

Standard and Coloured Fenders

Anchor Marine has been manufacturing inflatable buoys and fenders in the United Kingdom for over 50 years. Our wide range of buoys can be found in both hot and cold climates internationally, recognised universally by our 'blue spot'.

Popular for commercial and leisure use, the practical design, resistance to bursting, exceptional ruggedness and durability are synonymous with Anchor Marine products.

Standard Fenders

A comprehensive range of standard cylindrical fenders with a reinforced attachment eye at each end. Suitable for vertical or horizontal use, they should meet most pleasure craft and workboat requirements. With the highest quality UV resistant PVC and class leading wall thickness, Anchor Marine fenders will prove reliable for many years.

The fenders have valves for easy inflation/deflation and hard thimble eyes to reinforce rope securing points.
