- Replaceable Battery
- Text and Email Notifications
- Multi-year Deployments
- Free Software
- Free iPhone and Android App

Find comfort in knowing where the things that matter are

ACCESS ANYWHERE

Track your assets from anywhere with internet access.

Get the Android or iPhone app free. Get real-time locations and alerts immediately.

AMAZING SUPPORT

Multiple support options gives you instant access to our support team.

Don't sit on the phone pushing buttons, talk to a human.

THE THREAT IS REAL

More than \$18 million of cargo was stolen in the United States in 2014.

Don't end up being a statistic. The choice to protect your stuff is a no-brainer.

WHAT IS IT?

The Bolt Mini LTE is a long-term GPS tracker that combines cellular and GPS technology. It offers a replaceable internal battery for up to multi-year deployments. Keep track of vehicles, trailers, RV's, shipping containers, high value assets, and more with the most advanced, reliable, user-friendly online monitoring system available.
