

**LightStation®**

With an easy to locate photoluminescent label on the front cover, LightStations provide comfort and assurance that a safe dependable light will be available when the power goes out.

All LightStation® models are filled with 4 hours, yellow 10" SnapLight lightsticks (20cm); visible up to 1 mile in fog or smoke. Sealed with replaceable Tamper Evident Pins to provide a visual alert if tampered or used.

**LightStation® Models 4 and 10**

Designed with a fire resistant case. When the front cover is pulled open, all SnapLights activate to provide instant illumination, flooding an area with portable light for evacuees. Available in red or beige and also with a safety lock (Model L).

**LightStation® Model 20**

Designed with a heavy-duty molded plastic case. When the front cover is pulled open, one SnapLight activates, leaving 19 SnapLights for individuals to carry and use as light sources while evacuating. Available in red.

| LIGHTSTATION* | PART#   | CASE | 10" REFILL  | PART#     | CASE |
|---------------|---------|------|-------------|-----------|------|
| Model 4       | 9-00346 | 6    | Yellow 4 HR | 9-00352PF | 200  |

### 4" CHEMLIGHT® LightSticks

Lightweight and handy, 4" ChemLights (10cm) are recommended for marking routes, clearing areas, vehicle lane night patrol and survival kits.

| 4" CHEMLIGHT | PART#     | CASE |
|--------------|-----------|------|
| 6 HR GREEN   | 9-74780PF | 100  |
| 6 HR ORANGE  | 9-76300PF | 100  |

### 8" Ultra High-Intensity Flare Alternative

Developed as a safe, environmentally-friendly alternative to traditional incendiary flares currently used by law enforcement. With reflective strip, it enhances visibility up to 1 mile during emergencies. The attached wire stand allows easy set-up and activation. With a new-patented formulation, the 8" Flare Alternative (20cm) provides superior performance in cold and warm climates and is used in wet or dry weather. Ideally used at accident scenes, vehicle breakdowns, as hazard markers, and to alert drivers of obstacles in the road.

| 30 MINUTE       | PART#   | CASE      |
|-----------------|---------|-----------|
| ORANGE ULTRA-HI | 9-27035 | 4 x 12-PK |

### 10" Flare Alternative

10" Flare Alternative (25cm) fits securely in a metal bipod stand to prevent rolling and is visible up to 1 mile.

| 10" SNAPLIGHT | PART#     | CASE      |
|---------------|-----------|-----------|
| 2 HR GREEN    | 9-27049PF | 4 x 10-PK |
| 2 HR YELLOW   | 9-27030PF | 4 x 10-PK |
| 2 HR RED      | 9-27047PF | 4 x 10-PK |

### 12" SnapLight® LightStick

Widely used by Law Enforcement the 12" SnapLight (30cm) provides 3x the light of a 6" lightstick. Mining and Utility companies highly recommend the 12" SnapLight for evaluation of potentially hazardous situations as they generate no heat or flames. Ideally used for area lighting, signaling, and evacuations when directing individuals to safety. Individually wrapped in foil. Stick with a hole punched at the top for easy hanging.

| 12" SNAPLIGHT | PART#       | CASE |
|---------------|-------------|------|
| 12 HR GREEN   | 9-2705101PF | 25   |

### 15" IMPACT® LightSticks

The only lightstick that activates on impact, providing instant illumination. When near gas or oil, or any combustible materials, the 15" IMPACT (40cm) stick is a dependable source of emergency lighting that is safe for use in all environments. Recommended for confined space lighting, vehicle repairs, building searches, bundle drops, refuel/rearm sites, and hazard markers.

| 15" IMPACT (2 End Rings) | PART#     | CASE     |
|--------------------------|-----------|----------|
| 12 HR GREEN              | 9-87090PF | 4 x 5-PK |
| 12 HR YELLOW             | 9-87110PF | 4 x 5-PK |
| 12 HR RED                | 9-87120PF | 4 x 5-PK |
| 8 HR BLUE                | 9-87100PF | 4 x 5-PK |
| 8 HR WHITE               | 9-87130PF | 4 x 5-PK |

### SOLAS PML®

The dual function, SOLAS PML is designed with a chemical and electronic light source for additional protection. The electronic part of the SOLAS PML is water activated and automatically starts flashing with a white high intensity battery operated beacon. Reliable light visible up to 1 nautical mile and up to 3 miles by air.

| PML SOLAS        | PART#     | CASE |
|------------------|-----------|------|
| 8 HR GREEN/WHITE | 9-00350PF | 40   |

### Personnel Marker Light (PML®)

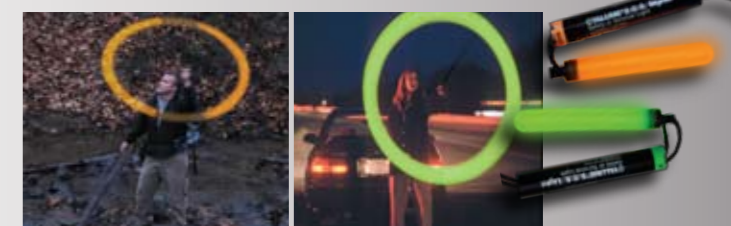

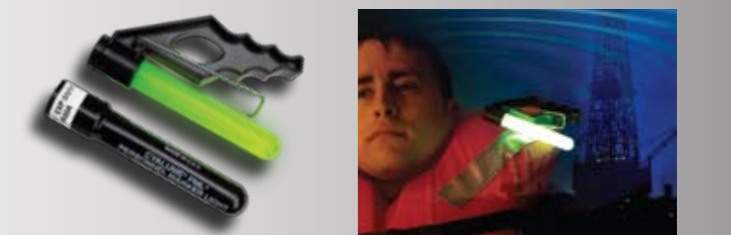

Coast Guard approved, the PML is the superior clip-on identifying signal for rescue-at-sea or evacuation operations. PML's easily attach to PFD's and immersion suits for quick identification. Designed to be lightweight, waterproof, and buoyant, the PML is the ideal emergency locator.

| PML        | PART#     | CASE |
|------------|-----------|------|
| 8 HR GREEN | 9-80770PF | 50   |

### SOS®

Ideally used as a signaling device, the SOS is perfect for rescue & outdoor safety operations. When the user spins the device, it forms a distinctive circle pattern visible up to 3 miles from the air and 1 mile on land.

| S.O.S.                | PART#     | CASE |
|-----------------------|-----------|------|
| 8 HR GREEN            | 9-42740PF | 50   |
| 5 MIN ORANGE ULTRA-HI | 9-68260PF | 50   |

### Markers

#### CYFLECT™ PT Belts

Cyfect personal marker Belts are adjustable, retro-reflective but also photoluminescent. Glow can be recharged by a headlight or any other light source.

#### LightShape® Circle Markers

The self-adhesive 3" LightShape Markers (8cm) can be used for medical triage, evacuation procedures, trail marking or as a protective safety equipment. Peel the paper backing and adhere to any surface.

| LIGHTSHAPE  | PART#     | CASE       |
|-------------|-----------|------------|
| 4 HR GREEN  | 9-50860PF | 10 x 10-PK |
| 4 HR YELLOW | 9-42710PF | 10 x 10-PK |
| 4 HR ORANGE | 9-42730PF | 10 x 10-PK |
| 4 HR RED    | 9-42720PF | 10 x 10-PK |
| 4 HR BLUE   | 9-42700PF | 10 x 10-PK |

| PT BELTS                     | PART#     | CASE |
|------------------------------|-----------|------|
| WHITE 2" x 5,5' - 5cm x 1,7m | 9-3012507 | Each |

### Mark Your Way to Safety...

#### FlexBands

The 7½" FlexBand (19cm) is the ideal emergency marker. FlexBands can be placed on wrist, stretchers, door knobs, tree branches... Combine FlexBands together to mark larger areas.

| FLEXBANDS   | PART#     | CASE      |
|-------------|-----------|-----------|
| 6 HR GREEN  | 9-85990PF | 12 x 3-PK |
| 6 HR ORANGE | 9-85970PF | 12 x 3-PK |
| 6 HR RED    | 9-85960PF | 12 x 3-PK |
| 6 HR BLUE   | 9-85980PF | 12 x 3-PK |

### All LightSticks Accessories

#### Directional Handle

Lightweight and durable, the handle is recommended for police officers, road construction crews, valet parking attendants, or anyone who requires a highly visible light for signaling or directing traffic.

| ACCESSORIES        | PART#   | CASE |
|--------------------|---------|------|
| DIRECTIONAL HANDLE | 9-33450 | 25   |

#### Cone Adapter

Cone Adapters can be used on their own or placed on top of a safety cone for improved visibility. They are stackable and easily stored.

| ACCESSORIES  | PART#   | CASE |
|--------------|---------|------|
| CONE ADAPTER | 9-27103 | 25   |

### Increase Your Performance...

#### Magnetic Base Safety Grade

The Magnetic Base allows the lightstick to be held in an upright position for maximum visibility. Insert a lightstick and attach to vehicles, or any other steel surface.

#### Industrial Grade

The original magnet with strong hold. Anti-scratch protection for sensitive surface available.
