

At Byworth Boilers we understand just how vital it is for your business to complete boiler servicing and repairs as quickly as possible, and keep downtime to an absolute minimum.

Waiting for parts just isn't an option!

That's why we keep literally thousands of spare parts in stock. Everything from a small moulded rubber gasket to a complete control panel. And, if the item you need is not already in our stores warehouse then the chances are we'll be able to get it for you within 24 hours.

Continuous stock items include burner spares, valves and mountings, feed pumps, control panels, water treatment equipment and various sizes of blowdown and feed tanks.

You'll also find our prices hard to beat! As a major boiler manufacturer we make considerable savings through bulk buying. These savings are passed on to our customers, which means we offer very competitive prices on all parts, not just for our boilers, but any make of boiler.

Our all embracing Boiler House Supplies Catalogue lists over 6,000 items and their prices and is a 'must have' reference document for every service engineer.

Being a manufacturer we can also provide a bespoke spare parts service for a whole range of articles. For example, we can supply boiler tubes cut to length or make rolled patches, hoop sections, furnaces and tube plates as well as blowdown tanks and feed tanks. All produced to your exact specification.

It's all part of the service from Byworth Boilers, the UK's leading independent manufacturer of steam boilers.
