# 10 GREAT REASONS TO BUY SHUTTERS

1

## ULTIMATE LIGHT CONTROL

nothing allows you to control light the way shutters do. Individual panelled sections put you in control

2

## PRIVACY

split your shutter panels in 2 and keep the bottom louvres closed and the top louvres angled letting light in whilst maintaining privacy

3

## INSULATING

2nd only to secondary glazing no other window covering provided heat insulation like a plantation shutter

4

## SOUND PROOFING

keep street noise at bay with beautiful shutters

5

## VALUE FOR MONEY

made-to-measure shutters last a lifetime and compared to most other less robust made-to-measure window coverings are less expensive

6

## EASY TO CLEAN

no need to take down like curtains and no fiddly venetian blind slats to dust - simply wipe the dust off

7

## HYPO-ALLERGENIC

curtains and other fabric window coverings can contain dust mites

8

## CHILD SAFE

the fact that there are no cords means no risk of strangulation

9

## GUARANTEED

for up to 25 years

10

## ADD VALUE TO YOUR HOME

Shutters make reselling your home easier because buyers love shutters and they recognise a valuable permanent fixture that stays with the sale

## REPUTATION REALLY MATTERS TO LOCAL COMPANIES

AND WE WILL ALWAYS ENSURE YOU ARE DELIGHTED WHEN YOU CHOOSE US

*"Mike came and measured and quoted for our shutters. I knew what I wanted but appreciated Mike's expert advice and am delighted with the solution we agreed on. A friendly approach rounded off with a great install."*

# BAY WINDOW SHUTTERS

Bay window shutters are one of the most striking features of period homes. Where these homes are street facing shutters are ideal as no other window covering offers such control over privacy or light. The fact that the shutters follow the lines of the bay will make your room look more open and spacious. Designing your shutters to complement the multiple panels that make up your bay is critical to achieving a harmonious look.

## WHAT TYPES OF BAY WINDOW SHUTTERS ARE THERE?

In general, there are two types of bay window shutters - the SPLAY BAY and the BOX BAY (also known as 90 degree bay or square bay) and both can be enhanced by adding plantation shutters.

## THE IDEAL SPLAY BAY WINDOW SHUTTERS

Many companies are uncomfortable with splay bay window shutters because they can be tricky and so provide a solution where they treat each window as an individual shutter set.

A great install will actually have bay posts made-to-measure and fitted so that they marry up with your window and in effect the whole bay window is treated as a single shutter installation rather than say 3 separate shutters.

# SPECIAL OFFERS

# BOX BAY SHUTTERS

Box Bay Shutters require the use of corner posts so that again the window is treated as a single unit rather than installing 3 separate sets of shutters butted up to each other. It is important that shutters look great from the outside as well as the inside.

Finally it should be noted that with bay windows you cannot fold the shutters from the central window against the wall. If you are looking to open the central shutters out of the window recess then these will protrude into the room. The fact is that in general shutters stay shut and that you control light and privacy simply by operating the louvres.

## WHY CHOOSE THE GREAT SHUTTER CO?

**The Great Shutter Co.** was founded by Mike Schnuppe to provide a truly local service offering affordable luxury to Winchester and surrounding areas. Mike has been within the plantation shutter industry for over 7 years, heading up sales and marketing for the UK's largest shutter distributor.

During that time Mike launched numerous shutter ranges into the UK market and so knows the materials, profiles and specifications intimately. Mike also created a shutter partnership with John Lewis and trained well in excess of a 100 of their retail staff on what makes wooden plantation shutters such a great window solution.

The Great Shutter Co. offers these same tried and trusted shutters amongst others, but with the benefit of a local home consultation, survey, measure and fit service with a personal touch because reputation really matters.

## WE GUARANTEE WE WILL

- Provide a free home visit with full samples - we don't just bring some colour swatches because we know you would like to see the quality of the shutters.
- Work together with you to find the very best solution for you and your home.
- Provide a no obligation quote within 24 hours or there and then if possible.
- Provide free, impartial advice as we have the UK largest range of plantation shutters and are not tied to any single manufacturer.
- Install your shutters professionally and issue a guarantee certificate.
- Leave your home neat and tidy after the install.
