

# Caravan Habitation Damp Report

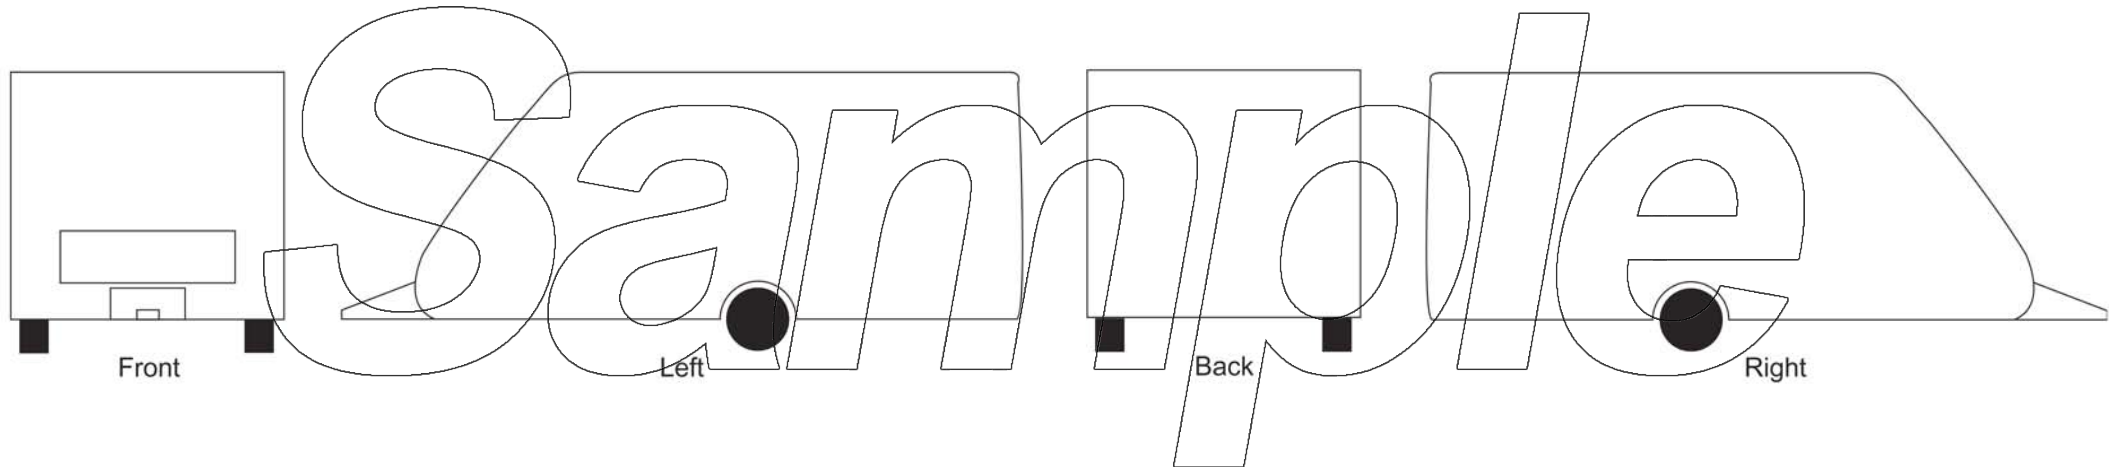

Workshop name & address:

Customer:

Make/model:

VIN:

*Checks must be carried out in accordance with the latest AWS Touring Caravan Standard Working Procedures*

#### GUIDANCE NOTES

*Readings between 0 - 15% - no cause for concern.*

*Readings between 15 - 20% - require further investigation. Compare with the caravan average reading. Consider asking to recheck the area in three months.*

*Readings greater than 20% - will identify areas needing remedial work. There may be early signs of water ingress or evidence of moisture. Again it may be worth considering a recheck after three months. When readings go above 30% then structural damage may be occurring and deterioration is inevitable.*

#### COMMENTS & RECOMMENDATIONS
