Test Weights

“THE COMPLETE PLANT PROVIDER”

The Complete Plant Provider...

AB 2000 was established in 1995 by Adam Bruce to provide a comprehensive heavy plant hire service to the Scottish construction industry. Since its formation the company has grown beyond recognition but is still family owned and run and continues to offer a personalised machinery hire service to many different sectors, including

Quarrying
Renewables
Roads
Railways
Military

Port Operations
Ship Building
Pipeline
Construction
Power Generation

Expansion in the company has been achieved by continued investment in new plant as well as a number of acquisitions. Moving to our purpose built depot in Cambuslang near Glasgow gave us more space for growth and development in the fleet as well as the comprehensive fleet support and engineering services we provide. With new depots, Inverness and Aberdeen the company can now offer our services more efficiently to the North of Scotland.

The services we offer include:

- Plant hire (operated & self-drive)
- Crane hire & contract lifts (CPA)
- Rail plant hire & services
- Machinery movement & installation services
- Test weight hire & proof load testing services
- Heavy haulage

We aim to provide a complete plant hire service to our customers. Our sales team and hire desk team are a one stop shop for all your hire needs.

We pride ourselves on the accuracy and speed of service going the extra mile to satisfy and exceed our customers' demands every time.

PLANT HIRE...RAIL PLANT...CRANE HIRE

Hire

We are proud to employ one of the most experienced plant management teams in Scotland who, using our comprehensive plant hire software, operate a modern fleet of machines. Our hire desk is available to arrange each hire individually and offer advice and information when required.

Service

Our fully equipped service department is run using the latest Syrinx software to ensure our machines are fully serviceable prior to arriving on site. We pride ourselves on being able to meet and exceed our customers' needs across all our services. Options such as biodegradable oils, reversing cameras, safety lights and GPS trackers and custom attachments are available on request.

Safety

AB2000 is committed to continual improvement and investment in training and safety for our operators and staff. Our pool of fully qualified and experienced operators is 100% CPCS qualified, we do not use agency workers. The safety of our operators and the public are our primary concern, our operators carry out a full safety inspection of their machine each day. All operators and staff are subject to AB2000 drugs and alcohol testing policy. Our Railway department offers railway compliant PTS/Sentinel OTP operators, drivers and fitters to the rail infrastructure industry.

Accreditations

AB2000 is fully audited and accredited by Link-up, Achillies UVDB and Exor. We are also members of the SPOA, CPA, RPA, and FTA.

PLANT & CRANE HIRE

PLANT HIRE

AB 2000 prides itself on being a **"one stop shop"** for all heavy plant hire requirements. With our extensive catalogue of plant we aim to meet the needs of the construction and engineering industries.

We have made continual investment in our fleet to ensure our plant meets with current safety and environmental standards. Our experienced hire sales staff are on hand to provide advice and information when required.
