

Heritage

Brooks have enjoyed long experience in producing forged and cast components for Heritage sponsored projects.

Working closely with our extensive customer base in the quality railing and fencing industry, Brooks has been involved in the following recent contracts:

- Forged components in Art Deco Style And Brooks Hollow Rail system.
Haden Hill Park, West Midlands.
- Forged Steel Pickets, hot forged scrolls.
Oak House Manor House, West Midlands.
- Forged Steel Pickets, Fence Post Scrollwork Gate Hinges and Components.
Priory Hall Park, Dudley West Midlands.
- Forged railing pickets and punched rails.
Regents Park London.
- Cast Iron Baluster embellishment.
Royal College London.
- Highly Decorative Forged Gate.
North Yorkshire Manor House.

In addition to these highly specialized works, Brooks design and supply a wide range of bespoke items to the quality end of the gate and railings industry.

Brooks have existing tooling on hand to produce an extensive range of traditional designs in forged steel or cast iron. Using their modern tool room, tooling can be produced from drawings, photographs or samples to bring back to life the designs of yesteryear.
