

Aerial Enterprises (HK) Limited

In 1996, Aerial Enterprises (HK) Limited was established with the vision of providing the most important resources of a business – the people. We soon became one of the leading human resource solutions provider for Hong Kong International Airport Communities; and acquired ISO9001:2008 certificate in the scope of quality management system, ISO14001:2004 certificate in the scope of environmental management system and OHSAS18001:2007 certificate in the scope of occupational health and safety management systems.

In 2014, we expanded our business to provide comprehensive total engineering solutions. A subsidiary – Aerial Engineering Limited was established. We offer a wide range of cost effective and high quality repair and maintenance of non-motorized ground support equipment, design and build projects, as well as sales of ATA Spec 300 – CAT I and II shipping containers – a total engineering solutions to our valuable clients.

With our core value “Customer Satisfaction, Work Safety, Positive Communication, Innovation, Continuous Improvement, Team Work, Green Environment”, our management system is certified with ISO9001:2008; ISO14001:2004 and OHSAS18001:2007.

In 2015, we bring a major shift in our business by setting up our own event design team.

The team is created by an experienced event designer, Mr. Andrew Li. He is leading the design team with his previous experience in design and production field to enhance the Aerial portfolio.

Mr. Li has been the Design Manager

In the team, Mr. Yip plays an important role as well. He is has been the Chief Designer

These alliances and opportunities will strengthen the Aerial and be at the forefront of event design and production.

Our success has always been based around delivering excellent service for our customers and has become a brand acknowledged for personal commitment, proactive solutions and local strength. At the heart of our success are our employees who focus on the customer’s need and provide individually customized total solutions.
