Case Study

Location: Trafford Centre

Job: Digital Signs Structure

CAL International designed and project managed three digital sign structures at Manchester's Trafford Centre.

CAL International partnered with **Adxba**, **Build Swift** and **ACR** to produce a beautiful piece of advertising.

Adxba installed the huge 7.5m x 5m digital screen with a structure weight of 12 tonnes.

Build Swift fabricated the structure while **ACR** provided structural and foundation calculations.
