

## DESIGNED FOR A HEALTHY AND SAFE ENVIRONMENT

Upofloor's state of the art PVC free floors have been designed particularly for high traffic public spaces. The unique material, Enomer<sup>®</sup>, provides not only excellent durability and maintenance properties; the floorings are also completely free of PVC, plasticizers and halogens. They are exceptionally safe – for both users and the environment. Developed by Upofloor, Enomer<sup>®</sup> floorings have been successfully used worldwide for over a decade.

Xpression Luxury Planks and Tiles were designed to please the eye as well as our environment. Xpression offers an abundance of attractive options for stylish spaces, a flooring well suited for your design icons.

- » Free of PVC, Chlorine and Plasticizers
