EXPAND YOUR CAPACITY EXTEND THE TRADING SEASON

MAXIMISE OUTDOOR SPACE

AEL are experts in providing outdoor shade and shelter solutions for leisure and hospitality spaces.

We offer our clients substantial solutions for extending their outdoor areas without the need for costly building works, from giant commercial umbrellas with endless printing and colour options, to large pergolas and roof structures that create extensive cover for seating areas.

We help clients gain more from their outdoor areas, transforming underused outdoor space into a functional and profitable alfresco dining areas.

EXTEND TRADING HOURS

Many of our solutions are designed for use in all-weather conditions, day or night, during the summer or in winter. It represents an important revenue stream for your business in the height of summer, but when cooler weather and the night draws in they can adapt to suit conditions.

An adjustable roof can be retracted or shut to fully enclose the area, with the addition of heat and light for the comfort of clients.

Even when the British weather lives up to its reputation, create an inviting warm ambience for customers with integrated heat and light solutions.

PERGOLAS

Wall Mounted Structures,
Retractable Roof

Our pergola structures provide all-weather cover with motorised adjustment of shade and shelter. Guests can enjoy the fresh air with an open roof that closes at the touch of a button, and when combined with optional windows and doors, provide complete enclosure.

Increase your trading space and revenues by creating an inviting warm space for customers to dine throughout the winter season.

Make the most of your outdoor space with options such as fixed glazing, bi-fold or sliding doors.

Integrated LED and infrared heaters can be added for the comfort of guests.

Seamlessly attach to an existing building or wall, with a variety of styles including a curved, inclined or flat roof. Suitable for small terrace areas to large spaces.

PAVILIONS

Free Standing Structures,
Louvred or Retractable Roof

Our free standing pavilion structures provide all-weather cover with motorised adjustment of shade and shelter. Guests can enjoy the fresh air with an open roof that closes at the touch of a button, and when combined with optional windows and doors, provide complete enclosure.

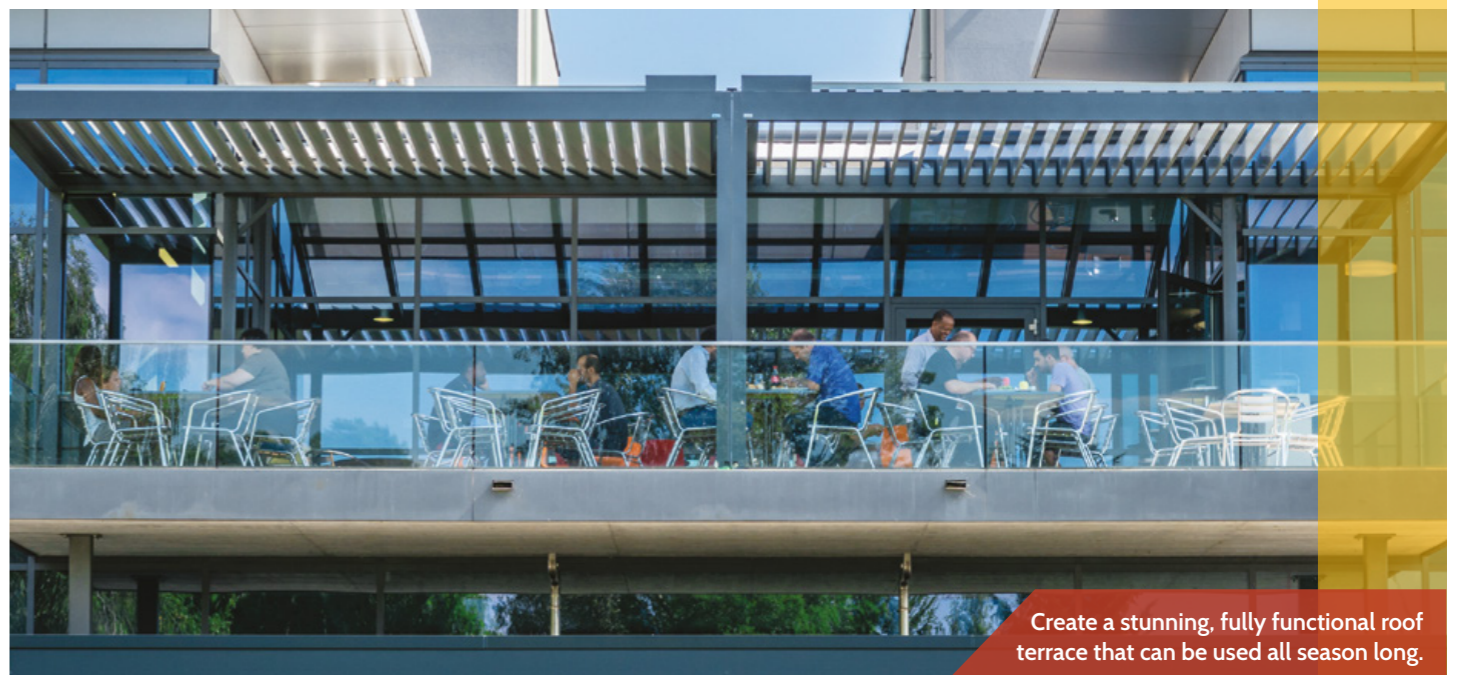

Pavilions can be free standing and made to measure for your space.

Fixed glazing, horizontal sliding doors or bi-fold doors are optionally available.

Rotating aluminium louvres can open or close depending on prevailing weather conditions.

Create a stunning, fully functional roof terrace that can be used all season long.

PERGOLAS

Wall Mounted Structures,
Fixed Glass Roof

The glass roof system is a unique choice for alfresco dining. Its fixed glazed roof lets in maximum light and provides shelter from the elements, and when combined with the option of a retractable awning can provide shade from the sun.

Motorised retractable awning option provides shade from the sun and protection from damaging UV rays.

Fixed glazing, horizontal sliding doors or bi-fold doors are optionally available.

Horizontal and vertical shading options provide protection and shade for guests.

Seamlessly attach to an existing building or wall.

GIANT UMBRELLAS

Branded

AEL offer a wide variety of giant umbrellas that cover up to 49sqm. They provide comfortable and stylish shelter for customers, together with heating and lighting options, making your brand stand out with numerous printing and colour options.

Improve aesthetics and raise brand awareness. We can print your logo, crest or message on the canopy and valance.

Over 70 colours to choose from, including optimum Class 5 acrylic fabrics offering water and stain resistance with UV protection.

When the nights draw in, heat and light enable trading to continue.

Increasing your trading area with round, square or rectangular sizes, up to 49sqm coverage per umbrella on selected models.

AWNINGS

Wall Fixed or Goal Post

Stobag awnings are available in various cassette types and styles, made to measure with Swiss precision. They are wall fixed and extend out to increase usable trading space and provide shade and shelter, while free standing goal post awnings are ideal for open spaces.

Add a splash of colour and enhance your kerb appeal. We can print your logo, crest or message on the canopy and valance.

Coverage up to 90sqm per awning possible with selected models.

Heat and light options can be integrated for the comfort of guests.

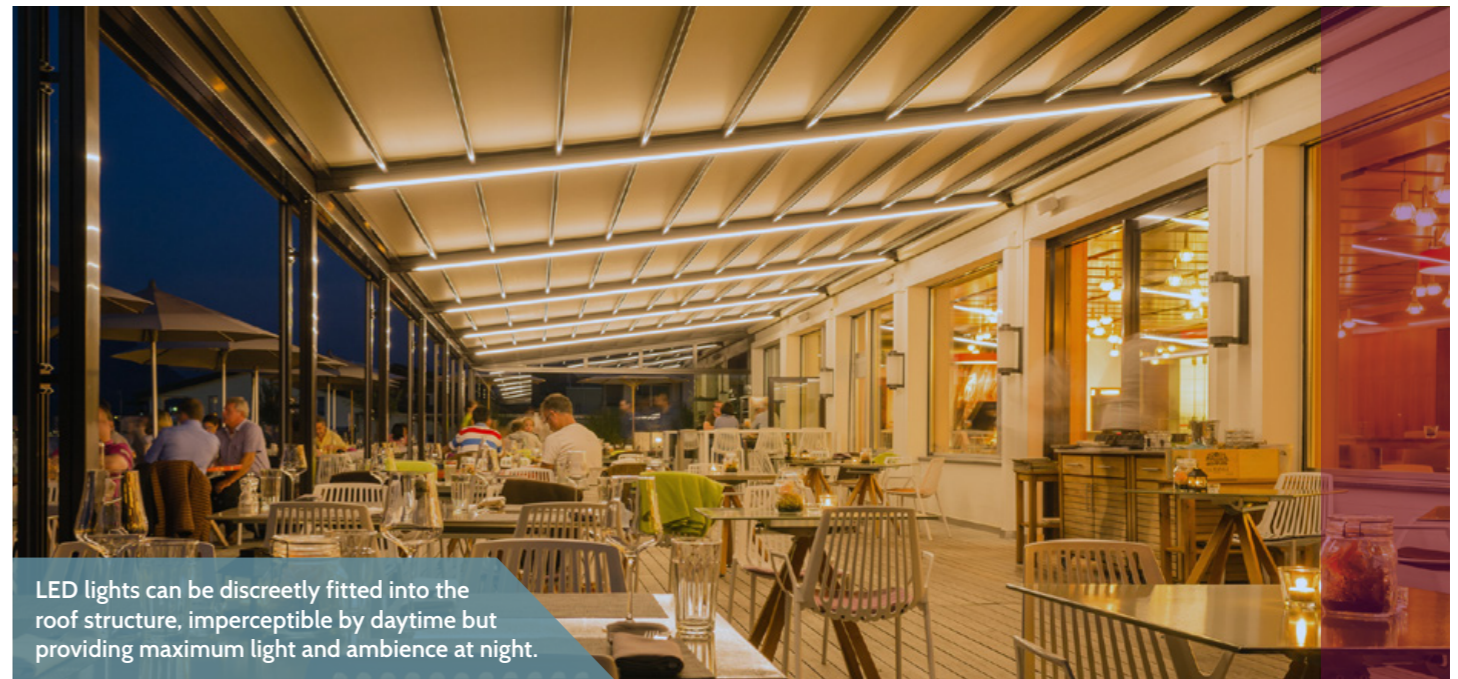

Provide extra space with a free standing goal post awning when attachment to your building is not possible

HEAT & LIGHT

Integrated and Free Standing

Heat and light is vitally important for eating and drinking outside and the perfect way to expand the usage of our structures and solutions from day through to night.

LED lights can be discreetly fitted into the roof structure, imperceptible by daytime but providing maximum light and ambience at night.

Giant Umbrellas with integrated heat and light.

Our range of mains gas, bottled gas and electric heaters are made in Britain to CE approved standards.

When the night draws in, close the roof and switch on the lights to create a thriving, busy trading area.
