## GUIDE TO SYMBOLS

### READY TO GO

We endeavour to keep these items ready to go, in stock and available for order. Occasionally, due to high demand, we may need to re-order from our factories and can't always guarantee immediate availability.

### MADE BY AEL

Exclusively designed and manufactured in-house with a stunning range of timber and wood-look furniture. We can adapt and adjust most items to suit your specific needs.

### DESIGNER COLLECTION

Made-to-order with lead times ranging from 3-6 weeks, it is the perfect solution for outdoor areas seeking a distinctive and unique look.

### MADE IN THE UK

Our fully equipped factory in Reading, Berkshire, has skilled personnel and equipment including CNC routers. This enables us to offer bespoke products, designs, colours and sizes.

### RECYCLED MATERIALS

We supply a wide range of outdoor furniture manufactured from recycled materials, from picnic benches through to wood-look tables and chairs.

### MAINTENANCE FREE

This type of furniture is all-weather and requires no ongoing maintenance. Materials range from recycled and UV resistant polywood, powder coated galvanised steel and aluminium, or reinforced polypropylene.

### ADD YOUR BRANDING

Using the latest techniques, our design and manufacturing team use a variety of branding methods to incorporate your brand, logo or colour scheme into our furniture or shade solution.

### WHEELCHAIR FRIENDLY

Many of our benches are wheelchair friendly with extra room like our All-Rounder and Kent benches, or specially designed so that wheelchairs fit naturally in the gap provided.

## ABOUT AEL

Our reputation has been built on quality and service, gained from more than 15 years in designing, manufacturing and installing outdoor solutions for some of the UK's best known commercial cafes, restaurants, fast food outlets, pubs and hotel chains.

It's not just furniture we manufacture. AEL is the sole UK partner for Stobag awnings and Glatz umbrellas, complementing many different styles of planters, artificial plants, banner barriers, screens, play equipment, heat, light and outdoor accessories.

Our in-house factory facility gives us the ability to create bespoke items from scratch or adapt an existing design to give it that personal touch. It also allows us to continue to create innovative yet practical ideas, while our operational capability and high stock levels ensure reactivity to every project, from large rollouts with challenging deadlines to one off bespoke items. We are constantly scouring the world researching new suppliers that meet AEL's strict commercial use quality criteria, allowing us to offer an unrivalled range of outdoor solutions.

### THE SOLUTION

Creating a comfortable, welcoming outdoor environment is our prime area of expertise, creating ambience for customers and positive impact for your business, image and brand. Our solutions provide opportunity to extend the trading season and hours, resulting in increased revenue.

The beauty is that our options provide great flexibility, allowing an area to be adjusted from fully enclosed to fully open. You can provide your customers with variable degrees of shade or shelter with heat and light at the push of a button.

### SERVICES

Ultimately AEL are able to act as a one stop shop for all of your exterior requirements making it easier to manage projects while saving time and money. From design to installation, there is simply one contact.

### SURVEY

Personal advice including site specific surveys.

### DESIGN

A specialist team providing CAD layouts and visualisations.

### MANUFACTURE

Fully equipped factory and CNC routers offers bespoke products, colours and sizes.

### DELIVERY

Delivery and installation by our own vehicles and personnel to agreed time-scales.

### WAREHOUSING

Vast stockholding in Reading and Sheffield ensure we can deliver on projects of any scale.

### INSTALLATION

Products are delivered fully assembled or installed by our own in-house team.

### MAINTENANCE

Repairs to all leading brands of umbrellas and awnings.

## BRANDING

Using the latest techniques, our design and manufacturing team use a variety of branding methods to incorporate your brand, logo or colour scheme into our furniture.

**BESPOKE**  
MADE BY AEL

Bespoke furniture will allow you to create a unique style and ambience, whether you wish to create a formal environment, casual lounging vibe or industrial bar area; AEL can create a table, chair, bench or planter scheme to fit.

**BOOTH SEATING**

We can create booth seating in a variety of colours, shapes and sizes. These two examples are made from composite wood-look materials that are both cost effective and maintenance free.

### MIXED BOARD FURNITURE

Textures, materials and colours can be used to great effect such as this rectangular table and bench set. Why not combine a Mixed Board Table with Booth Seating?

### ZIGZAG TABLES

Add a touch of vitality and glamour with the ZigZag tables. Treated timber tabletops mixed with a tough powder coated base in RAL colours to match your brand or desired colour scheme.

### ROPE PLANTER

We create many different styles and shapes of planter, many to our customer's specification with the addition of branding, live or artificial plants or elements such as a vertical rope display.

### PLANTER TABLES

Introduce fresh, vibrant and colourful plants to outdoor seating and bring an area to life, made from a variety of materials such as timber and concrete.

### HOST STATIONS

Welcome diners and guests at a beautifully crafted host station and make a great first impression, made precisely to specification in terms of height, storage space, colour scheme and branding.

## MOULDED & LAMINATED Bespoke Tabletops

Our factory, which includes an in-house design team and CNC routers, can create bespoke tabletops to your specification. Take inspiration from the designs in this catalogue or contact us with your own ideas.

- Bespoke shapes and sizes
- Etched branding, CNC routing, printing and painting
- Resin-sealed objects
- Logo incorporation

Once you've selected a tabletop, combine it with your preferred option from our extensive range of Table Bases on pages 110 - 113

## SAUNTON Timber Tabletop

Create a rustic, country feel with Saunton tabletops, hand crafted from reclaimed timber boards then sanded and treated for all year round outdoor use.

- Bespoke shapes and sizes with a variety of finishes and stains
- Timber boards approx. 38mm thick
- Made in our UK factory

Supplied timber edged as standard, stainless steel edge band available as optional extra (additional charge may apply).

**COMBINE IT WITH YOUR PREFERRED OPTION FROM OUR EXTENSIVE RANGE OF TABLE BASES ON PAGES 110 - 113**

## IROKO Hardwood Tabletop

Breathe new life into your outdoor furniture. Iroko hardwood has a naturally high oil content making it ideally suited for outdoor use, as well as adding a warm and welcoming touch.

- Bespoke shapes and sizes with a variety of finishes and stains
- Attractive slatted Iroko with mitred frame
- Made in our UK factory

**COMBINE IT WITH YOUR PREFERRED OPTION FROM OUR EXTENSIVE RANGE OF TABLE BASES ON PAGES 110 - 113**

TABLE BASES

Combine it with your preferred option from our extensive range of tabletops  
PAGES 104 – 109

Poseur and dining height options available

All mechanical elements protected in centre pillar

Suitable for use on cobbles, paved areas or uneven floors

Moveable legs manage height differences up to 25mm

Durable and interchangeable feet

## SELF-LEVELLING

### Table Base

Wobbly tables and folded napkins under table legs are a thing of the past. Our range of dining and poseur height table bases utilise technology that automatically levels and self-adjusts to bumps and grooves on cobble stones, paved areas or uneven floors up to 25mm.

- Maintenance free, made from pre-treated, powder coated steel
- Tilting version with easy carry handle plus storage
- Available in black, silver, gun metal grey, white and anodic brown
- Bespoke RAL colours available upon request
- Dining Height - H 700mm | Poseur Height - H 1080mm

## WHY GLATZ?

**Glatz**  
Shade in Swiss Quality

Giant commercial umbrellas for cafes, bars, hotels and restaurants are manufactured in Switzerland by Glatz. Offering top quality, precision engineering and UV protection, giant umbrellas are a durable, attractive addition to any outdoor hospitality environment. AEL is proud to be the sole UK partner for Glatz in the UK since 2008.

### BRANDING AND PERSONALISATION

Design your own look, with branding and printing available on valances and membranes to display corporate colours, logos and strap lines to reflect your brand's unique identity.

### HIGHEST SERVICE LEVELS

Our vast experience in specifying, visualising and installing Glatz umbrellas gives us knowledge that is second to none. We have fully trained sales and service teams, while all parts are fully replaceable.

### HUGE RANGE AND CHOICE

Available in round, square or rectangular form in various sizes, with 73 colours to choose from across Class 2, Class 4 and optimum Class 5 fabric range. Browse the colour options on pages 166 – 167.

### PROTECTION AGAINST SUN, WIND AND RAIN

Umbrella membranes filter harmful UV rays with a UPF 50+ rating, keeping you safe in the sun as well as shaded. They remain stable in high winds with specific PALAZZO® STYLE models resistant up to 115 km/h depending on size with the correct base fitting.

### PRODUCT INNOVATION AND QUALITY

The anti-twist, reinforced centre pole is made from stamped, naturally anodised aluminium. Unique extension rods and spring loaded arms maintain canopy tension at all times, adding extra strength and durability. Many models feature a counter rotating telescopic principle for quick opening and closing, taking the hard work out of raising and closing.

### DRIVE CUSTOMER REVENUE

Glatz umbrellas allow an outdoor trading area to be used all year round. They are weather flexible, offering shade from the sun, protection from the rain and our range of lighting and heating options allow customers to enjoy alfresco dining well on into the evening.

The largest umbrella in the PALAZZO® range with coverage up to 49m<sup>2</sup>, the ROYAL is the perfect high strength solution for providing a comfortable and stylish shelter for outdoor spaces.

ROUND	SQUARE	RECTANGULAR
Ø 7000mm	6000 x 6000mm	6000 x 5000mm
Ø 8000mm	6500 x 6500mm	7000 x 5000mm
	7000 x 7000mm	7000 x 6000mm
		8000 x 6000mm

#### TECHNICAL FEATURES:

- Anti-twist reinforced frame made from stamped, naturally anodised aluminium
- Opened and closed by 19 hand crank turns, or optional remote control motorised drive
- Canopy UV protection of UPF 50+ rating
- Unique extension rods and spring loaded arms maintain canopy tension at all times, adding extra strength and durability
- Wind resistant to speeds of up to 90 km/h

#### ENHANCE YOUR LOOK WITH A VARIETY OF OPTIONAL ACCESSORIES:

1. Choice of 73 colours across Class 2, Class 4 and optimum Class 5 fabric range\*
2. Design your own look, with branding and printing available on valances and membranes
3. Integrated timed heating and LED lighting to extend hours of operation
4. In-ground fixing or bases for above ground installation
5. Rain gutter or curtains
6. Optional remote control motorised drive

\*CHOICE OF COLOURS  
DEPENDANT ON FABRIC CLASS

With many colours and options to choose from, the PALAZZO® NOBLESSE giant umbrella protects against sun, wind and rain as well as providing an attractive, comfortable and stylish shelter for outdoor spaces.

AWNINGS

Commercial outdoor awnings for cafes, shops, bars, hotels, restaurants, retail spaces and leisure groups are manufactured in Switzerland by Stobag. Bespoke and made to measure, they are available in a huge range of shapes, sizes, colours and styles with the option to add branding, logos or strap lines.

### BRANDING AND PERSONALISATION

Design your own look, with branding and printing available on awnings and valances to display something unique to your brand's identity.

### MADE TO MEASURE

Stobag awnings are made to suit your specific area or space with meticulous Swiss precision, ranging from traditional drop arm and retractable styles through to modern pergolas or goal post awnings.

### FRAME COLOURS

Profiles, awning cassettes and frame components are fully customisable, available in 28 standard powder coated colours with hundreds of bespoke RAL colours available upon request.

### FABRIC COLOURS

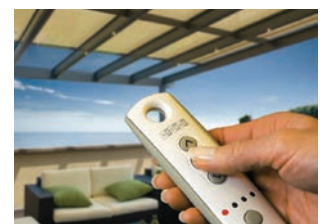

Choose from over 300 different fabric colours and designs, each providing bright, long lasting colours, water and stain resistance with the highest possible UV protection. Each fabric collection offers something unique such as striped optics, glare protection, blackout and efficient heat insulation.

### AWNING DESIGNER APP

Play with an almost unlimited range of colour combinations and styles with the Stobag awning designer. Of course, our in-house design team can create 3D visuals of how your awning will look following a site survey.

### AUTOMATION AND REMOTE CONTROL

A single remote control can be programmed to control multiple awnings so opening and closing is done at the touch of a button. Weather sensors for sun, wind and rain are also available to detect changes in weather conditions and ensures your awning reacts accordingly.

## OPEN AWNINGS

STOBAG

A classic range of retractable commercial open awnings, the SELECT series with patented triangular back bar is ideal when greater projection is needed than width. At the other end of the scale, the JUMBO's telescopic arm can offer projection of up to 5m x 18m width, creating a huge area of 90m<sup>2</sup> shade per awning.

## BOX AWNINGS

STOBAG

Box awnings, with folding or telescopic arm, are protected on all sides by a corrosion-resistant aluminium cassette box, ensuring both fabric cover and mechanical components are protected against environmental influences as well as vandalism. With a variety of elegant and discreet designs, box awnings are particularly well suited to busy cafes, restaurants or other high street business shop fronts.

## GLASS CANOPY

STOBAG

A unique combination of laminated safety glass and integrated shading, diverse mounting options - with stylish tie rods or side angle brackets mounted directly on the facade - eliminate the need for front supports. A telescopic extension mechanism on the ARDON offers protection from the sun at the push of a button, with electric motor drive fitted as standard.

## SIDE SHADING

STOBAG

Providing horizontal or vertical shade to your patio, decking or seating area, the SIRO and SIRO-FLEX protect against wind and exposure to the low, late afternoon sun. They can also create privacy where needed. Fixed into position by a wall bracket or floor sleeve, the fabric cover remains taught at all times, stored in a powder coated aluminium cassette and easily pulled into position by hand.

## VERTICAL AWNINGS

STOBAG

Vertical awnings provide shade and solar protection to almost any type of surface or façade and can even be used as black out for conferencing or training facilities. Options start with the entry level VERTICAL and move up to the VENTOSOL-LUNERO self-supporting awning for areas up to 25m<sup>2</sup>. Depending on the model, they can be operated manually using a crank or via a remote controlled electronic motor, or via sun/wind sensors.

## DROP ARM AWNINGS

STOBAG

Drop arm awnings enable you to keep out direct sun whilst maximising daylight. The projection angle on METRO and METRO-BOX models can be adjusted to any angle from 0° to 170° with perfect tensioning. Like all awnings they offer sun protection and allow greater control of temperature inside, with the angle adjustment allowing unobstructed views of the outside. The front profile lowers by gravity and is fixed to side arms that drop from a pivot point.

The extremely tough security shutters are made of impact-resistant aluminium profiles to help protect against break-in, vandalism or damage caused by inclement weather. The SECURE system offers three different widths of lamella (large, arched or small) while the solid aluminium casing is 1.2-1.5mm thick. Operation is by hand crank (up to 4m<sup>2</sup>) or by electric motor for larger areas. They can be retrofitted on existing commercial windows and doors, tested to protection class ENV 1627-1630.

## PERGOLA AWNINGS

STOBAG

Pergola awnings are the perfect choice for large outdoor terrace spaces that require sun, shade and weather protection. Tailor made and fully adjustable, the PERGOLINO provides 7m width x 6m projection with high tension fabric-locking technology, while the MELANO folding softtop can be seamlessly attached to an existing building or be completely free standing as a Pavilion, both with slide glazing options.

## GLASS ROOF

STOBAG

The TERRADO glass roof system is the perfect choice for all year round weather protection, constructed from durable powder-coated aluminium with an integrated glazed roof. The options are endless and can be made precisely to your requirements, from retractable shading to protect from UV radiation and heat, side and front sliding glazing, enclosable doors, hidden guttering and integrated heat and light.

## TERRACE PAVILLION

STOBAG

The BAVONA combines cutting-edge materials with a sophisticated cubic design, suitable for areas up to 36m<sup>2</sup> with only 4 supports. Tailor made, it can be colour matched to your individual requirements, while its roof is made from corrosion-resistant aluminium lamellas or patented folding softtop awning with watertight PVC fabric.

## GOAL POST AWNINGS

STOBAG

Goal post awnings, two back-to-back folding arm awnings mounted onto free standing goal posts, are fixed in place via transverse feet, floor sleeve or concrete socket. Each folding arm awning then rolls out on both sides, in tandem or individually with the BOXMOBIL model. Ideal for outdoor restaurants, garden centres, markets, schools or private homes where attachment to a building is not possible, covering up to 6.5m width x 7m projection.

## CONSERVATORY SHADING

STOBAG

Achieve the perfect room climate in conservatories and on glass roofs, skylights and roof windows with exterior sun protection and shading. Different types of fixing brackets allow for flexible installation on existing substructures, while a feature of the AIROMATIC model includes patented gas filled telescopic struts that can extend over a conservatory roof by up to 1.4m. Operation is via a remote controlled electronic motor, or with automated temperature sensors.

## ATRIUM SHADING

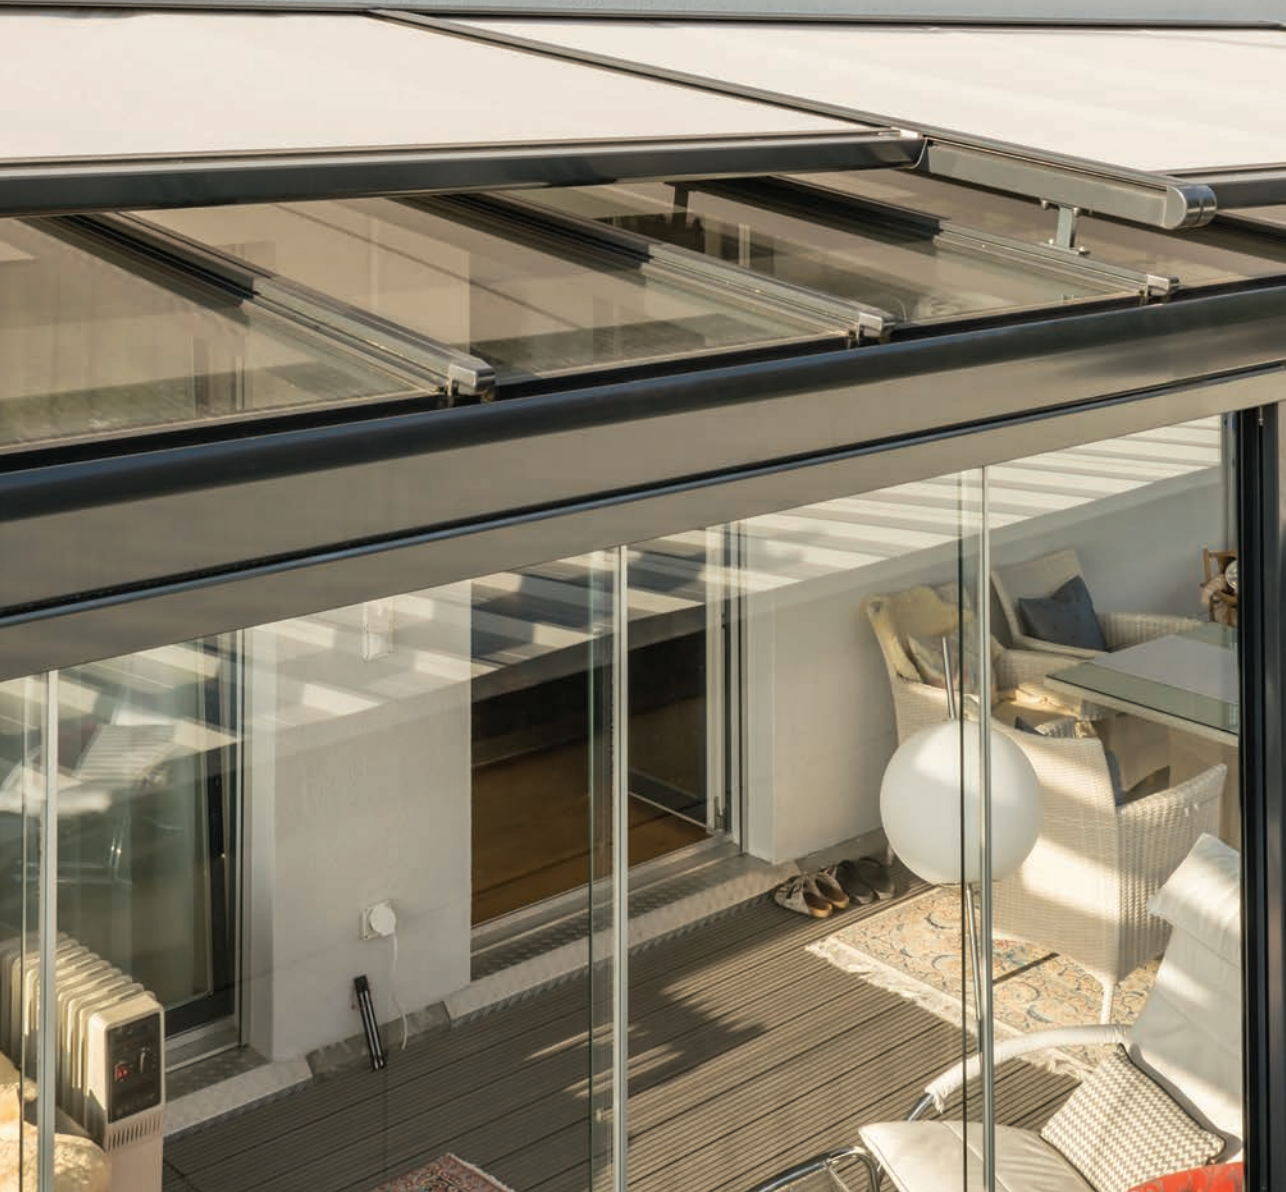

STOBAG

Installing atrium shading between buildings or on existing structures enables effective use of available space and the opportunity to generate further revenue. The ASTANO protects against the sun, UV radiation and rain, available in hardtop form with rotating aluminium lamellas, or as a strong folding softtop awning. Optionally available with integrated water run off, remote controlled electronic motor and many other enhancements.

# CONSERVATORY SHADING

**SHADE & SHELTER**  
MOTORISED PERGOLA

## MOTORISED PERGOLA

Are you looking to increase outdoor seating at your restaurant, cafe, garden centre, club house or indeed any hospitality and entertainment area?

Motorised Pergola systems offer cool, retractable cover for diners, increasing revenue while giving customers an amazing outdoor experience.

The 1600 Series is based on three core styles – inclined, rounded and flat – designed to be wall mounted or free standing. Wall mounted models have the option of front column supports, or if you prefer your structure column free, they can be supported by wall brackets or hanging system.

- Fully flexible, modular system for small to large area coverage
- Optional glass systems to fully enclose and seal against the wind and rain from every direction
- Motorised sliding rail ceiling system
- High quality PVC membrane ceiling cover, with UV protection and blackout with outward visibility
- Wide range of standard ceiling cover colours
- Aluminium profiles, available with wood-look transfer print
- Galvanised steel option for larger structures without columns
- Integrated LED lighting option, remote controllable
- Hidden water drainage
- 5 year guarantee on fabric, motor and construction
- Decorative ceiling cover option, installed under the pergola roof

Lighting is vitally important for eating and drinking outside and the perfect way to expand the usage of your outdoor entertainment and dining areas from day through to night.

In combination with our infrared heaters, LED lights can be discreetly fitted making them almost imperceptible in the day time, but allowing for maximum light and ambience for the tables and chairs beneath at night.

The benefits of LED lighting include:

- Low energy, consuming up to 90% less power than other forms of lighting
- Long lasting, up to 60,000 hours. Less maintenance reduces purchasing costs
- Rugged and durable with no fragile components. Able to withstand shock, vibration and conditions encountered in outdoor lighting
- Safety, generating little heat and cool to the touch even after long operation
- Environmentally friendly, made from non-toxic materials and recyclable. Reduced carbon footprint with high energy efficiency
- Instant light, reaching 100% brightness immediately

Lighting is extremely effective when combined with our umbrellas and awnings. Furthermore, many of our heating solutions also offer integrated halogen spotlights. Get in touch to discuss ways to illuminate your alfresco area for a vibrant, bustling scene throughout the evening.

# BANNER BARRIERS & SCREENS

# BANNER BARRIERS

## BANNER BARRIERS

Bespoke

Whatever your requirements, AEL can help. Using our factory facilities and in-house design skills, we are able to fabricate, deliver and install bespoke banner barriers for your establishment. A coordinated outdoor area with a consistent look will enhance your brands visibility and increase dwell time and entice clientele.

- Banners in timber, aluminium, acrylic and many other materials
- Branding, printing or engraving
- Powder coated stainless steel posts in bespoke RAL colours
- Timber clad post option
- Combine banner barriers with planters

# SCREENS

## Pavement Screens

Pavement screens are an effective area management and branding tool. Screens can be tailored to fit the perimeter of your trading area with a variety of styles available.

- Emboss solid colour panels and glass with brand, logo or message
- Glazing option on full glass models
- Tough 6mm glass ground on edges for safety
- Available in burgundy, green, blue, black, gun-metal grey as standard
- No Under Panel, Glass Under Panel or Solid Under Panel options

**ANY RAL COLOUR CAN BE MATCHED ON REQUEST, PLEASE ENQUIRE FOR DETAILS.**

### PAVEMENT SCREEN, STRAIGHT TOP

Single Screen: W 700mm – 2000mm / H 850mm – 1800mm  
Double Screen: W 1350mm – 2000mm / H 850mm – 1800mm

### PAVEMENT SCREEN, BOW TOP

Single Screen: W 700mm – 2000mm / H 850mm – 1800mm  
Double Screen: W 1350mm – 2000mm / H 850mm – 1800mm  
Triple Screen: W 2000mm / H 950mm – 1800mm

### PAVEMENT SCREEN, TRADITIONAL TOP

Single Screen: W 700mm – 2000mm / H 850mm – 1800mm  
Double Screen: W 1350mm – 2000mm / H 850mm – 1800mm

### PAVEMENT SCREEN WITH ENCLOSED TOP

Single Screen: W 700mm – 2000mm / H 850mm – 1800mm  
Double Screen: W 1350mm – 2000mm / H 850mm – 1800mm

## SCREENS

Height Adjustable Screens

As well as shelter from the elements, our height-adjustable screens give you the option of an open balcony or terrace in good weather.

Simply raise the adjustable balustrades when you need protection from cold winds. The unique system can be raised and lowered easily by hand, to give added flexibility to your outdoor area.

Height adjustable screens are available in the following sizes as standard (lowered/raised height):

- 800mm/1300mm
- 900mm/1500mm
- 1000mm/1700mm
- 1100mm/1900mm

Artificial Plants  
PAGE 222

Bespoke timber planter made  
to measure and finished to match  
building facade

Add a sense of calm, whether you are looking for a Mediterranean feel, tropical vibe or more natural setting. Working with both live and artificial planting, we have a strong understanding of what's required to create a stunning alfresco scene, matching décor and themes if required.

Our extensive array of planters and plants provide natural privacy, without completely obscuring customers' enjoyment of the passing world. Numerous branding options are available to maximise brand awareness, targeting passers by in addition to encouraging loyalty from your diners.

#### TIMBER PLANTERS | PAGE 206

Manufactured from treated pine, scaffold or other suitably robust and aesthetic timber. Available in standard sizes or made to various lengths and customised.

#### BESPOKE PLANTERS | PAGE 207

Build your own bespoke planter sets, made in our UK factory and designed to your specification or tweaked from an existing idea to get the desired finished product.

#### PLANTER SETS | PAGE 208

A look at some of our popular artificial plant and planter combinations. If you don't see what you need, we can put together a bespoke arrangement.

#### WALL GARDEN | PAGE 212

Attractive and complementing artificial plants in the form of a vertical wall garden, perfect for adding greenery and plants to building and wall facades.

#### POTS | PAGE 214

Add a touch of colour and tranquillity with our range of round, rectangular or square tapered plant pots. Place individually or mix and match with different shapes and heights.

#### POT SETS | PAGE 216

Take inspiration with some of our pot and artificial plant combinations. If you don't see what you need, we can put together a bespoke arrangement.

#### ARTIFICIAL PLANTS | PAGE 222

Palms, mosses, grasses, flowers or herbs can be added as individual statements or in a cluster to create natural looking yet maintenance free foliage.

#### LIVE PLANTS | PAGE 228

If you are looking for something a little different, we can supply a wide range of live seasonal plants to transform your outdoor space.

## PLANTERS

### Timber

We have a wide range of timber planters available, available in standard sizes or made to various lengths, height and depths to meet your site's requirements. Planters can be stand-alone or combined with our banner systems to give great outdoor area management. These planters are supplied empty as standard, but can be arranged with any of our artificial plants as part of a bespoke arrangement (additional costs apply).

- Made in our UK factory
- Treated timber with a variety of desired stain finishes
- Castors, adjustable feet or ground fixing options available

Want a totally unique planter system for your business? We specialise in the fabrication of bespoke planters from a variety of materials, using the combined skills of our CAD and manufacturing teams to help you decide on the best designs, textures, materials, dimensions and colours for your alfresco area.

Our core business is creating outdoor environments for dining and socialising – a ‘one stop shop’ for all your exterior requirements. As well as your planter, we can also supply artificial or live plants, banner systems, furniture, shade solutions and an extensive range of options to complete the look

**SIZE**

Made to measure in a size to suit your space, we undertake a free site survey to help you decide on the best layout and size options.

**MATERIALS**

Designed to suit your desired style and budget including timber, scaffold, high density polyethylene, texture and polywood.

**FINISH**

All timber products can be stained, oiled or painted in a colour of your choice to achieve your desired finish.

**BRANDING**

We offer CNC engraving, spraying, painting, direct media printing, burnt branding or vinyl application of your logo or branded statement.

**PLANTS**

Mix-and-match your favourites from our range of long lasting UV resistant artificial plants or contact us about creating a live planting arrangement.

**FIXING**

Planters can be designed with fixed or variable locations in mind, supplied with castors, adjustable feet bolted down for long term fixed positioning.

PLANTERS, POTS & PLANTS  
LIVE PLANTS

Live plants clean our air and look stunning. We have extensive experience creating planting schemes and we can offer a wide range of live specimens to suit décor, season, light levels and temperature, from large exotic trees and topiary cones to small summer meadow plants.

- Various soil, stone, bark and chipping options
- Huge range of planters and pots
- Low maintenance evergreens and other plants

**CONTACT US TO DISCUSS  
BESPOKE ARRANGEMENTS**

**BELOW ARE JUST A SELECTION OF LIVE PLANTS WE CAN  
ARRANGE FOR YOUR PLANTER AND POT SETTING:**

### ENGLISH COTTAGE

Chosen for long flowering and ease of care, such as Geranium Rozanne and Salvia Hot Lips.

### SEASIDE

Grasses and evergreens such as Rosemary, Lavender and Hebe.

### MEDITERRANEAN

With aromatic foliage, such as Cistus, Convolvulus and Thyme.

### JUNGLE

For a sub-tropical look ideal for warm, sheltered spaces such as Bananas and Ficus.

### HERBS

Attractive evergreen herbs such as Chives and Parsley.

### BULLET PROOF

Tough plants surviving on limited maintenance, such as Vincas and trailing Ivies.

### LIVING SCREEN

Beautifully scented Jasmine, Ivies or Roses.

### TOPIARY

Simple yet distinctive cones or spiral designs from Taxus baccata.

## PLAY EQUIPMENT

Conforms to  
BS EN1176

Laminated engineered  
CNC cut panels

Machine rounded laminated  
timber poles as featured  
on our Action Station  
and Play Station range  
PAGES 240 - 243

Colourful, durable steel  
core rope

Noughts and crosses  
game panel

Brightly coloured  
panels to match  
your brand or  
colour scheme

Durable stainless  
steel ripple slide

Wet Pour  
safety surfacing  
PAGE 260

## PLAY BOX

The Play Box has been designed and built to offer a state-of-the-art, eye catching outdoor play unit with bundles of play value. Brightly coloured, with an internal maze of play items such as scramble nets, internal climbing net tower to look out post, cobweb climbing nets, slide and peek-a-boo windows. It is guaranteed to deliver an exciting play experience for children of all ages!

## PLAY TOWERS

Play Towers use high quality quarter sawn timber posts for outstanding value. They feature single or multiple towers, climbing and walking challenges, ripple slides, tunnels and more. Use the Play Tower to provide a striking centrepiece to your playground site.

**DIMENSIONS INCLUDE  
SAFETY SURFACE AREA  
REQUIRED. SEE PAGE 260**

- Suitable for children aged 4-12 years
- Conforms to BS EN1176 play equipment safety

This is just a small selection of our Play Towers, visit [aelsolutions.com](http://aelsolutions.com) or contact your local sales representative to discover our full range.

The selection of the right safety surface for your play area can be confusing. For play equipment with a free fall height more than 600mm, an impact attenuating safety surface is required. With our own professional and experienced installation team, we offer advice on the most suitable surface for your play area and budget. All our surfaces comply with EN1177 regulations.

### PLAY BARK

An economic safety surface solution that can be installed using either a raised or sunken pit, however it needs regular maintenance and topping up.

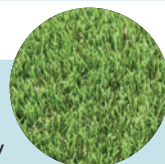

### RUBBER MATTING OVER GRASS

Grass grows through the matting installed and can be mown normally. The matting prevents grass from developing worn or muddy patches.

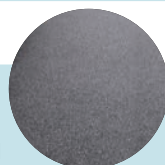

### SYNTHETIC GRASS

Easily laid onto a prepared surface, it needs very little maintenance and is guaranteed for five years. The surface is sterile and will not graze the skin.

### WET POUR

We undertake the groundwork, preparation and laying of the wet pour rubber safety surfacing. Wet pour may be laid in black or a variety of colours and patterns.

### BONDED RUBBER MULCH

Available in a range of colours, the bonded rubber mulch requires minimal groundwork preparation and can be installed directly onto grass or existing hard surfaces.

Commercial fencing is available in a professional, natural timber finish. We also offer attractive, colourful fencing to keep children's play areas safe and contained, enabling parents to feel relaxed and dwell for longer knowing that their children are kept away from open areas.

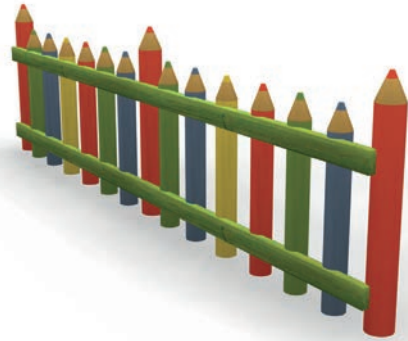

- Made in our UK factory
- Bespoke sizes and desired stain options
- Installed by our in-house team

**MOVEABLE FENCING PANELS**

A0700

3 Panels featured. Price per individual panel.

**TIMBER PENCIL FENCE**

**HDPE (POLYMER)**

**TIMBER COLOUR STAINED**

**TIMBER NATURAL FINISH**

### COMPOSITE

Composite flooring consists of the high-quality S2 wood-polymer composite (WPC), which combines the best properties of wood and plastic – a natural wood look and long product life. The material is dimensionally stable, weather resistant and resistant to influences such as cold, heat, acid rain, saltwater or chlorinated water, wood-destroying fungi and insects.

### TIMBER EFFECT

A great alternative to timber, with no timber or plastic! Made from polyurethane resin reinforced with glass fibers for added strength. It won't splinter, warp or fade, lasting up to 30 years longer than timber. It does not absorb food or drink spillages and requires minimal maintenance.

#### Benefits of Composite and Timber Effect:

- High quality, natural wood-look
- No cracking or splintering, making them extremely comfortable for walking on
- Weather-resistant
- Slip-resistant, even when wet
- Easy to care for and low-maintenance
- Wide range of colours, features, surface textures and formats

Turn old awnings and umbrellas into new with a membrane replacement. For greater street impact, replace tired fabrics with new, using either your existing colours or new design. AEL not only supply the very best selection of commercial umbrellas and awnings, but also repair and re-cover all well-known brands with the same expert care.

We are proud of our maintenance professionals, who ensure that AEL products are installed and maintained to the highest possible standard. Contact our dedicated service team for immediate advice and assistance.

# TERMS & CONDITIONS

Extract Only

## GUARANTEE

All products are of the highest commercial quality and are designed, manufactured and tested to withstand the rigours and demands of normal commercial use. All furniture items carry a 2-year guarantee against faulty workmanship and materials, with our timber products carrying a 10-year guarantee against wood rot. For a full breakdown of warranty terms and conditions on all of our products please contact the sales office on 0118 923 0300. Please note that guarantees do not cover misuse, vandalism, extreme weather and replacement items such as light bulbs.

## TERMS AND CONDITIONS (EXTRACT ONLY)

### PRICES

All prices quoted are ex-works and ex-VAT unless otherwise stated. We make every effort to maintain our prices but all are subject to change due to raw material costs.

### INSTALLATION

A site specific quotation will be provided free of charge.

### ASSEMBLY

Outdoor Furniture, Screens and Barbeques are delivered fully assembled to mainland UK at no extra charge.

### PRODUCT DEVELOPMENT

Specifications may vary as AEL have a policy of constant review.

### COLOURS

Colours displayed in this brochure are indicative only and may vary.

### TITLE

Title to goods remains with seller until paid in full.

### PRICE PROMISE

In the unlikely event you are able to find the same specification product at a cheaper price, built to the highest commercial standards and grade, AEL will make every effort to match the price.

### FULL TERMS AND CONDITIONS

Available on request by calling the sales office on 0118 923 0300 or visiting [aelsolutions.com](http://aelsolutions.com)

AEL Solutions is a trading division of A&E Leisure Ltd. 'AEL', 'AEL Solutions' and 'Max Green' are brand names of A&E Leisure Ltd.
