Boots Healthcare
International's
motivational event
based on a James
Bond theme

We're starting with the end result that you want...

...A SKILLED WORKFORCE

...INSPIRED EMPLOYEES

...MOTIVATED TEAMS

Whenever people come together in the name of business, choosing to involve Unique Solutions will significantly improve the end result.

When your teams have a challenge ahead, a skills gap, or simply need to be thanked, our sharply focused and highly creative thinking develops appropriate and unique events; from conception and design to delivery and evaluation.

Business simulations, skill development, or entertainment events become **highly effective investments** because we design them to deliver the strategic results you want.

To kick-start a major conference, teams of Country Managers from Boots took part in an auction to bid for their lunch.

PRESENTATION SKILLS AND PROFESSIONAL SPEAKERS

And it all happens because of the **work that we do...**

...GROUP FACILITATION

...GRAPHIC RECORDING

...ENGAGING THE AUDIENCE

When we work with you, our team is as big as it needs it to be. Unique Solutions' account managers, event designers and venue researchers are instrumental in interpreting your business needs, while our event managers select and coordinate set designers, coaches, audio visual teams, facilitators and many other specialist providers. Together, we build experiences that work brilliantly for the attendees - and for you.

You won't see all of this support, but you **will** experience it.

And the first job of all - **clear** and **creative** business thinking...

...COMMUNICATING WITH YOU

...WINNING YOUR CONFIDENCE

...EVALUATING THE RESULTS

But what makes our events truly memorable is how well our solutions match the needs of your business. Whether it is a challenge ahead, a requirement to develop new skills, or the need to say 'thanks', Unique Solutions will incorporate your strategies, vision and aims - and fit your culture. It makes the event more relevant and more effective and it's how events **should** be designed.
