

# IS MY BABY FORMULA ADULTERATED WITH MELAMINE?

## Tellspec Enterprise Scanner and Tell Melamine application

This technology can be used to test for the contamination of melamine in powdered baby formula, in less than 15 seconds, and in a reliable and non-destructive manner.

**Tell Melamine**  
Baby Formula Melamine  
Detection app by Tellspec Inc

This solution helps reduce costs associated with testing baby formula in a traditional chemical lab, and shortens the analysis time, so you can make a fast, informed decision.
