Pricing information

So you have seen my website but you are not sure where we stand in pricing.

There will always be times when we will be beaten on price by some companies, especially internet based ones, however the service they offer will be completely different to the one I will provide YOU with.

We guide you through the process with a survey, a full specification, consultations, design ideas with a wide choice of products, delivery, the supply of recommended installers, project management, removal of all building rubbish and packaging and ensure that the project is completed to YOUR satisfaction if you require the complete package.

We will also provide a supply only service which includes a survey, a full specification, consultations, design ideas and includes delivery of all the goods required.

We offer YOU a bespoke personal service regardless of your requirements.

We aim to be competitive in price compared to the large companies you will also visit, but will be no hard sale with us and no requirement to make a decision there and then.

We are happy for you to take home our ideas and discuss in the privacy of YOUR own home.

I am confident that we can compete with all the major companies and we will provide you with a better and more varied product and service at a very similar price.

So give us a call to arrange an appointment to visit our showroom

Yours sincerely,

Stewart Woodruff

Owner

Testimonials:

*We found MBK very helpful from the moment we approached them to discuss our new kitchen. They advised us of all the different aspects we should consider from the outset, the pros and cons. The installation went as planned and completed well within the time limit, and the fitters were very accommodating, all this came at a sensible price. **I would not hesitate in using MBK for future projects.***

E Whittaker, Boughton Monchelsea

*When we took the major step of replacing our aging kitchen we found that every firm we spoke to had a vast array of similar looking kitchens on offer, many of which would have been very suitable for our needs. Hence we decided to look beyond the glossies at the firm behind them. To do this we set ourselves a number of criteria: the company had to be local and well established; it should be neither too big nor too small and, most importantly, it should be prepared to nominate one individual who would be held accountable for project managing the whole process, from initial design through to installation, including the procurement and purchase of all new kitchen appliances on our behalf. As an added bonus we hoped that, being a local company with a reputation to protect, it would offer an efficient post installation follow up service in the event of any snags occurring. **We are very pleased to say that MBK delivered on every front.***

John Kitchen, Coxheath

*MBK Design helped develop my ideas for converting our old bathroom into a new modern shower room. Their expertise made the various choices much easier and **I am over the moon with the finished article.***

Malcolm Wells, Maidstone

*MBK Design Studio gave so much more than just design. Not only did they help us to choose the right kitchen. They were also brilliant at pulling the whole thing together - cupboards, worktops, flooring, taps, sinks etc. I'm quite sure I was the most demanding customer but MBK were always patient and helpful. We love our kitchen and it has the family entertaining space we were so desperate to achieve. **Every day that I walk into it I still love it as if it were the first.***
Thank you.
Shelley Kerr, Biddenden

I was able to choose in their showrooms from an excellent range of bathroom and shower room equipment without any undue pressure from the management. The selection I made was exactly what I had wanted and advice I sought concerning tiles, floor covering and sanitary ware was given with genuine interest in my choices. The Fitters worked with efficient and careful attention to detail and with consideration to my personal situation. Their work was always left in a reasonable state every evening and with little inconvenience to me. They were always friendly, cheerful and pleasant company to have in the house. Minor problems have been carefully attended to and I am delighted that I chose such an excellent company.

I thoroughly recommend this Company.
