

*“Total believability”*

**MSB Technology presents MQA upgrades for the following Digital to Analog Converters:**

*The Select DAC*

All current customers get a free upgrade from our older USB format to the new MQA input module!  
Only for the Select.

*The DAC V*

A time established reference, the DAC V's feature rich streamlined design and continuous innovation keeps it at the cutting edge.

*The Analog DAC*

Our entry level DAC's modular design allows for an easy upgrade to MQA in all existing Analog DACs.
