

COMPETITORS INFORMATION NO. 12

EAST AFRICAN SAFARI CLASSIC RALLY 2019

Date: 25th November, 2019

Time: 1730hrs

To All Competitors, Service Crews and Officials,

RE: PROLOGUE ALTERNATIVE TYRES / TANZANIA RULES & REGULATIONS

1. Use of Alternative Tyres for Prologue

Competitors are free to use additional tyres over and above the 36 tyres allocated.

2. Weigh bridges – Tanzania

Tanzania Roads Authority requires all heavy commercial trucks, exceeding 3 tonnes, to pass all the weighbridge stations along the network of roads we will use. **You must visit all stations along the prescribed route.** The service road book, has clearly marked stations. Kindly ensure you note them down clearly.

Please note that there is a fine applicable for failure to comply with this regulation and possible impound of the vehicle.

The process doesn't take up a lot of time but make an allowance for this in your travelling time when you plan.

3. Speed zone limits – Tanzania

Please take note, any speeding above the prescribed limit of 50kph, is liable to instant fine and the authorities take this very seriously.

Evidence of speeding is shown, and the fine applicable will be paid on the spot, and an official receipt printed and handed over to the driver.

Furthermore, automatic number plate recognition cameras (ANPR) are in use, strategically positioned along the network of roads. These are being used to check on any prior speed fines.

It is very important, that you keep all your printed speed ticket fines with you whilst in Tanzania and avail the tickets to any spot check locations where the need may arise. Otherwise you may be held liable for a double fine, plus an additional penalty charge.
