Horsham District Council

Improve the operational health of your council

Councils are multi-faceted organisations, often with stretched resources and budgets. While some councils opt to run disparate systems in search of a council-wide solution, this often leads to a costly, complex, siloed and inefficient operating environment.

If you're committed to digital transformation, it's time to question whether your current approach can really deliver on this goal.

In today's digital-first world, it's critical to have the right Enterprise Resource Planning (ERP) capabilities in place to run your council operations efficiently.
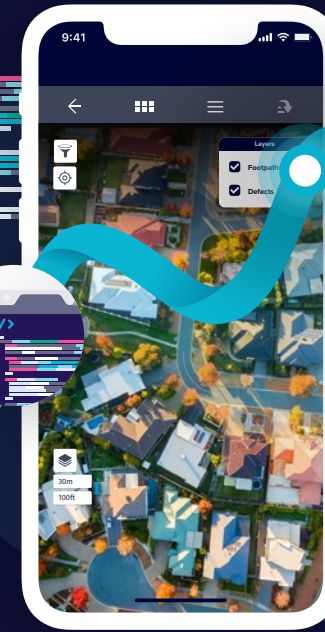

Simplify the complex

TechnologyOne's OneCouncil Software as a Service (SaaS) solution delivers a seamless and engaging local government experience. Our integrated approach to SaaS ERP enables you to consolidate your technology stack, simplify council business systems in one platform and transform your digital experience.

Leveraging more than 30 years' experience working with local government across Australia, New Zealand and the United Kingdom, TechnologyOne is best placed to help your council adapt to the changing landscape and reduce your administrative burden.

We understand that local government requirements vary from council to council and provide the flexibility to adapt our solution to meet your specific needs through powerful integrations and business process automation.

Whether you're in council management or administration, you can connect through one integrated solution that's accessible on any device, anywhere, at any time.

Experience the OneCouncil advantage

Reduce costs, improve efficiency and streamline processes through end-to-end management of council operations.

A solution built for local government

A proven practice solution that's specifically designed for local government to reduce implementation time, cost and risk.

Intuitive, engaging software

Provide intuitive self-service access for your council.
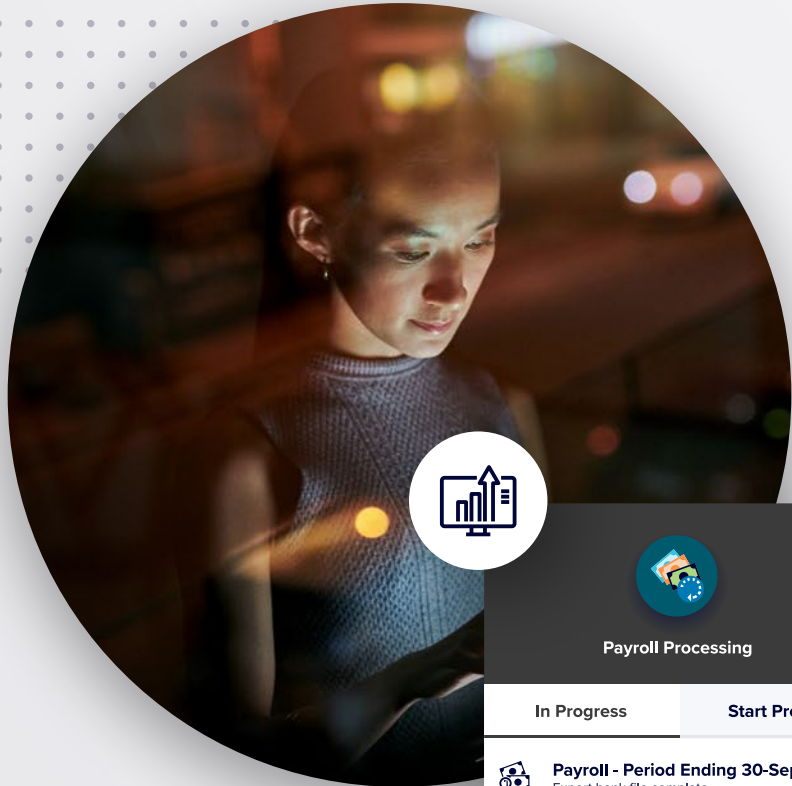

Secure, reliable and scalable

Guarantee the privacy of your data by partnering with the most trusted SaaS ERP provider.

Financial management

General ledger

Track, analyse and report up-to-date financial information from across the organisation with a flexible, integrated multi-ledger and multi-chart of accounts.

Budgeting and forecasting

Deliver unified and integrated budgeting and forecasting that links to the strategic goals of your council.

Expense management

Take control of spend, automate expense management and ensure greater policy compliance.

Asset accounting

From acquisition and depreciation to revaluation and disposal, accurately capture, track and report on the lifecycle costs and valuations of your fixed assets.

Project accounting

Manage accurate project budgets and billing throughout project lifecycles and easily review financial performance for any single project.

ONECOUNCIL

Procurement and inventory management

Contract and contractor management

Manage the full contract lifecycle and collaborate with suppliers while strengthening compliance and reducing risk. Keep supplier information and contracts accurate and produce detailed contract KPI and financial reports.

Support for all types of contracts including materials, services and construction, both lump sum and schedule of rates.
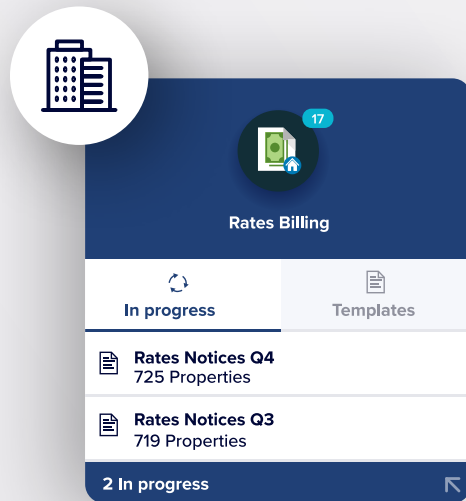

Source to contract

Identify, evaluate and engage suppliers for all your council's procurement needs with comprehensive RFx management tools for highly configurable approaches to market.

Procure to pay

Streamline the entire procure-to-pay process by automating requisitioning, authorise, purchasing, receiving and payment processing.

Inventory management

Accurately track and manage your inventory with automated order processing and replenishment and support for multi-location inventory management.
