## Our History

Lugo is a well-established British contract furniture manufacturer with a head office based in the heart of the Midlands, just 15 miles from Birmingham. The company has an exemplary pedigree for supplying its loyal customer base with high-quality furniture.

Our customer base includes multi-sited blue chip hotel and leisure operators as well as independent hotels and restaurants across the United Kingdom, Europe, Middle East Asia and the United States. Although the company shares its name with a busy city in Northwest Spain, it actually has no such connection, and in fact, takes its name from the founder's two sons, Luke and Hugo. For many years, the company operated via three split sites, before taking the decision in 2016 to base its head office and its main manufacturing facility under one roof.

Today, the company operates from two quite different sites. The head office and an impressive 30,000 sq.ft. central manufacturing facility, are both situated on Engine Lane of the Coppice Side Industrial Estate. This sits just outside Walsall in the West Midlands, on what was originally the site of the locally historical Coppice Coal Mining company. Being located so centrally allows us to efficiently service our clients nationwide. Our experienced team also operates from a project management, design and sales office in Farringdon, which is in the centre of London's epicentre for high-quality furnishings.

# Quality

## Furniture Quality Standards

As fine quality furniture specialists, we are a company that depends upon our reputation and relies on repeat business. That's why ensuring our furniture quality standards are maintained is of paramount importance.

Lugo's quality standards have been considered with ISO 9001 guidelines in mind.

- To confirm that the furniture quality standards put in place are achieving results expected and in line with requirements.
- To highlight any visible inconsistencies and to outline any areas that may need improvement.
- To assess how productive any proposed changes have been, as well as reviewing the effectiveness of the current management system.
- To acknowledge any and all complaints received and recommend restorative action if necessary.
- To analyse information recovered from internal audits to identify potential areas for improvement.
- To review any reports of items that don't align with the current policy to identify potential improvements.
- Annual audits are undertaken internally to ensure that all processes and procedures are still compliant with our quality guidelines.

## Stringent Quality Checks

Lugo impose stringent quality checks from manufacturing through to delivery ensuring high-quality furniture is produced every time. If anything is deemed to fall even slightly short of our high expectations, improvements will be identified and implemented with immediate effect.

Should any complaint arise, Lugo's customer service team will work closely with our clients to resolve issues in a timely manner.

## What is the BCFA?

The British Contract Furnishing Association (BCFA) is the British business association for the contract furnishing industry. The full spectrum of interior products and services are covered, throughout the UK and globally. Member companies are required to operate with a level of specialism in their fields and are accredited by the BCFA as leading manufacturers, suppliers and designers of contract quality furnishing products and services. Being accredited by the association allows clients to buy from member companies with confidence and satisfaction.

In order to become a member of the BCFA a company must commit to provide the highest level of customer service and satisfy the associations strict standards of professionalism. The BCFA supports an atmosphere of enterprise and fair competition where members operate ethically, encourage excellence and constantly strive for improved standards in their businesses.

## BCFA Code of Practice

- To ensure that clients can have total confidence in the ability of BCFA members to meet their obligations to their trading partners and operate at the required standards of the association.
- That clients can be assured that BCFA accredited suppliers meet all relevant British Standards as a minimum with regard to product durability and safety.
- To reassure potential customers that they can always expect the highest levels of customer service from BCFA members.
- To ensure that customers can be confident that their products have been manufactured ethically.
- To ensure that all BCFA members are fully aware of their legal and professional obligations of membership regarding the supply and manufacture of products and services.
- To ensure that all members uphold the exemplary reputation and good name of the BCFA and fellow members.

# Sustainability

### **An Environmentally Sustainable and Conscious Company**

Lugo understands the importance of being environmentally sustainable and considers itself to be an ecologically conscious company, not only when designing and producing our furniture, but throughout all of our in-house operations.

When creating well-considered contract furniture for our clients, we strive to ensure the highest quality of construction is maintained in order to prolong the product's life and subsequently reduce the environmental impact associated with replacing furniture frequently.

### **Manufacturing Conscientiously**

Our products are largely constructed from timber which is a recyclable and biodegradable resource. We recycle any wood waste in our wood waste heater and only use adhesives, stains and polishes that minimise harmful emissions. Wherever possible we endeavour to use water-based products.

A high proportion of the upholstery fabrics we work with are constructed using sustainable yarns such as wool, linen, and cotton which are biodegradable.

As the FSC (Forestry Stewardship Commission) and PEFC (Programme for The Endorsement of Forestry Certification) promote environmentally responsible management of the world's forests, Lugo endeavours in its pre-qualification of our supply chain to source the majority of its timber from registered FSC and PEFC approved sources.

When required, our raw material suppliers are able to provide us with Chain of Custody certification which confirms the authenticity of the forest of origin and this is a practice we will continue to uphold.

Our packaging consists of strong recyclable cardboard cartons or wool blankets to reduce unnecessary waste. When unpacking furniture on site, cartons are flattened and returned to the factory for reuse.

### **Educating Our Team**

We are continually educating our employees and suppliers on the negative effects of waste and the benefits of recycling and manufacturing sustainably, to ultimately come together to make a positive impact on the environment.

Lugo strives to quickly identify risks to the environment early and implement the most effective solution to address them. Both our office and manufacturing teams are made aware of their environmental impact to ensure they are mindful and taking steps to reduce waste.

### **Our Aim**

Our aim is to produce outstanding sustainable and ecologically responsible hospitality furniture that will be in use for many years to come.

We endeavour to continually improve our environmental performance and minimise the impact of our activities by periodically reviewing our corporate environmental policy in light of both our current and planned activities.

Across all departments, we believe we can make a significant impact in safeguarding our environment.

# Manufacturing

Traditional upholstery techniques date back to the 18th Century. As bespoke furniture manufacturers, Lugo still embraces many such skills, coupled with modern furniture manufacturing techniques, to ensure that our furniture is of high-quality and built to last.

Lugo is based within an area of the Midlands that is particularly rich in premium suppliers to the upholstery trade. Everything including webbing, linings, threads, castors, foam, and piping is readily available to us in the immediate vicinity.

Although most of our furniture is both designed and produced in-house using traditional upholstery manufacturing methods, Lugo also offers its clients a particularly extensive choice of frame designs. These are supplemented in high numbers via strategic supplier relationships which have been forged over many years with superior quality and well respected chair frame-makers in Italy, Portugal, and Spain. Naturally, such raw frames are subject to our own extremely high-quality standards.

Our frame joints are glued, screwed and doweled for strength and stability before being polished, upholstered and thereafter despatched by the Lugo team. Being able to offer our clients such an extensive portfolio allows us to address most hospitality design briefs and budgets, so that your furniture designs can be made exactly to your specification, on time, every time.

# Custom & Bespoke Furniture

## Custom Our Design, Tailored to Your Style

All of our furniture is fully customisable, meaning that you can tailor a design to your requirements.

For example, chose a furniture design and make it your own by changing the wood stain of the timber, choose an upholstery that suits your décor and add finishes such as contrasting piping, deep buttoning, studs or show wood to create an individual piece that suits your hospitality needs and style.

## Bespoke Your Design, Crafted in Your Style

Are you looking for something a little different for your hospitality furniture? Perhaps you have an awkward space to fill, you need to complement existing furniture or you simply want your own design crafted for you.

Discover our bespoke furniture design service. Available across all types of loose furniture our bespoke service is differentiated from customisation as a unique piece is designed, developed and manufactured from scratch.

Our skilled furniture makers work with you to nurture your idea from the initial concept right the way through to production. Our expertise can help make your furniture ideas become a reality.

## Why you Should Consider Leasing

### Keep your Money in the Bank Longer

By spreading the costs, it creates an instant cash flow benefit. You can retain capital for when your business needs it for crucial activities.

### No 'SURPRISE' Charges

In addition to the capital cost, you can include installation and planned maintenance. No jargon with complicated paperwork, you receive fast credit decisions from our finance partner.

### Don't Wait, Have it Now

You don't have to wait for next years' budget when deferring payments. By deferring payments for up to six months you can benefit from new furniture now rather than later.

### No Increase in Payments

Due to your lease rental agreement being on a fixed interest basis, the amount you pay will stay the same, even if bank base rates increase.

### More for your Money

You are able to demonstrate a return on your purchase from day one to your stakeholders and directors, as the goods are paid for regularly.

### Tailor your Payments

Lugo understands your business may operate seasonally and therefore can tailor your lease rental agreement to meet requirements. You can create an agreement that has seasonal repayment holidays to match your income profile.

### Alternate Business Funding

When you use leasing to purchase furniture, you protect other lines of credit that you may have. For example, loans or overdraft facilities and can, therefore, conserve available credit.

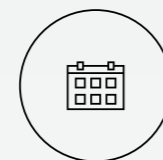

### Lower Tax Rate

The payments you make as part of your lease rental are 100% tax allowable against profits.

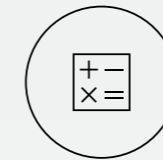

## Standard Terms

On the date of delivery, we will issue a 30-day invoice (a deposit may be required, subject to status). The title of the goods is transferred to you once the balance has been paid in full.

## Hire Purchase

Hire purchase is where you pay the full VAT and the first instalment for the goods. You will then be the title holder, however, if the payment defaulted the title would be transferred to our finance partners.

## Lease Rental

Lease rental gives you possession of the goods but you will not own them until the agreement has been fulfilled. Once completed, you have the choice to purchase the goods for a fee.

With lease rental, you have the advantage, towards the end of your contract, of being able to upgrade

your loose furnishings. You would keep the same monthly payments and extend the agreement in order to cover additional expenditure incurred. In addition, lease rental can be used to pay for maintenance. It also allows you to create a seasonable payment plan or a stepped lease which aids in budget distribution.

## Restaurant & Side Chairs

Whether you require wooden side chairs or would like to customise one of our restaurant chair designs, our wide selection allows you to cater directly to the existing design, décor and theme of your restaurant.

All of our chairs are built specifically for contract use – meaning that each one has been constructed to withstand heavy usage in a busy hospitality environment. You can be sure that any choice will be made with the highest quality materials.

With Lugo's custom restaurant and side chair service, you have the ability to tailor a chair to your company design or branding standards you currently have in place. We will upholster your chosen chair design in a fabric of your choice to intricately match your specific requirements. As chair and furniture manufacturers, we're also able to offer various wood stains – choose from our range of wood stains that best represent your brand.

The team will assist at every step to leave you with restaurant chairs that perfectly match the aesthetics of your establishment. From leather restaurant chairs to button-back fabric options, we will help you choose the right design.

### Armchairs

We provide small and large armchairs in a variety of styles. Whether you're looking for armchairs for reception rooms, restaurants or guest rooms, we work closely with you to find the right armchair to suit your interior design, aspirations and budget.

All of our armchairs are customisable and can be upholstered in a fabric of your choice. Whether you're looking for leather luxury or traditional, we can create an array of armchairs for your business. We can also produce custom stains if required, to match the aesthetic of your new armchairs with your existing furniture.

## Lounge Chairs

With our range of lounge chairs, we accommodate a wide spectrum of budgets and various business sizes. Our contemporary lounge chairs vary from simple but elegant options to luxury, to ensure you can always complement your branding and existing décor.

At Lugo, our chairs are part of our sophisticated wider range of restaurant and bar seating. You can customise a variety of elements on any of our pieces of furniture, including our lounge chairs. We can either upholster in a pre-specified fabric or provide assistance, if required, in choosing a suitable fabric for your individual design scheme. Our experienced furniture makers can also deliver exposed wood finishes in a range of stains, including customised stains to match existing furniture.

### Tub Chairs

We manufacture contract tub chairs to accommodate a variety of budgets and interior aesthetics – meaning there's always chairs to suit your needs.

We offer a series of customisation options on each of our tub chairs. From traditionally designed to more modern designs, you can choose specific upholstery to represent your company branding or to complement existing or future décor.

You can also choose from a range of wood stains or alternatively, supply us with a sample, and we'll produce a custom stain to match.

Our team of custom contract furniture experts oversee and ensure that every aspect of our tub chairs meets the high-quality standards Lugo has become synonymous with.

### Accent Chairs

Explore our selection of accent chairs available in a range of sizes, designs and patterns – perfect for any establishment. Choose a traditional classic design for an authentic look or alternatively, choose a modern design to add a contemporary feel to your establishment.

With customisation available, we can alter elements on our contract furniture from the timber stain and fabric to the studding and piping. The finer details can be an infusion of your choice and our expertise to help create a sophisticated piece of furniture.

Choose from our supplier's extensive range of fabrics, or choose fabrics of your own to bring your custom accent chairs to life. From deeply padded seats to tall elegant scroll backrests, our accent chairs will not only leave a perpetual impression on guests but will act as a memorable feature worthy of a return visit.

### Ottomans

We are an experienced furniture supplier, having manufactured ottomans and footstools for some of the leading hotel groups, we are an expert supplier with extensive knowledge, and always happy to guide you in finding your perfect ottoman.

We manufacture custom ottomans and footstools designed to withstand the bumps and scrapes of any busy hospitality environment. Browse through our range of ottoman footstools, from traditionally upholstered and elegantly-styled, to sleek and more contemporary designs.

Whether you're the owner of a small independent boutique hotel, looking for a quirky signature piece, or a large hotel chain in need of design consistency, we have the perfect ottoman for you.

# Tables

Here at Lugo we know that one size doesn't fit all, every hotel, bar and restaurant has its own specific requirements. It's our objective to cater to your requirements and with our customisation service, we do just that. Each table design you see can be made to measure to fit your desired space, furthermore, you can customise our tables further by choosing from our range of wood stains or alternatively we can colour match a wood stain to your existing furniture.

# Tables / Table Guidelines

If you have an idea that you would like to create from scratch our expert furniture designers can make it a reality with our bespoke design service. Whether it's an extravagant statement piece or something exclusive to you we can help. Once you are happy with the design it will be passed on to our experienced furniture makers who will turn your concept into a piece of furniture, perfect for you.

Whether you choose to customise a table from our range or produce your own bespoke creation, all of our furniture is expertly manufactured using the highest quality contract materials and meticulously tested to ensure that it withstands the rigours of everyday use within a hospitality environment.

## Table Guidelines For Specifiers

The ratio between the size of the table top and the base is important when considering the stability of your table.

We would advise specifiers not to attempt to use larger tops than the recommendation.

All our tables are available in bespoke sizes however please see below for the recommended top size for all pedestal bases within our range.

Please note, sizes are for guidelines only. Any size available on request.

Circular Top		Square Top		Rectangular Top	
No. of covers	Recommended Diameter	No. of covers	Recommended Diameter	No. of covers	Recommended Diameter
2	750mm	2	750mm x 750mm	4	1300mm x 750mm
4	900mm	4	900mm x 900mm		
6	1200mm				
8	1500mm				
10	1800mm

### Dining & Bar Tables

Here at Lugo, we specialise in supplying contract furniture to some of the most respected hoteliers and hospitality providers. We offer a wide range of dining and bar table options, featuring contemporary and minimalist stylings, whether you're after luxury dining and bar tables or more traditional and elaborate designs for your restaurant, hotel or bar, we can find a design that suits your individual needs.

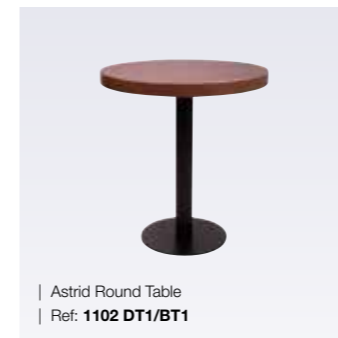

Choose to alter elements such as the stain, the material it's constructed from and the type of finish. By customising an existing design you can tailor your new tables to your current interior décor, furniture or colour scheme.

### Poseur Tables

We are proficient in working with budgets of all sizes. We'll work with you to create high-quality poseur tables that work with your current or new décor.

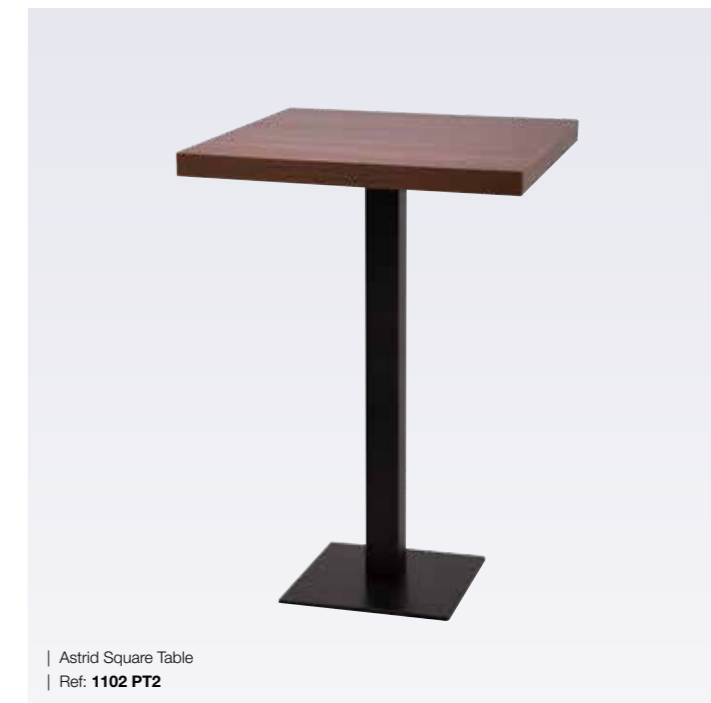

From our manufacturing facility, we can deliver bulk orders of custom poseur tables with competitive turnaround times.

Through our custom contract furniture service, we're able to offer customisation on our poseur table designs. This allows you to create tables that fit in with the branding and design of your hotel, restaurant or bar, as well as remaining consistent with any contract furniture you already have.

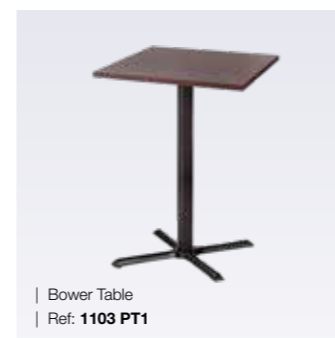

As part of this service, we can also create custom wood stains. All you have to do is provide our expert furniture makers with an example of the stain to match.

# Upholstered Beds & Headboards / Real Leathers

### Real Leathers

By upholstering your furniture in real leather, you will ensure it oozes grandeur in any room. Our neutral colourways enable you to refurbish rooms time after time without having to change the design or fabric of your furniture. Easy care instructions are convenient for housekeeping and ensure your choice of furniture will be a timeless favourite.

Please note that although we have taken careful measures to accurately represent these fabrics to their likeness, the exact colour may differ. We advise you to order a fabric sample from us to see the fabrics true colour.

## Upholstered Beds & Headboards / Wall Panels

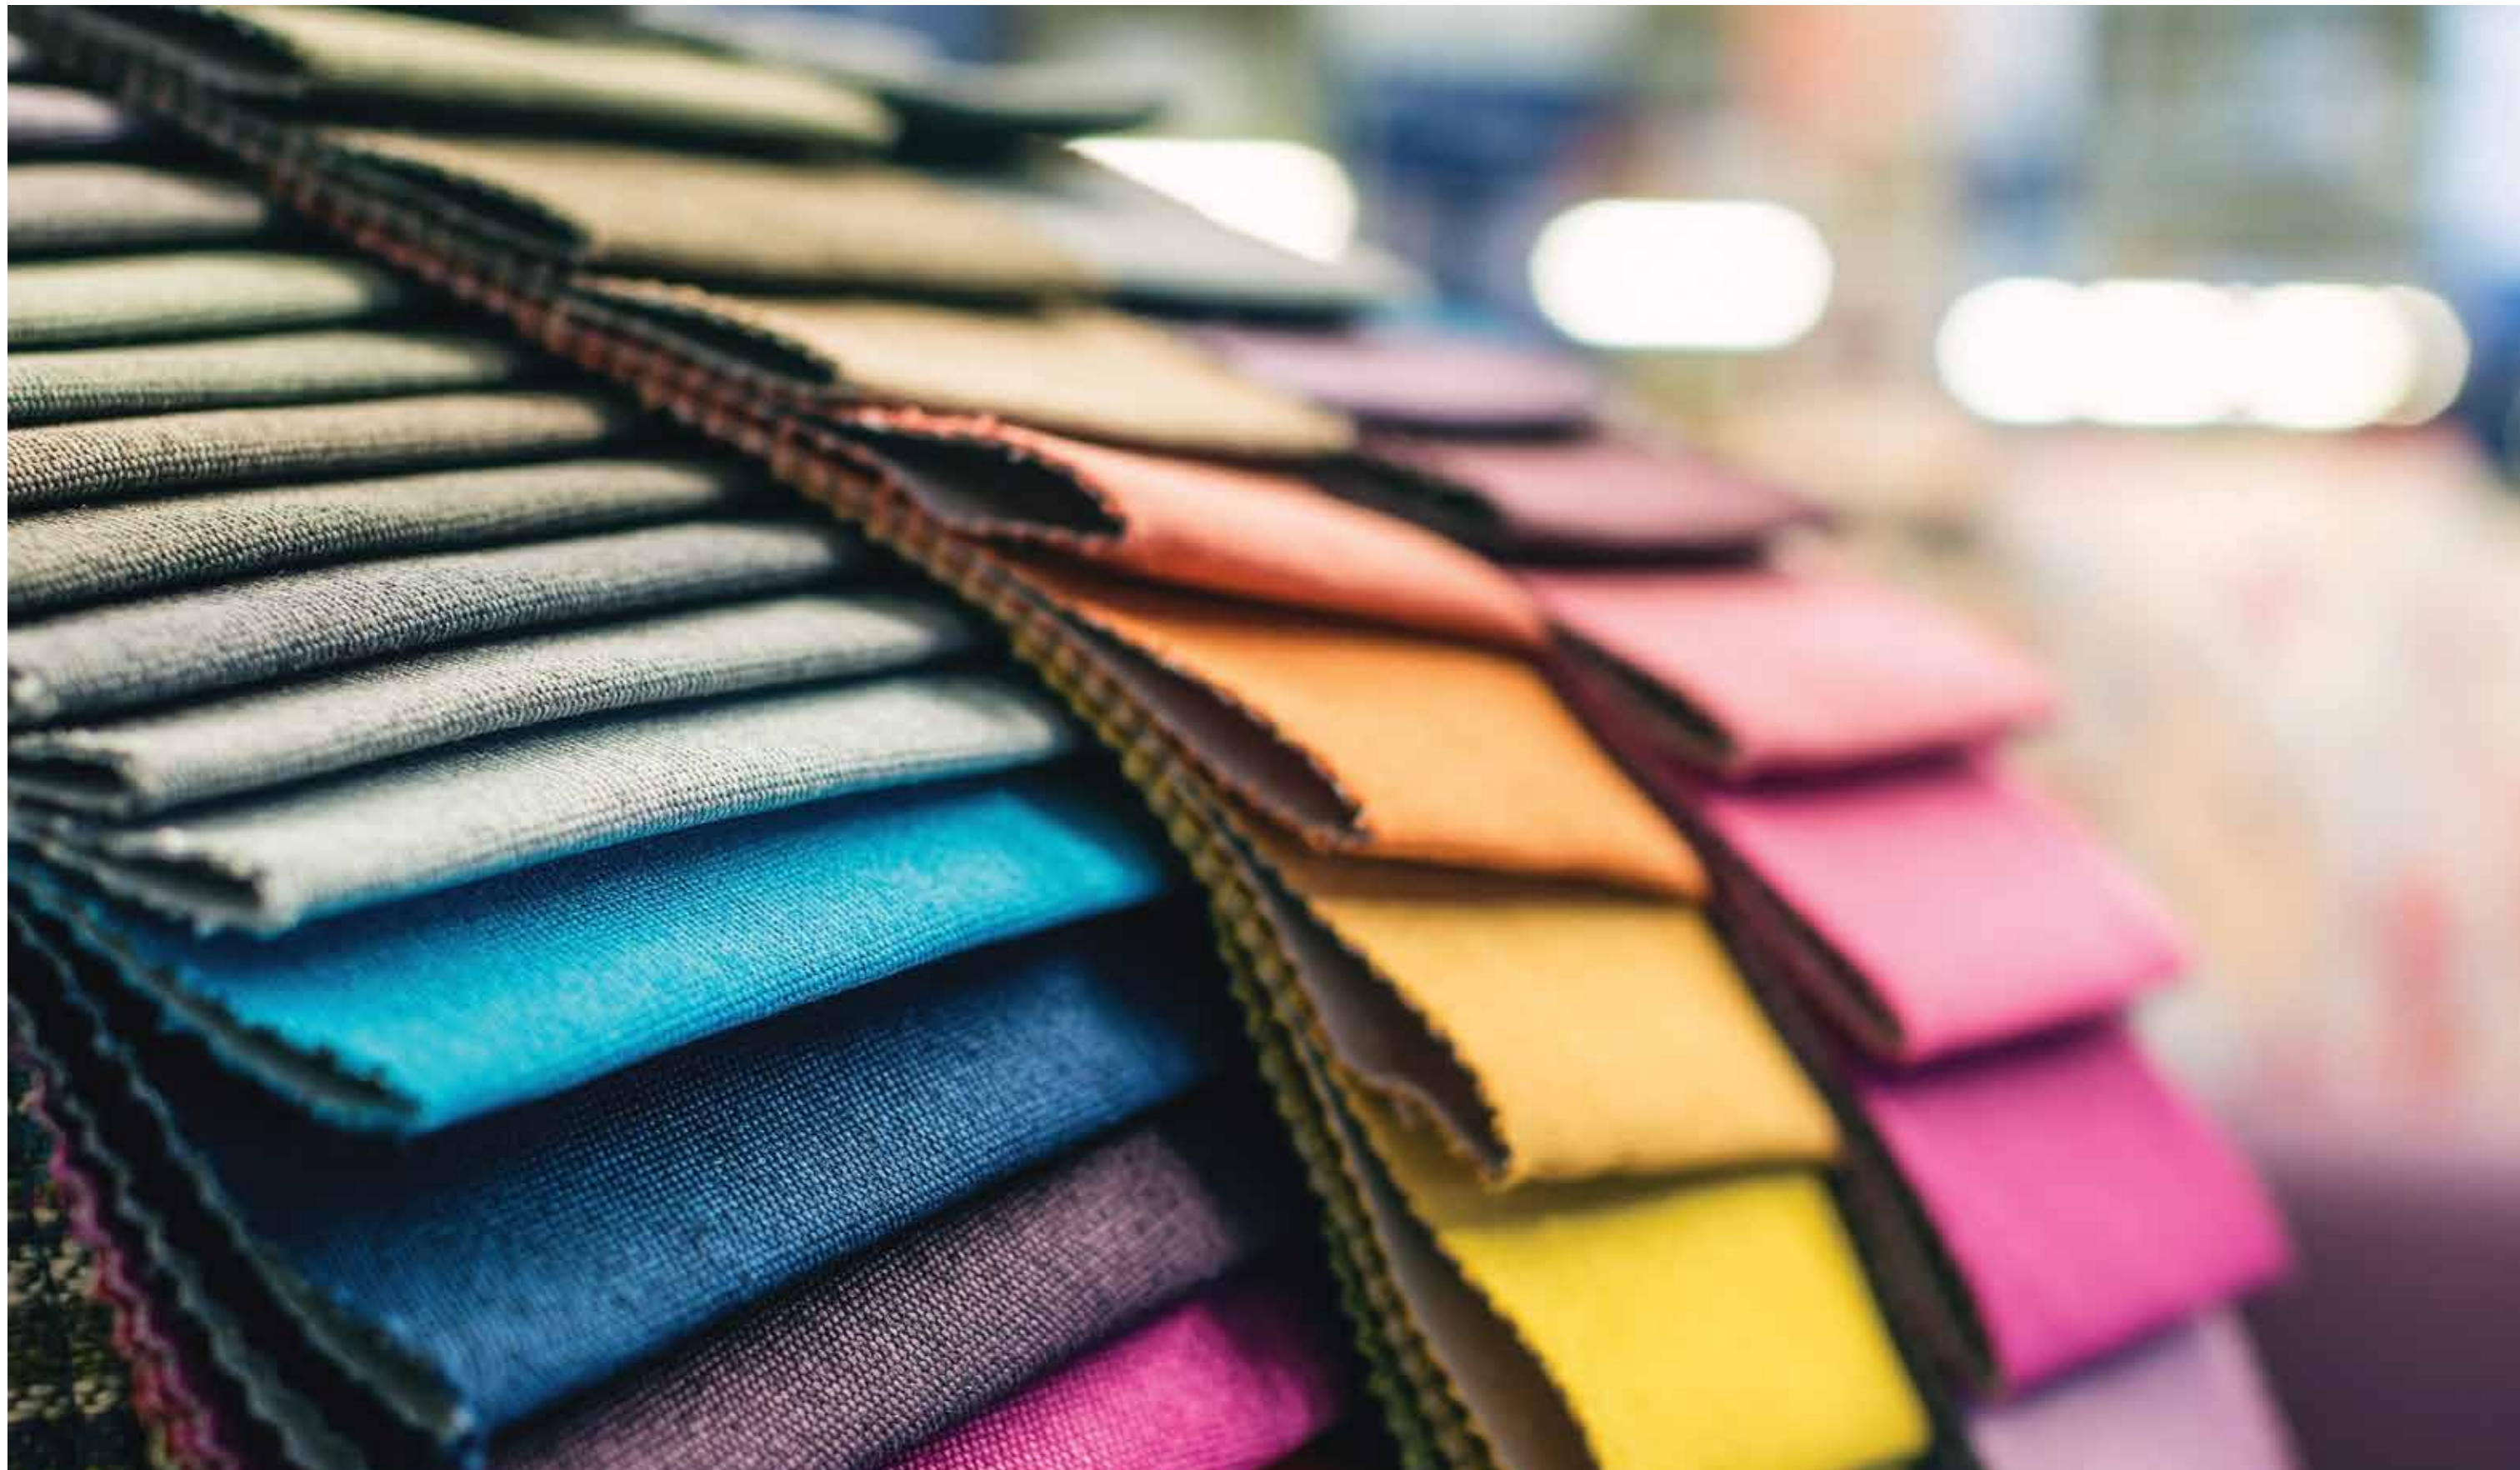

### Upholstered Wall Panels

What better way to create or complement your interiors than with stunning upholstered wall panels. Your artistic flair can be brought to life by choosing from a range of fabrics, materials and finishes to create a truly imaginative backdrop.

We can match upholstered wall panels to the existing décor of your establishment or create a design that encompasses your hotel, restaurant or bar interior design scheme. Whether you're looking for a modern, unique design or something more traditional and classic, our team of specialists are driven to bring your ideal custom upholstered wall panels to life.

# Fabrics & Finishes

We offer you furniture customisation options to ensure you are purchasing products that you can truly be happy with. Our vast library allows you to choose from a wealth of luxurious, high-quality, contract standard fabrics and wood stains for your furniture. Ranging from faux leathers, plush velvets, warm or cool toned wood stains and even additional detailing such as piping and studding. We can provide you with an abundance of choices so you can tailor the perfect furniture pieces to match or complement your establishment.

# Fabrics & Finishes / Contract Quality

### Contract Quality

All fabrics proposed by Lugo are of contract quality, meeting the minimum British Standard of 40,000+ Martindale abrasion rubs. Upholstery fabrics used are either inherently Crib 5 FR (Fire Retardant) or can be treated to meet a Crib 5 medium hazard rating.

Our furniture is well engineered to withstand the rigours of busy hospitality environments and is constructed using the very finest quality timber from sustainable sources. FR certification can be provided if required. We will never compromise on quality no matter how challenging budgets may prove.

### Choose your Custom Contract Fabrics

We have an extensive library in excess of 10,000 contract quality fabrics and we are able to offer expert advice on upholstery designs to help unify your interior design scheme. Listed below are just some of the fabric companies we regularly work with:
