6oz Conical Champagne

6oz 0.49kg 2853.33 **D S S2 B BB**

A modern twist on the more Traditional straight line patterns! The Swirl cut is formed by a double helix cut, swirling round the pieces in both directions. Beautiful, either Fully Cut (with no engraving) or Panelled (with an engraving). These Flutes will stand out, at over 260mm tall and weighing in at almost half a kilo each!  
The Swirl cut is shown to the right, the black outline is the item, the solid lines show the cut on the front of the piece, while the dotted lines show the cut at the rear of the piece.

The suite of Elite items includes a Wine Glass and Decanter, Champagne Flute and Beer Glass. The Elite cut is an organic, fluid design, formed by two curved lines crossing, as shown on the left. The Beer Glass is already proven to be a popular item! A superior 'His and Hers' gift is the Wine and Beer glass set, presented in a single Satin Lined Box. Choose Elite as a simple yet elegant piece.

10oz Brandy

10oz 0.44kg 2894.51 **D S S2 B BB**

With cuts creating an effect of flames following the contours of the crystal, the Flame cut is another organic design with a more contemporary feel than the traditional straight line cuts. Like the Swirl Cut, these items are perfect as Fully Cut with no engraving, or as Panelled items. Unlike any other cut crystal items, the Flame cut allows up to 4 engraving positions!  
The drawing to the right shows the Flame cut. The natural spacing of the cuts provide well proportioned engraving areas on each item.

# Traditional Whisky Sets

Whisky sets are available in a variety of combinations, either all panelled, all fully cut or a panelled decanter with fully cut tumblers. Satin Lined Boxes and Trays are also offered for each combination, either for two glasses (Figure of 8 Tray) or 4 glasses (Hide Tray) along with a Decanter. Choosing a set complete with Satin Lined Box and Tray will ensure a perfectly presented set that can be displayed with pride.

A Tantalus to hold two decanters (either panelled or fully cut) is available too, complete with escutcheon and magnetic clasp. As shown below, right.

Inverness Crystal is the UK's premium range of Cut Crystal. Crafted for engravers, the patterns cut into the crystal are thoughtfully designed to provide a clear panel for engraving your message and/or design. Fully cut options are available too, however these items are not suitable for engraving.

Available with Branded Satin Lined Boxes, Inverness Crystal items are carefully and beautifully packaged for presentation and safekeeping. The Packaging Suffix legend within the brochure describes the various packaging options, while each item/set is shown along with which of those packaging options are available.

A mark of quality, the Inverness Crystal logo depicts the skyline surrounding the iconic Castle of the City of Inverness.

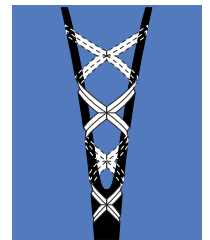

The suite of Elite items includes a Wine Glass and Decanter, Champagne Flute and Beer Glass. The Elite cut is an organic, fluid design, formed by two curved lines crossing, as shown on the right. The Beer Glass is already proven to be a popular item! A superior 'His and Hers' gift is the Wine and Beer glass set, presented in a single Satin Lined Box. Choose Elite as a simple yet elegant piece.

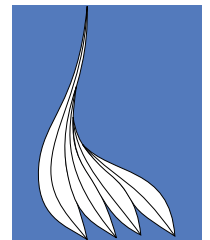

A modern twist on the more Traditional straight line patterns! The Swirl cut is formed by a double helix cut, swirling round the pieces in both directions. Beautiful, either Fully Cut (with no engraving) or Panelled (with an engraving). These Flutes will stand out, at over 260mm tall and weighing in at almost half a kilo each!

The Swirl cut is shown to the right, the black outline is the item, the solid lines show the cut on the front of the piece, while the dotted lines show the cut at the rear of the piece.

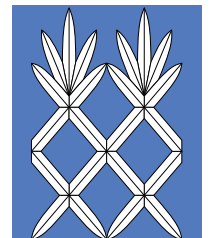

With cuts creating an effect of flames following the contours of the crystal, the Flame cut is another organic design with a more contemporary feel than the traditional straight line cuts. Like the Swirl Cut these items are perfect as Fully Cut with no engraving, or as Panelled items. Unlike any other cut crystal items, the Flame cut allows up to 4 engraving positions!

The drawing to the right shows the Flame cut. The natural spacing of the cuts provide well proportioned engraving areas on each item.

First designed and manufactured in the UK over 30 years ago, the Traditional cut is where Inverness Crystal began. A timeless design well suited to just about any shape of piece. With such a broad range of items cut with the Traditional pattern, shown on the right, sets can be created such as Wine or Brandy sets. You will find a wide range of Whisky Sets on page 10.

The most intricate pattern of the Inverness Crystal range. Fluted Olives encircle the whole of the base of each piece, with a single horizontal cut above, bringing the pattern into a sophisticated Diamond pattern and crowned with single, vertical, straight cuts.
