

Nolla Anti-Mold Spray kills spores, mold, mildew, and other micro-organisms. This product instantly removes stains and odors caused by mold.

Its fast-acting and powerful anti-mold effect is based on Nolla™ silver polymer technology which utilizes active silver ions to fight against mold. Silver ions kill up to 99.9999% of bacteria that causes visible and bad-smelling mold stains.

Nolla™ silver polymer technology provides a long-lasting barrier on surfaces to prevent further growth of micro-organisms. Suitable for all kinds of surfaces. Fulfills EN 1650 test standard.

- ✓ ELIMINATES SPORES, MOLD AND MILDEW
- ✓ FRAGRANCE FREE
- ✓ MULTI SURFACE
- ✓ FULFILLS EN 1650

PRODUCT DETAILS

USAGE

Spray evenly on contaminated surface, leave for 15 minutes, and wipe off. Repeat as necessary. Wear safety gloves. Disinfectant residue may turn yellow if not wiped off.

ACTIVE INGREDIENT

Silver Chloride (<0.1%)

CAUTION

Use biocides safely. Always read the label and product information before use. Extremely flammable. Pressurized container.

BUSINESS

We offer two forms of cooperation with our Anti-Mold Spray:

Private label - our contract manufacturers manufacture the product with your branding

Licensing - dramatically reduce your manufacturing costs by licensing Nolla™ silver polymer technology

PACKAGING

200 ml aerosol bottle

private label example
