

Designer's assessment of safety and health hazards/risks

Designer Company	Project: Ref No:	Designer: Checker:	Date: Sheet no:
Design Stage: <i>Note: review previous stage b/f items</i>			
No.	Key construction hazards (or risks) identified	Evaluations. Design decisions made (or alternative actions)	
Notes re providing information [see Chap 4]	Item Nos. (from above)	Remarks	
a) for client's designers [section 4.3] b) 'Schedule 1' hazards/particular risks [Box B] c) other 'particular risks' [Box C] d) re assumed construction methods [Box D] e) for Safety File [section 4.5] f) in-house: b/f to future stages			

Other parties please take note: These are designer's risk evaluations of design options carried out in-house for the purpose of our complying with designers' duties under the Safety, Health and Welfare at Work (Construction) Regulations 2006. The evaluations relate only to those aspects/elements of the project which we are responsible for designing under the terms of our appointment by our client. Other parties should not rely on these evaluations for their own purposes; in particular, contractors, who must deal with and control all risks arising during construction, must carry out their own definitive risk assessments *ab initio* for that purpose.
