Why choose Doff Lightweight Multi-Purpose Compost?  
Plants thrive in coir compost, making it an excellent choice for gardeners. Its natural properties make it the ideal growing medium for indoor & outdoor use.

its advantages are:

- Peat-free
- Oxygenates roots
- Sustainable
- Clean

Directions for use:

- Simply empty what you need into a suitable container.
- Add water - remember that it will expand by up to 3 times.
- Turn over the mixture with your hands or trowel ensuring there are no dry patches.
- Use indoors or outdoors - ensure pots, containers or window boxes have sufficient drainage in the base.
- To expand the full bag up to 15 litres you will need approximately 5 litres of water.

Doff® Lightweight Multi-Purpose Compost is a premium growing medium for both dry and wet conditions. It can absorb moisture at many times its own dry weight whilst holding vital nutrients in dry or arid spells, helping your plants flourish with its added slow-release fertiliser.

This compost is peat-free, contains no green waste and is grown from fully sustainable sources.
