

Quick Guide to Hand Grinder Accessories

Type	Description	Uses	Compatible Machines
	<p>Diamond Cup Discs</p> <p>Red – Soft Bond Yellow – Medium Bond Blue – Hard Bond</p>	Soft Bond for hard materials & aggressive grind, Medium Bond for general purpose & Hard Bond for soft materials & long life with extended wear rate.	5" 9"
Segments are 'more forgiving' - they do not break off as easily, or snap belts if Grinder hits obstruction e.g. a Bolt			
	<p>T-Section Cup Disc</p>	Premium disc for faster stock removal.	9"
	<p>PCD Cup Discs (Polycrystalline Diamond)</p> <p>6 Piece for thick coating removal 18 Piece for thin coating removal</p>	For removal of adhesive, rubberised compounds & soft composition materials. i.e. Latex.	5" 9"
The unique design of the PCD's produces a scraping rather than grinding action, to effortlessly remove 'sticky' materials without clogging up.			
	<p>Resin Diamond Pad</p> <p>50-3000 Grit & Buff</p>	For light grinding & polishing concrete terrazzo, marble & granite.	Wet Polisher
	<p>Cutting Blades</p> <p>Bore 22.23mm Standard & Premium</p>	For creating expansion joints in concrete & flooring systems to allow for substrate movement & prevent cracks during the curing process.	5" 9"
