

The Genware range of innovative Table Presentation items are perfect for modern casual dining establishments and serves to showcase how foodservice has developed beyond purely standard plates and service lines. Wooden platters and boards offer a natural, rustic and stylish look, fully tested to British standards for food safety, and work well in combination with other items, such as Cast Iron dishes.

Our miniature range of baskets, buckets, roasters and saucepans offer a fun and easy way to spice up food presentation and can provide new menus and dishes with the 'wow' factor. Slate products provide a stylish and contemporary alternative to traditional food service presentation and feature rubber feet to prevent scratching.

New for this brochure, we have added a number of products perfectly suited to the increasingly popular casual dining sector. Among these are our Oak Wood board, sharing platters, Copper cups and cones as well as Coloured Stainless Steel Ramekins, perfect for adding colour and vibrancy to the table setting.

Innovative, design-led ideas that can transform food

Genware Cutlery

Genware Cutlery offers an ideal combination of performance, style and value. We have seven unique premium patterns, exclusive to the Genware Cutlery range, designed to encapsulate innovation and functionality. These patterns (all of which are 18/0 stainless steel and highly polished) provide an eclectic mix of styles; from elegant sophistication through to strong and robust handling.

In addition, Genware Parish Cutlery is hand polished offering excellent resistance to staining and pitting, while our Millennium Cutlery provides good cutting blades for volume users.

*Versatile Cutlery designs with functionality,
quality and value that's durable*

Old English

Neil Jeffrey

Genware Designer

Formerly a senior designer at Royal Worcester, where among other notable projects he designed the shapes for the Jamie Oliver range, Neil established his design and development consultancy in 2008. Since then he has worked on developing a number of key ranges for Genware.

"The Old English pattern is aesthetically representative of a traditional English cutlery style, yet boasts a contemporary feel."

Neil Jeffrey

Genware Old English Cutlery

- Superb highly polished 18/0 stainless steel
- Well serrated knives
- Designed by Neil Jeffrey MA

Menus, Signs & Displays

Genware have a wide range of menus, signs and displays available, all of which are perfect for highlighting awareness of promotions, daily specials or events.

Our menus are available in a selection of attractive designs and range from contemporary through to classic. We also have a collection of Wooden Menu Clipboards, perfect for a contemporary casual dining setting.

Wall chalk boards are a great way to communicate messages to customers and are available in an array of sizes to suit a wide scope of requirements, whilst our pavement chalk boards are a great way to drive traffic into establishments.

New for this brochure, we have introduced a new range of White Wash Wooden Clipboard Menus, ideal for contemporary casual dining venues. Among the many other new items available in this brochure, we have added a new range of Self Adhesive Chalkboard Labels as well as a cool Mini Sandwich Board, ideal for counter display.

A variety of innovative and functional products for effective customer communication

Rio Menu

The bold and bright eco friendly Rio menu collection are made from thick grooved eco PP plastic combined with a large brushed stainless steel pressed "Menu" sign. Rio Menu holders are UV, scratch and stain resistant as well as flexible and easy to clean.

- Each menu holder has an inner elastic cord allowing inserts to be easily added or removed. See page 206 for Menu Inserts.
- Each Rio menu includes 1 double-sided insert that displays and protects 4 A4 pages.

Beverage

Genware Beverage items are designed to cover a wide range of applications. Unbreakable vacuum pots and jugs provide excellent heat retention, making them ideal for conferencing, meetings and corporate events.

Insulated jugs in white and black offer stylish beverage service that complements ceramic tableware. Cafetières are available in all sizes, with tough pyrex glass and good quality materials make these perfect for service of coffee and speciality teas.

New for this brochure, we have added a new collection of Coloured Milk Jugs, ideal for the modern Barista looking to add the 'wow' factor when creating their latte art.

*Practical solutions to serve fresh,
hot beverages*

Barware

The Genware professional Barware collection has been developed through consultation with London's finest bar specialists and Mixologists with a vision to create a leading range of professional barware for the modern age.

Through a measured design process and the expertise of renowned bar specialists, the Genware Barware collection brings together a concise range of essential kit which perfectly combines stunning appearance, practical craftsmanship and competitive pricing.

Crafted with the discerning Mixologist in mind, we have introduced a new range of Shakers, Mixing Spoons, Jiggers, Muddlers and Strainers, which have been tried and tested by London's top Mixologists.

New for this brochure, we have added a new barware range to our collection, Gun Metal Black, for a seriously cool way to create and serve cocktails. Elsewhere we have added to our existing categories of Strainers, Bar Spoons and Mixing Glasses.

Stylish and contemporary barware range developed alongside the bar industry's top consultants and mixologists.

“The new Genware Barware range is a solid kind of kit for a serious Bartender. The products look amazing and have a great feel to them with a good balanced weight. They just feel expensive and classic in their design - they represent great value for money against rival products.”

James Fowler

World Class UK Bartender
of the Year 2014

Trays

Genware trays offer a comprehensive range of styles to suit all establishments, uses and budgets.

Fast food trays, made from polypropylene offer a bright, value option with a skid resistant surface.

Wood laminate trays give a great blend of rigidity and lightness.

Grip trays come in either an economy polypropylene version, with excellent non-slip surface for secure glass and plate transportation, even when wet, or the stronger fibreglass grip trays, which have the added advantage of being dishwasher safe.

Luna Black Trays reflect a modern, stylish design whilst maintaining properties typical of traditional foodservice trays and are perfect for use across a variety of establishments. Acacia wood Butler Trays will add sophistication to your serveware, combining functionality with style.

*Versatile ranges of trays for safe, practical
and efficient food and drink service*

Chef Knives

The Genware professional chef knife collection consists of a wide choice of knives and accessories available through both Genware and the German Knife manufacturer, Giesser.

Genware black-handled and colour coded range of professional chef knives offer a full tang blade, with razor sharp molybdenum steel blade, which conforms to BS8442-5, giving initial sharpness and cutting edge retention. Larger knives have softgrip handles which give comfortable and positive handling.

Knife sets offer a pre-selected range of knives, ideal for chef colleges, students and professional chefs. Knife cases are designed to carry knives and knife sets safely, offering protection from damage and injury.

Our Knife Sharpener is a great alternative to a traditional sharpening steel and features a two stage process designed to rejuvenate blunt knives with a razor sharp blade.

Giesser knives, designed and manufactured in Germany, provide an industry leading combination of initial sharpness, cutting edge retention and value for money.

A comprehensive range of professional chef knives for all needs and budgets

Genware black-handled and colour coded range of professional chef knives offer a full tang blade, with razor sharp molybdenum steel blade, which conforms to BS8442-5, giving initial sharpness and cutting edge retention.

Giesser Knives, manufactured in southern Germany, are developed to the highest standards and utilise the very best materials. They are constructed through the combined use of modern industrial automation alongside traditional hand craft skill. Giesser Knives are well known in Germany for their strength, retention of sharpness and reliability.

Professional Chef

An excellent knife featuring an ergonomic rubber thermoplastic handle ideal for professionals and students alike.

Quality steel vacuum heated for optimum strength and machine and hand sharpened for premium performance

The sign of quality craftsmanship

Handle offers excellent slip resistance

Razor sharp blade with great longevity for retaining sharp cutting edge

Protective hand guard prevents the hand from slipping when holding the knife

BestCut X55

The ultimate premium quality forged knife for the modern chef.

The blade is forged from a single piece of steel with a particularly high carbon content to ensure exceptionally long durability of the cutting edge and extraordinary sharpness

The sign of quality craftsmanship

Stainless steel rivets to keep handle attached perfectly for the life of the knife and to protect against rust and shrinking

Smooth finish with exceptional sharpness achieved through the hand of a master craftsman

Ergonomically designed handle with soft edges to enable perfect grip and precise guidance

Glass Rack Sizing Guide

Instructions

- 1) Place glass upside down on top of the middle circle of the sizing guide, centre of the glass (or the stem on stemware) should be over the centre of the guide.
- 2) Look down on the base of the glass.
- 3) Note the smallest square on the guide where the largest outside diameter of your glass lines up completely within the square without touching it - this is the number of compartments your rack needs to have.
- 4) Place the lip of glass against the base line of the vertical guide on the left hand side of the page with the base/foot of the glass pointing straight up towards the top of the page.
- 5) While holding the glass against the vertical guide, note where the base/foot of the glass lines up on the vertical guide - the next line above the base/foot on the guide indicates the number of extenders your rack will require.

Storage & Gastronorm

Genware offers a comprehensive range of Gastronorm pans, in stainless steel, polycarbonate and polypropylene. The stainless steel range conforms to EN631 European standard, with a hard wearing electropolish finish.

The range also comes in a complete and extensive choice of size and depth, with the relevant size and depth etched on each piece for easy identification. Also within this range are sealing lids for transportation.

Polycarbonate ranges are ideal for salad bar presentation, and come in extensive depths and sizes. Polypropylene gastronorm containers offer excellent performance and value, and are particularly suitable for food storage use.

*The complete and comprehensive range
of Gastronorm pans*

Thermo Boxes

These unique and ultra-lightweight containers are ideal in a range of uses when transporting food to maintain temperature, whether high or low.

- Staying hot, cold and stable for longer with less than 1°C temperature loss per hour
- Rounded corners for safe transport
- Ultra-light
- Impact and scratch proof surface
- Dishwasher safe to 80°C
- Ideal for supporting cold chains to HACCP standards

All items are priced and sold individually

Racking & Trolleys

Sturdy chrome plated racking provides a flexible solution to racking in kitchens, dry stores and many other environments.

Racking comes in a range of widths, which enable you to maximise storage space, and is simple enough for one person assembly.

Excellent stainless steel trolleys are available in two or three tier versions, and come either flat packed for economy and ease of assembly or fully welded and pre-assembled for simplicity.

*Easy flexible storage and secure,
durable trolleys*

Racking & Trolleys

Wire Shelf

- Supplied complete with bracket and wall mounting kit

Genware products are manufactured to provide the robustness and durability required for maximum performance in the hospitality and foodservice industry.

We want you to be confident in your purchase and gain the maximum life and value from your Genware products, so we have compiled the following guidelines to assist you. However, should you have any further questions, please contact your Genware distributor directly.

We recommend for all of our products that are intended to come into contact with foodstuffs to remove any labels or packaging and to wash, rinse and dry before first use.

Ceramics

Dishwashing

To avoid this unnecessary damage and to preserve the appearance of your products, we recommend the following as a guide for washing our ceramic items.

We recommend following the manufacturer's guidelines for wash temperature, rinse cycle and detergent dosage. Assess water hardness and make sure water softeners are used if required. Wash before using for the first time and ensure items are washed promptly after each use.

Use plastic or rubber scrapers to remove excess food residue before washing, as metal utensils or abrasives may damage the glazed surface.

Never wash cutlery or other metal items amongst ceramic products; these should be washed separately in our specially designed cutlery baskets.

Storage

Wherever possible, use the appropriate racks for storage.

Make sure that handles/spouts do not knock together when stored as this can cause wear and damage to the products glaze.

Contact with metal surfaces and other metal products should be kept to a minimum to reduce metal marking and abrasion with metal counter tops. This can be reduced by using plastic or rubber mats to line metal surfaces.

Guidance

Genware ceramics are Oven, Microwave, Freezer and Dishwasher safe and we offer edge chip warranty on selected lines.

In order to ensure the life of your products, we recommend adequate stock to ensure correct rotation and careful handling will extend the life of your products when in service and provide greater value over the life of your Genware ceramics.

In order to reduce the possibility of thermal shock which can cause damage to your products, we recommend you do not subject the product to sudden extreme changes in temperature such as direct from a freezer to a hot oven or grill.

Our matt glazed and coloured products will tend to show wear and tear to a greater degree than standard glazed white items.

If you are uncertain which products will give you maximum performance, we recommend asking the advice of your Genware distributor.

Glassware

Dishwashing

Our range of glassware is designed to be washed in commercial glasswashers, except our Double Walled glasses, which should be hand washed only. To ensure the on-going quality of the product we recommend the following.

All new glasses should be washed before first use. Glassware should not be washed at temperatures above 60°C as this can cause debris to be baked onto the glasses during the washing process. Glasses that are found to have been cracked or chipped in use should be disposed of and not placed into the dishwasher. Non-caustic detergents should be used as caustic detergents can damage and dull the surface of the glass.

Storage

To avoid damage to glassware when not in use, we recommend storing glassware in correctly sized compartment glass racks (see p347-348 for our range and p349 for sizing guide).

Do not stack glassware that is not recommended as stackable.

Do not store or place cutlery in glasses as this can damage and mark the surface of the glass.

Guidance

To prolong the life of hot drinks glasses we recommend pre-heating the glasses by running them under a hot tap.

Do not put cold liquids straight into glassware that may be hot or warm as this can cause cracks.

Melamine

Melamine is a robust, highly scratch, chip and break resistant plastic that if cared for correctly can provide a great value alternative to ceramics.

Use plastic or rubber scrapers to remove excess food residue before washing, as metal utensils or abrasives may damage or scratch the products surface.

Do not use abrasive detergents or bleaches when washing, as this may stain or damage the products surface.

Melamine products are dishwasher safe but are not suitable for use in ovens or microwaves and are designed to be used in temperatures from -20 to +70°C.

Suitable for use in chafing dishes and bain maries within the above temperature guidelines.

Acacia Wood

Acacia is a durable hard wood from fast growing trees.

It's beautiful grain and varied colour gives products a warm rich colour. Correct care of wood products can massively increase their longevity in use.

Acacia wood is not suitable for dishwashing and should be washed in warm soapy water only.

It should not be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

It should also not be left in direct sunlight and be stored in a cool dry place.

Acacia can dry out with use, so occasional application of vegetable oil or food safe wood treatment oil will help to keep the original natural appearance and prolong the life of the product.

Acacia wood is a natural material and its colour and grain will vary from product to product.

Over a reasonable period of time, depending on the level of usage, you should expect the products surface to show a level of wear and tear due to the nature of wood.

Olive Wood

Olive wood is known for its versatility, strength and striking appearance with each piece being carved from a single piece of wood. Correct care of wood products can massively increase their longevity in use.

Olive wood is not suitable for dishwashing and should only be washed by hand in warm soapy water.

It should never be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

Do not leave olive wood in direct sunlight and store in a cool dry place.

Olive Wood (cont)

Olive wood can dry out with use, so frequently apply olive oil ideally after every wash to help nourish the wood and bring back the beauty of the grain. This will help keep the wood's original natural appearance and prolong the life of the product.

Olive wood is a natural product and by its nature the size, shape and finish will vary from piece to piece, this is also however part of its charm.

Over a reasonable period of time, depending upon the level of usage, you should expect the products surface to show a level of wear and tear due to the nature of wood.

Slate

Slate is not suitable for dishwashing and should be washed in warm soapy water only.

It should not be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

Cutting directly on slate with sharp or serrated knives will mark the surface of the product.

Maximum temperature to be placed on a slate product is 70°C

Enamelware

To prolong the life of enamelware we recommend the following:

- Wash before first use
- Before use, use a light coating of cooking oil to protect the enamelware from staining and makes the washing easier
- After use, soaking the product in warm or hot water and gently wash with a liquid detergent

- Do not use abrasive cleaning pads or gritty soap powders, as this may lead to chips
- Do not place empty enamelware or allow to boil dry on a hotplate or gas hob.

Copper Plating

Copper plating is as delicate as it is beautiful and should be handled with great care. Below are a few tips on how to care for your copper plated items.

Product Care Instructions

- Hand wash the product with warm water only, after every use
- Ensure to completely dry the product with a soft cloth after each wash
- When the product is displaying signs of tarnish, rub with a metal polish compound and soft cloth

Do Nots

- Do not use the product over direct heat/flame
- Do not scrub the copper surface with an abrasive sponge
- Do not use industrial detergent on the copper plated surface
- Do not leave the product wet as permanent water marks may stain the surface
- Not for use in a microwave or dishwasher

Please be aware copper will naturally oxidise over a period of time

Gun Metal Black

Below are a few tips to help prolong the life of your Gun Metal Black Barware.

Product Care Instructions

- Hand wash the product with warm water only, after every use
- Ensure to completely dry the product with a soft cloth after each wash.
- When the product is displaying signs of tarnish, rub with a metal polish compound and soft cloth

Do Nots

- Do not use the product over direct heat/flame
- Do not scrub the Gun Metal surface with an abrasive sponge
- Do not use industrial detergent on the Gun Metal surface
- Do not leave the product wet as permanent water marks may stain the surface
- Not for use in a microwave

Galvanised Steel

Galvanised steel provides a fantastic rustic alternative to stainless steel but it does not possess its rust resistant properties and requires correct and careful usage to get the most of the products.

Galvanised steel should not come into contact with foodstuffs and should always be protected with one of our greaseproof paper liners, particularly when serving food cooked in hot oil as this will cause additional damage to the products.

We recommend hand washing in warm soapy water, as this material is not dishwasher safe. This will reduce the chance of corrosion and staining.

Stainless Steel

Throughout the Genware brochure you will find a wide range of products manufactured from stainless steel. Cared for correctly, stainless steel is a fantastic metal that can provide years of regular service and offers excellent value.

All of the stainless steel products within the Genware range are of the highest standard and should be free from any impurities that could be of detriment to its performance.

Stainless steel is often described as 'rustless' or 'rust resistant' which whilst having an element of truth, will only be the case if it is cared for correctly, including the use of our Peek Polish products.

All of our stainless steel products are dishwasher safe, unless otherwise identified, and should not be left to soak prior to washing.

Overleaf are some of the key Genware ranges which are manufactured from high quality stainless steel and additional guidance specific to these products.

Stainless Steel Cutlery

In order to provide the greatest possible value at each and every price level within the Genware cutlery ranges, we put a great focus on the quality of the 'out of the box' polishing levels, as this is key to allow the user to maintain a high quality finish, free from marking, staining and corrosion.

We recommend following the manufacturer's guidelines for wash temperature, rinse cycle and detergent dosage. Assess water hardness and make sure water softeners are used if required. Wash before using for the first time and ensure items are washed promptly after each use.

Our stainless steel cutlery is dishwasher safe and should not be left to soak prior to dishwashing.

Stainless Steel Cutlery (cont)

We recommend that immediately, or as soon as possible after use, cutlery should be washed to remove excess foodstuffs as they contain salts, acids and fats which may cause corrosion.

Cutlery should not be cleaned with abrasive cleaning articles or detergents as this may scratch, damage or stain the surface of the product.

Cutlery should be washed in specially made cutlery baskets, which should not be over-filled so as not to impede the flow of water and reduce the effectiveness of the cleaning process.

Once cleaned, the product should be dried immediately or removed from the dishwasher to avoid prolonged contact with water or moisture which can cause corrosion or rusting.

Stainless Steel Cookware

Stainless steel cookware is fast becoming the material of choice for hotels and restaurants because it is relatively easy to keep clean and hygienic. It is more durable than aluminium and, as with all of our stainless steel products is dishwasher safe.

Stainless steel cookware is suitable for use on all heat sources including induction.

Once the product has been used, we recommend the removal of any accidentally burnt on foodstuffs and also washing the product immediately to reduce the risk of corrosion.

When using cookware, always keep any flame or heat source to the base of the pan. Never allow flames to reach the side of the pan, as overheating can cause discolouration.

The use of metal utensils may scratch or damage the surface of the products. Ensure that all items are dry and clean before storing, to ensure a long life for your product.

Vacuum Beverage Servers

Stainless steel vacuum beverage servers are a great way to keep beverages at their optimum temperature, for up to 20 hours if cared for correctly.

Vacuum beverage servers are not dishwasher safe. Dishwashing may cause the product to lose its vacuum properties.

Hand washing in warm soapy water with mild detergents is recommended.

Spare lids are available for a number of products in this range and can be used to prolong the life of the product for many years.

Aluminium

Throughout the Genware brochure, you will find a wide range of products manufactured from aluminium.

Aluminium is a softer metal than stainless steel and requires a greater level of care, both in use and during washing.

All of the aluminium products in the Genware range are of the highest quality and should be free from any impurities that could be of detriment to its performance.

Aluminium is a fantastic conductor of heat and is used within the majority of our cookware ranges (including a layer within the base of our stainless range), as it is by far the best material to provide even heat distribution.

All products manufactured from aluminium are not dishwasher safe. Dishwashing will cause the product to become discoloured due to the caustic nature of detergents.

Below are some of the key Genware ranges which are manufactured from aluminium and additional guidance specific to those products.

Aluminium Cookware & Bakeware

Aluminium cookware and bakeware has been the preferred choice of many chefs for decades, due to its fantastic heat distribution properties. Correct care for your aluminium cookware and bakeware is vital to ensure its long life and maintain outstanding value.

Stainless steel cookware is suitable for use on all heat sources excluding induction.

Once the product has been used, we recommend the removal of any accidentally burnt on foodstuffs, and washing the product immediately to reduce the risk of corrosion.

When using cookware, always keep any flame or heat source to the base of the pan. Never allow flames to reach the side of the pan, as overheating can cause discolouration which cannot be removed.

The use of cooking oil is recommended to prevent food from sticking to the pan. Acidic foodstuffs may mark the product if it is left in the pan for any length of time.

Aluminium cookware should not be subject to massive changes in temperature, such as plunging a hot pan into cold water, as this may cause distortion.

The use of metal utensils may scratch or damage the surface of the products.

Ensure that all items are dry and clean before storing to ensure a long life for your product.

Non-Stick Aluminium Cookware

Non-stick aluminium cookware should be cared for in the same way as aluminium cookware and bakeware, with following additional precautions.

In order to maintain the non-stick coating, the metal or abrasive articles should not be used in, or to clean the product.

We recommend the use of heat resistant plastic utensils.

The product is oven safe up to 230°C – over heating the product may cause damage to the non-stick surface.

Cast Iron

Care & Use:

- Wash thoroughly before first use.
- Hand wash your cast iron products in hot water immediately after use using hot soapy water and brush.
- Do not use detergents, scouring pads or abrasive cleaners.
- Do not submerge cast iron products in water as this can damage the seasoning of the product.
- Cast iron will rust if it isn't dried immediately after washing. After drying, lightly coat the inside of the pan/product surface with cooking oil and heat for a minute over low heat. This will help to restore any seasoning that may have been lost during washing.
- Do not put an empty pan on a hot hob or allow pans to boil dry.
- Do not pour cold water into a hot pan or put it in cold water as it could cause the pan to warp or crack.
- Always use an oven glove or cloth when handling hot pans.
- Do not use in microwave, oven or dishwasher.

Complete re-seasoning of your cast iron:

- Re-season the pan by greasing the inside on the pan with plenty of vegetable oil. Next place the pan in the oven at 175°C - 200°C for 15-30 minutes or until the oil has dried up. When the pan has cooled down, wipe away any remaining oil with a paper towel.

Cast Iron (cont)

If your cast iron pan has become rusty:

- Remove the rust using a wire wool or wire brush.
- Rinse out and dry thoroughly and completely re-season the pan as above.

If the food becomes burnt or black during cooking:

- Fill the pan with water and heat until boils.
- Once the water has boiled, drain off and dry thoroughly.
- Follow the complete re-seasoning process as above.

Black Iron Cookware

Black iron cookware is suitable for use on all heat sources including induction.

Black iron products are supplied with a coating of protective lacquer that should be removed by washing in hot soapy water prior to use.

The products should then be seasoned before use; this is best done by gently heating about 1cm of oil in the base of the pan. After heating the oil, allow it to cool before disposing of the oil, wipe the pan with kitchen paper.

This seasoning starts the beginning of a naturally forming 'patina' on the surface. The patina will develop with regular use and the surface of the pan develops a natural non-stick layer.

After cooking with black iron, the pan should only be carefully wiped out with kitchen paper.

Always store the pan in a dry place to avoid the pan rusting. If light rust spots do occur, they can be carefully removed with a scourer. The seasoning process should then be repeated before further use.

Black iron products are not dishwasher safe.

Professional Non-Stick Bakeware

Professional non-stick bakeware should be cared for in the same way as our aluminium cookware and bakeware listed earlier in this section, with following additional precautions.

In order to maintain the non-stick coating, metal or abrasive articles should not be used in, or to clean the product.

We recommend the use of heat resistant plastic utensils.

The product is oven safe to 240°C/ 475°F/ Gas mark 9. Over heating the product may cause damage to the non-stick surface.

Professional non-stick bakeware is fridge, freezer and dishwasher safe.

Polycarbonate (PC) - Plastic

Polycarbonate is a robust, durable and rigid plastic, which is often transparent in appearance.

It is suitable for dishwashing and has a safe temperature range from -40 to +100°C approx.

It is not oven safe, not microwave safe and should not be placed into a Bain Marie.

Polypropylene (PP) - Plastic

Polypropylene is a flexible plastic which can provide a great value alternative to polycarbonate and is often marked out by its translucent appearance.

It can be combined with other materials, such as rubber in our non-slip trays. For dishwasher safety and temperature range, please look for the relevant symbol next to the product you are purchasing within our brochure.

Our range of polypropylene gastronorm pans are dishwasher, freezer and microwave safe.

Polyethylene (Low & High Density, PE) - Plastic

Polyethylene is used to produce our high and low density chopping boards. High density PE is tougher than low density and will keep a better, usable surface for longer, as it is more resistant to cutting. PE is not dishwasher safe as this may cause the product to warp. It has a safe temperature range from -40 to +95°C approx.

SAN - Plastic

SAN is a tough but brittle plastic that can be made transparent or takes colour well, and can be produced with high gloss finish.

SAN is dishwasher safe up to 71°C approx. and is also microwave safe.

It has a safe temperature range from 0 to 71°C approx.

Acrylic - Plastic

Primarily used in our salt and pepper mills, due to its fantastic clear appearance.

Acrylic is not dishwasher safe and should not be subjected to temperatures above 50°C.

Laminated Wood Trays

Our laminated wood trays are robust and lightweight.

The product should not be dishwasher and should be wiped down and cleaned with a damp cloth after use.

Fibreglass Trays

Unlike all of the other wood and plastic trays in our range, fibreglass trays are dishwasher safe.

We recommend they are stacked flat after dishwashing to preserve the shape of the product.

It has a safe temperature range from -50 to +140°C approx.

Chef Clothing

All of our chef clothing items and garments are supplied with a label detailing the washing instructions. We recommend following these instructions at all times to ensure longevity of the product.

Chef Knives

Our ranges of chef knives are all manufactured from special types of molybdenum steel, which is designed to be harder than traditional stainless steel. This is required to allow the blade to be made razor sharp.

Due to the hardness of the steel, it possesses less resistance to rusting and staining than stainless steel. Therefore the product should not be left with food residue or left wet and should be washed immediately after use.

We do not recommend dishwashing of chef knives.
