

## **Re-Cognition Health Limited Statement on our Commitment to GDPR**

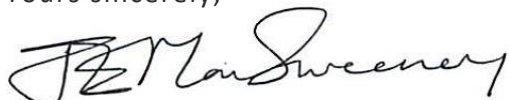

Re-Cognition Health Limited has appointed a team, with executive oversight, who have assessed the requirements of the GDPR and planned a programme of work to achieve compliance. We have been working with our suppliers and partner organisations to ensure this work programme is robustly delivered to enable Re-Cognition Health Limited to meet our obligations under the GDPR.

Our work programme has comprised:

- Appointment of a Data Protection Officer (DPO): You can contact our DPO at [DPO@re-cognitionhealth.com](mailto:DPO@re-cognitionhealth.com).
- Policy Development: We continue to develop and review our range of both clinical and administrative policies to ensure they meet GDPR standards.
- Privacy policy and transparency: We have undertaken a thorough review of the data we process and control and have updated our documentation to ensure we are open and transparent to individuals about how we use their personal data.
- Individuals Rights: We are working to ensure we have policies and processes in place to fully implement individual's rights under GDPR.
- Data Protection Impact Assessments (DPIA): We are working to ensure DPIAs are embedded into our processes and undertaken where they are needed.
- Training & Awareness: We continue to build awareness and undertake training across our teams on the GDPR and its implications.
- Supplier & Partner relationships: Where appropriate, we will be using all reasonable endeavours to ensure that our third parties and suppliers are fully complying with the GDPR.
- Re-Cognition Health Limited will continue to monitor our ongoing compliance with the GDPR.

**If you have any further queries about our commitment to GDPR please contact our Data Protection Officer via email at [DPO@re-cognitionhealth.com](mailto:DPO@re-cognitionhealth.com).**

Yours sincerely,

**Dr Emer MacSweeney**  
Medical Director/CEO
