# Technical Specification

## Breakdown

**1** Each Project Slide glass door is individually cut to size. Available either wall or ceiling mounted all tolerances are made to the opening size ensuring a perfect fit every time.

Easy to follow installation instructions are included, each door will arrive with the rollers pre-fitted and tracks cut to size complete with handles and end caps.

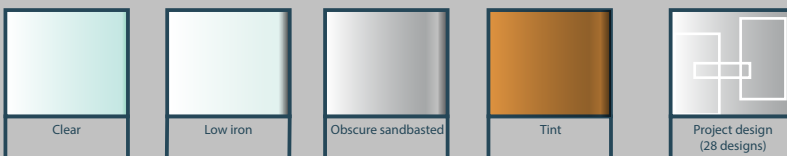

**2** Glass is 10mm - 12mm UK Toughened glass meeting all BS and EN standards. Each door is carefully cut and toughened to size using only the highest quality European manufactured glass. Edges are in-line flat polished allowing for an uninterrupted frameless view.

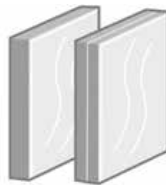

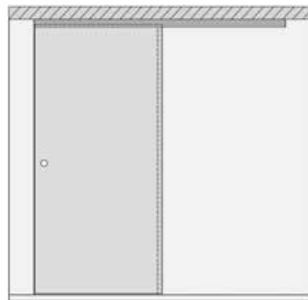

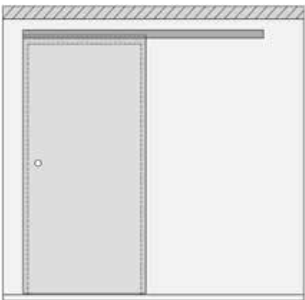

**3** Glass options include Clear, Low Iron, Obscure, Sandblasted etched, or why not include a project design and add a bespoke element to your glass door. Choose from a range of 28 contemporary designs bringing subjects such as geometric, nature, the human form and transport.

Perfect for any commercial application including hotels, bars, restaurants and offices - company logos can be added to the glass doors giving numerous branding options.

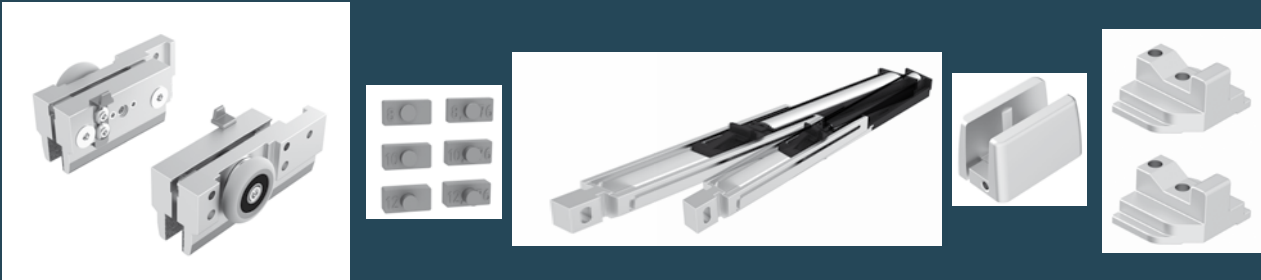

**4** System is available for doors from 790mm to 2000mm width, please contact us for doors outside of these sizes. Also available for double glass doors and doors with fixed side panels.
