MSc / PGCert Burn Care - distance learning

An innovative course for all healthcare professionals involved in the care of burn patients.

Therapists, nurses, intensive care staff and surgeons.

Hello

Thank you for your interest in our Burn Care programmes here at Queen Mary University of London (QMUL). This exciting online programme aims to cover the entire spectrum of burn care with an emphasis on its multidisciplinary nature.

This is a highly enjoyable course which is designed for all healthcare professionals involved in the care of burn patients. As this is a distance learning programme, our students are able to remain in full-time employment while completing the course.

Our programme is affiliated with an esteemed faculty of surgeons and therapists who excel in their fields and in addition to the distance teaching element, we provide opportunities for practical exposure or face-to-face teaching in the context of exciting national and international conferences.

- Large portfolio of postgraduate online and onsite medical programmes

Programme delivery

Burn Care MSc - 2 years, part-time
Burn Care PGCert - 1 year, part-time

• Web-based, distance-learning, part-time

Through our online learning platform we deliver reading material, key papers and student/tutor discussion forums.

• Multi-media material delivers video discussions, lectures and surgical techniques
• Regular, live on-line tutorials are delivered by the course contributors

• Clinical days (2 per year) are organized for our students, taking place in both UK and/or international centers. These are not a compulsory element of the course
• An on-site OSCE (Objective Structured Clinical Examination) will be held at the end of each academic year.

Distance Learning

The course has been designed so that students can continue working full-time in their current employment whilst studying the degree. A succinct material delivery format and realistic assignment deadlines are structured to allow students to pace their work accordingly. Typically students will need to allocate 4 – 6 hours of study per week.

Apply now for 2018 Entry
